**A Pedagogical Design for Human Flourishing** Cynthia McCallister, 2022-03-28 In A Pedagogical Design for Human Flourishing Transforming Schools with the McCallister Model Cynthia McCallister presents a revolutionary paradigm for education that is practical conceptually convincing and grounded in contemporary behavioral science theory Beginning with the assertion that equality of educational opportunity depends on access to experiences that are sufficiently appropriate and rich to enable the achievement of diverse human potentials she provides a comprehensive school design for intervention that demonstrates how to achieve it Grounded in recent advances in learning science McCallister asserts three necessary conditions for learning the need for learners to have access to diverse rich environmental experiences the need for them to enjoy fundamental freedom and autonomy to direct their own learning and access to full and free forms of association In her model these conditions provide what is necessary for learners to coordinate their minds with others to develop their identities personalities and talents These conditions are animated in concrete procedures that can be adapted to a wide variety of populations in formal informal and remote educational settings The procedures take the form of rules that learners comply with in the exercise of their freedom When they are followed the rules provide a grammar for the social norms that govern the moral worlds of learners and compel them to flourish Tested over two decades in her work as a teacher scholar and school reformer in more than 20 NYC public schools the McCallister Method has delivered an innovative and disruptive approach to schooling that has proven successful in finally transforming low performing industrial schools into 21st century learning organizations Online support material includes assessments records surveys and more to be used in school design and classroom settings

**Excellence Through Equity** Alan M. Blankstein, Pedro Noguera, Lorena Kelly, 2016-02-26 Excellence Through Equity is an inspiring look at how real world educators are creating schools where all students are able to thrive In these schools educators understand that equity is not about treating all children the same They are deeply committed to ensuring that each student receives what he or she individually needs to develop their full potential and succeed To help educators with what can at times be a difficult and challenging journey Blankstein and Noguera frame the book with five guiding principles of Courageous Leadership Getting to your core Making organizational meaning Ensuring constancy and consistency of purpose Facing the facts and your fears Building sustainable relationships They further emphasize that the practices are grounded in three important areas of research that are too often disregarded 1 child development 2 neuroscience and 3 environmental influences on child development and learning You ll hear from Carol Corbett Burris Michael Fullan Marcus J Newsome Paul Reville Susan Szachowicz and other bold practitioners and visionary thinkers who share compelling and actionable ideas strategies and experiences for closing the achievement gap in your classrooms and school Ensuring that all students receive an education that cultivates their talents and potential is in all our common interest As Andy Hargreaves writes in the coda The

opportunity for all Americans is to articulate and believe in an inspiring vision of educational change that is about what the next generation of America and Americans should become not about a target or ranking that the nation should attain From the Foreword by Archbishop Desmond Tutu Letting go of a system of winners and losers in favor of what is proposed in this book is a courageous leap forward that we all must take together Let this bold practical book be a guide and may you travel into this new exciting vista in which every child can succeed

Slow Burn R. Jisung Park, 2025-07-29 How the subtle but significant consequences of a hotter planet have already begun from lower test scores to higher crime rates and how we might tackle them today It s hard not to feel anxious about the problem of climate change especially if we think of it as an impending planetary catastrophe In Slow Burn R Jisung Park encourages us to view climate change through a different lens one that focuses less on the possibility of mass climate extinction in a theoretical future and more on the everyday implications of climate change here and now Drawing on a wealth of new data and cutting edge economics Park shows how climate change headlines often miss some of the most important costs When wildfires blaze what happens to people downwind of the smoke When natural disasters destroy buildings and bridges what happens to educational outcomes Park explains how climate change operates as the silent accumulation of a thousand tiny conflagrations imperceptibly elevated health risks spread across billions of people pennies off the dollar of productivity fewer opportunities for upward mobility By investigating how the physical phenomenon of climate change interacts with social and economic institutions Park illustrates how climate change already affects everyone and may act as an amplifier of inequality Wealthier households and corporations may adapt quickly but without targeted interventions less advantaged communities may not Viewing climate change as a slow and unequal burn comes with an important silver lining It puts dollars and cents behind the case for aggressive emissions cuts and helps identify concrete steps that can be taken to better manage its adverse effects We can begin to overcome our climate anxiety Park shows us when we begin to tackle these problems locally

**Transforming Urban Education** Kenneth Tobin, Ashraf Shady, 2014-04-03 Transformations in Urban Education Urban Teachers and Students Working Collaboratively addresses pressing problems in urban education contextualized in research in New York City and nearby school districts on the Northeast Coast of the United States The schools and institutions

involved in empirical studies range from elementary through college and include public and private schools alternative schools for dropouts and museums Difference is regarded as a resource for learning and equity issues are examined in terms of race ethnicity language proficiency designation as special education and gender The contexts for research on teaching and learning involve science mathematics uses of technology literacy and writing comic books A dual focus addresses research on teaching and learning and learning to teach in urban schools Collaborative activities addressed explicitly are teachers and students enacting roles of researchers in their own classrooms cogenerative dialogues as activities to allow teachers and students to learn about one another s cultures and express their perspectives on their experienced realities and negotiate shared recommendations for changes to enacted curricula Coteaching is also examined as a means of learning to teach teaching and learning and undertaking research The scholarship presented in the constituent chapters is diverse reflecting multi logicality within sociocultural frameworks that include cultural sociology cultural historical activity theory prosody sense of place and hermeneutic phenomenology Methodologies employed in the research include narratology interpretive reflexive and authentic inquiry and multi level inquiries of video resources combined with interpretive analyses of social artifacts selected from learning environments This edited volume provides insights into research of places in which social life is enacted as if there were no research being undertaken The research was intended to improve practice Teachers and learners as research participants were primarily concerned with teaching and learning and as a consequence as we learned from research participants were made aware of what we learned the purpose being to improve learning environments Accordingly research designs are contingent on what happens and emergent in that what we learned changed what happened and expanded possibilities to research and learn about transformation through heightening participants awareness about possibilities for change and developing interventions to improve learning

Wilson,2014-09-18 A biography of the physician and health guru examining his views on science and medicine as he evolved religiously Purveyors of spiritualized medicine have been legion in American religious history but few have achieved the superstar status of Dr John Harvey Kellogg and his Battle Creek Sanitarium In its heyday the San was a combination spa and Mayo Clinic Founded in 1866 under the auspices of the Seventh day Adventist Church and presided over by the charismatic Dr Kellogg it catered to many well heeled health seekers including Henry Ford John D Rockefeller and Presidents Taft and Harding It also supported a hospital research facilities a medical school a nursing school several health food companies and a publishing house dedicated to producing materials on health and wellness Rather than focusing on Kellogg as the eccentric creator of corn flakes or a megalomaniacal quack Brian C Wilson takes his role as a physician and a theological innovator seriously and places his religion of Biologic Living in an on going tradition of sacred health and wellness With the fascinating and unlikely story of the San as a backdrop Wilson traces the development of this theology of physiology from its roots in antebellum health reform and Seventh day Adventism to its ultimate accommodation of genetics and eugenics in the Progressive Era A well researched biography that seeks to restore the reputation of the doctor satirized in T C Boyle s novel The Road to Wellville and in the film of the same name Wilson has done much more than provide a sympathetic biography of the man who headed the once famous Battle Creek Sanitarium There s much here to interest both adherents to and skeptics of today s alternative and holistic medicines as well as fans of American history especially the history of religions Kirkus Reviews While he may look like a certain Kentucky Fried Colonel Kellogg was an early advocate of a vegan diet and the intriguing figure behind the famous Battle Creek Sanitarium that paved the way for many contemporary ideas of holistic health and wellness Wilson s lively and accessible writing introduces readers to spiritualism millennialism the temperance and social purity movements Swedenborgians and Mormons A thought provoking portrait of a charismatic intelligent medical doctor who never stopped absorbing new information and honing his theories even when he was faced with disfellowship from his church and ostracism by friends and colleagues ForeWord Reviews Wilson does an admirable job of portraying how the doctor s beliefs shifted and adapted over time Readers with a keen interest in religious history particularly as it relates to health care will enjoy this biography the most Library Journal **A Case for Change in Teacher Preparation** Julie Gorlewski,Amanda Winkelsas,Suzanne N. Rosenblith,Corrie Stone-Johnson,Elisabeth Etopio,David

Gorlewski, Tiffany Karalis Noel, Bobbie Finocchio, Amanda Seccia, Ling Zhai, Erin Kearney, Xiufeng Liu, Nooshin Shafaei, Tanika Shedrick, 2021-08-19 Why are preservice teachers often told by veteran teachers to forget what you learned in teacher preparation programs Why is there a gap between pedagogical practices employed at schools and those taught at colleges and universities And why after evidence from countless studies are there still so few teachers of color working in our rapidly diversifying schools These questions are addressed in this book which describes a reconceptualized teacher preparation program based on a teacher residency model This model is grounded in three core beliefs first that teacher quality is a shared responsibility between universities and school districts second that all students have a right to high quality teachers who are as racially ethnically and linguistically diverse as the students they teach and third that for education to be transformative future educators must have the right balance of theoretical knowledge and practical experiences grounded in specific contexts Through a combination of rich description and qualitative and quantitative program data the authors make the case that university programs focused on the communities they serve can ensure more effective learner ready teachers who remain in the profession longer By providing a detailed blueprint for program development the contents of this book will be of value and interest to educational leaders policy makers and researchers *Teaching to Change the World* Jeannie Oakes, Martin Lipton, Lauren Anderson, Jamy Stillman, 2015-11-17 This is an up to the moment engaging multicultural introduction to education and teaching and the challenges and opportunities they present Together the four authors bring a rich blend of theory and practical application to this groundbreaking text Jeannie Oakes is a leading education researcher and former director of the UCLA teacher education program Martin Lipton is an education writer and consultant and has taught in public schools for 31 years Lauren Anderson and Jamy Stillman are former public school teachers now working as teacher educators This unique comprehensive foundational text considers the values and politics that pervade the U S education system explains the roots of conventional thinking about schooling and teaching asks critical questions about how issues of power and privilege have shaped and continue to shape educational opportunity and presents powerful examples of real teachers working for equity and justice Taking the position that a hopeful democratic future depends on ensuring that all students learn the text pays particular attention to inequalities associated with race social class language gender and other social categories and explores teachers role in addressing them The text provides a research based and practical treatment of essential topics and it situates those topics in relation to democratic values issues of diversity and cognitive sociocultural and constructivist perspectives on learning The text shows how knowledge of education foundations and history can help teachers understand the organization of today s schools the content of contemporary curriculum and the methods of modern teaching It likewise shows how teachers can use such knowledge when thinking about and responding to headline issues like charter schools vouchers standards testing and bilingual education to name just a few Central to this text is a belief that schools can and must be places of extraordinary educational quality and institutions in the service of social justice Thus the

authors address head on tensions between principles of democratic schooling and competition for always scarce high quality opportunities Woven through the text are the voices of a diverse group of teachers who share their analyses and personal anecdotes concerning what teaching to change the world means and involves [Click Here for Book Website](#) Pedagogical Features Digging Deeper sections referenced at the end of each chapter and featured online include supplementary readings and resources from scholars and practitioners who are addressing issues raised in the text Instructor s Manual offers insights about how to teach course content in ways that are consistent with cognitive and sociocultural learning theories culturally diverse pedagogy and authentic assessment New to this Edition *Experiencing Environment and Place through Children's Literature* Amy Cutter-Mackenzie, Phillip Payne, Alan Reid, 2014-06-11 Recent scholarship on children s literature displays a wide variety of interests in classic and contemporary children s books While environmental and ecological concerns have led to an interest in ecocriticism as yet there is little on the significance of the ecological imagination and experience to both the authors and readers young and old of these texts This edited collection brings together a set of original international research based chapters to explore the role of children s literature in learning about environments and places with a focus on how children s literature may inform and enrich our imagination experiences and responses to environmental challenges and injustice Contributions from Australia Canada USA and UK explore the diverse ways in which children s literature can provide what are arguably some of the first and possibly most formative engagements that some children might have with nature Chapters examine classic and new storybooks mythic tales and image based and or written texts read at home in school and in the field Contributors focus on exploring how children s literature mediates and informs our imagination and understandings of diverse environments and places and how it might open our eyes and lives to other presences understandings and priorities through stories their telling and re telling and their analysis This book was originally published as a special issue of *Environmental Education Research*
