Seen Through a Prism of Color examines violence from a structural perspective including violence in prisons schools and colleges churches homes and within political corporate structures This unique hard hitting book argues that individual violence stems from the structure of our society and its institutions Most of the contributors are African American educators and practitioners who have a thorough understanding of structural violence Some have experienced political violence others have expert knowledge of structural violence within the criminal justice system educational institutions and elsewhere even in churches and homes Their writings are undeniably unflinchingly authentic it is impossible not to be moved and enraged by what they have to say The good news is that in addition to calling attention to the structural violence in our society they provide excellent insights on how the situation might be resolved Violence as Seen Through a Prism of Color shows that much of the violence within the criminal justice system stems from decisions made at the highest levels of government that minority offenders are much more frequently convicted and more harshly sentenced than their white counterparts how cultural racism contributes to the construction of motives for lynching hate crime and police violence against Americans of color such as Abner Louima Amadou Diallo and Rodney King how the judicial system encourages black on black violence by neglecting to halt criminal activities in non white neighborhoods how in the words of Mahatma Gandhi Poverty is the worst form of violence You ll also learn how corporations are amassing great wealth through privatizing prisons and conscripting the labor of non violent African American prisoners how racial profiling affects people of color how the media has exploited black men imprisoned for minor drug offenses how and why violence occurs in and against the black church Helpful charts and tables like one that names the corporations that use prison labor supplement the material you ll be surprised at what you learn Extensive references are included at the end of each chapter

Thin Blue Fault Line - Policing America John C. Franklin, John F. Hein, 2021-02-22 Authors Franklin and Hein have witnessed firsthand difficulties experienced in some black communities They use their knowledge to analyze and discuss the interactions between American policing a subculture of the black community and the BLM movement The authors wrote this book not because of attacks on police officers but because of overzealous actions by officers to shoot black men It describes how blue on black shootings along with police tactics sometimes cause intense citizen responses through public statements outbursts and demonstrations It begins with an examination of the differences between the black and white communities how the same incident can be viewed from two different perspectives and how a discussion can be perceived unbiased by one but biased and unjust by another Because of civil rights efforts American policing is going through a transformation A change in policing tactics must be met with a re evaluation of some cultural norms by the black community They also discuss the lack of support by blacks shown to other blacks when there is an impression of being not black enough The authors believe in political correctness but also believe that political correctness is harming the black community because well recognized negative issues in some communities are not being addressed to avoid criticism of black culture In the final chapter the authors discuss the failure of black leadership to make any earnest effort to rescue a wanting black subculture from itself Finally the authors believe that American policing understands its 21st century obligations and is taking steps to meet them

Monsters in and Among Us Caroline Joan Picart,Cecil E. Greek,2007 Rather than assuming that film and the media tell us little about the reality of criminological phenomena Gothic criminology as instantiated in this collection of essays recognizes the complementarity of critical academic and aesthetic accounts of deviant behavior as intersecting with the public policy in complex non reductive ways

Leonard Bernstein was the quintessential American musician Through his careers as conductor pianist teacher and television personality he became known across the US and the world his flamboyance and theatricality making him a favourite with audiences if not with critics However he is perhaps best remembered as a composer particularly of the musical West Side Story and for songs such as America Tonight and Somewhere Dr Helen Smith takes an in depth look at all eight of Bernstein s musical theatre works from the early On the Town written by the 26 year old composer at the start of his career to his second and last opera A Quiet Place in 1983 in between these two pieces he composed music for Trouble in Tahiti Wonderful Town Candide West Side Story Mass and 1600 Pennsylvania Avenue These works are analysed and considered against a background of musical and social context as well as looking at Bernstein s other orchestral choral and chamber works One important aspect examined is Bernstein s use of motifs in his theatre compositions which takes them out of the realms of Broadway and into the sphere of symphonic writing Smith provides an indispensable overview of the musical theatre works of an eclectic composer and shows what it is that constitutes the Bernstein sound
