This Land Is Your Land RD Moore, 2023-06-10 This land was made for you and me This is the emphatic refrain of Woody Guthrie's iconic anthem a profound rendering of one of our nation's most sacred truths Yet for far too many and for far too long this hasn't felt like a land made for them or one that even wants them And that's just not sustainable This Land Is Your Land TLIYL is a telling of our social story through the lens of the American people how we became who we are and who we're in the process of becoming It's about the systems we built both generative and degenerative from democracy and equality to slavery and social supremacy and how everything about us is changing Right this minute we're in the midst of the greatest sociological shift in US history one where in every way we currently measure we'll soon be a post majority nation By 2045 incumbent majorities from racial whiteness to Christianization to heteronormativity will all be downgraded to minority status This Time of Turmoil one where everything's shifting is why we're experiencing so much unrest and instability from rising poverty to increasingly caustic elections to diminishing human regard But it's also why getting this right has never been more important or mattered more A

combination of personal vignettes and cultural analysis TLIYL covers 300 years of shared history one that s been shaped by nearly 550 million lives lived and explores how together we move forward It s a story with three parts Part One How the American Race Construct ARC and other toxic frameworks impaired us Part Two How the Degenerative Cycle DGC and other predatory processes imperiled us Part Two and Part Three How through personal practices like the Four Actions each of us can help us become a society that embraces all of us Today we find ourselves in a bit of a tough place But instead of an ending this shift we re undergoing might actually be a beginning a chance to both make our founding dreams real and gift the future a future And in doing so we transform ourselves into a new land one as Woody sang made for you and me War Stories J. J. Zerr,2016-11-09 Joe Bob is a pilot who has been taught everything about flying from his war veteran father Two weeks before Joe Bob is set to leave for college and the United States Navy ROTC program his pop purposely pilots his plane into power lines and kills himself Years later Joe Bob reflects on the what and who of his identity as he returns to his own memories of war In twelve short stories J J Zerr explores both past and present conflicts that occur between genders and generations and societal and individual consciences from Missouri to Los Angeles fighter bomber cockpits to playgrounds the Civil War to Vietnam and a backyard to present day Emerson Sharp has a decision to make His woman Sally provides salvation redemption forgiveness and a future But there is only one problem it is her future Third grader Heiny Bauer is frantically searching for something to say when an angry nun asks him who he loves during class one day But when he answers baseball Heiny discovers the true meaning of punishmentand the difference between a good and bad nun War Stories shares a diverse collection of short tales that highlight eclectic characters who bravely face lifes greatest challenges with perseverance courage and humor The Totalitarian Experiment in Twentieth-century Europe David D. Roberts,2006 By assessing totalitarianism in a more deeply historical way this study suggests how we might learn further lessons from this troubling phase of modern political development Jacket **The Totalitarian Experiment in Twentieth Century Europe** David Roberts,2006-04-27 By developing a long term supranational perspective this ambitious multi faceted work provides a new understanding of totalitarianism the troubling common element linking Soviet communism Italian fascism and German Nazism The book s original analysis of antecedent ideas on the subject sheds light on the common origins and practices of the regimes Through this fresh appreciation of their initial frame of mind Roberts demonstrates how the three political experiments yielded unprecedented collective mobilization but also a characteristic combination of radicalization myth making and failure Providing deep historical analysis the book proves that totalitarianism best characterizes the common features in the originating aspirations the mode of action and even the outcomes of Soviet communism Italian fascism and German Nazism By enhancing our knowledge of what totalitarianism was and where it came from Roberts affords important lessons about the ongoing challenges possibilities and dangers of the modern political experiment **The Art of Peace** Juliana Geran Pilon,2017-07-05 Sun Tzu author of The Art of War believed that the acme of leadership consists in figuring out

how to subdue the enemy with the least amount of fighting a fact that America's Founders also understood and practiced with astonishing success For it to work however a people must possess both the ability and the willingness to use all available instruments of power in peace as much as in war US foreign policy has increasingly neglected the instruments of civilian power and become overly dependent on lethal solutions to conflict The steep rise in unconventional conflict has increased the need for diplomatic and other non hard power tools of statecraft The United States can no longer afford to sit on the proverbial three legged national security stool military diplomacy development where one leg is a lot longer than either of the other two almost forgetting altogether the fourth leg information especially strategic communication and public diplomacy The United States isn't so much becoming militarized as de civilianized According to Sun Tzu self knowledge is as important as knowledge of one's enemy if you know neither yourself nor the enemy you will succumb in every battle Alarmingly the United States is deficient on both counts And though we can stand to lose a few battles the stakes of losing the war itself in this age of nuclear proliferation are too high to contemplate The Uncrowned King of Cambodia David Chandler, Anthony Barnett, 2023-10-01 Lt Col Edward D Moke Murray an outstanding officer in the Indian Army and became a Gurkha commander in Malaya In 1939 he fired the crucial shot that dispersed a strike that threatened the Raj He became an outstanding leader in the fight against the Japanese in Assam and Burma He suppressed the Viet Minh in Saigon in 1945 in what can be seen as the start of the Vietnam War He was Allied Land Commander in Cambodia and supervised the surrender of the Japanese there In 1953 he was cheered by millions along the eight kilometre route of Elizabeth II's coronation parade as he marched at the head of the hugely popular Gurkha contingent But when he died not a single obituary of him appeared apart from a short notice in the Gurkha gazette From Anthony Barnett's Introduction What sort of man was Moke Murray this forgotten Achilles of the dying British Empire He served his King in wars from Waziristan to Burma and helped to shape the future of Indochina But as this touching and fascinating biography recounts he ended his life in lonely poverty as the Empire itself dissolved and fell out of memory Neal Ascherson novelist reporter and historian

Einstein asked Sigmund Freud to collaborate on a short work examining whether there was a way of delivering mankind from the menace of war. Published the next year as a pamphlet entitled *Why War*, it conveyed Freud's conclusion that the death drive made any deliverance impossible: the psychological impulse to destruction was universal in the animal kingdom. The global wars of the later 1930s and 1940s seemed ample evidence of the dismal conclusion. A preeminent historian of those wars, Overy brings vast knowledge to the title question and years of experience unraveling the knotted motivations of war. His approach is to separate the major drivers and motivations and consider the ways each has contributed to organized conflict. They range from the impulses embedded in human biology and psychology to the incentives to conflict developed through cultural evolution to competition for resources, conflicts stirred by the passions of belief, the effects of ecological stresses, the drive for power in leaders and nations, and the search for security. The discussions show remarkable range, delving deep into the Neolithic past through the twentieth-century world wars and up to the current conflict in Ukraine. The examples are absorbing, from the Roman Empire's voracious appetite for resources to the impulse to power evident in Alexander the Great, Napoleon, and Hitler. The conclusion is not hopeful, but Overy's book is a gift to readers: a compact, judicious, engrossing examination of a fundamental question.

Gambling on War Roger L. Ransom, 2018-06-28. The First World War left a legacy of chaos that is still with us a century later. Why did European leaders resort to war, and why did they not end it sooner? Roger L. Ransom sheds new light on this enduring puzzle by employing insights from prospect theory and notions of risk and uncertainty. He reveals how the interplay of confidence, fear, and a propensity to gamble encouraged aggressive behavior by leaders who pursued risky military strategies in hopes of winning the war. The result was a series of military disasters and a war of attrition which gradually exhausted the belligerents without producing any hope of ending the war. Ultimately, he shows that the outcome of the war rested as much on the ability of the Allied powers to muster their superior economic resources to continue the fight as it did on success on the battlefield.

Superpowers, Rogue States and Terrorism Paul L. Moorcraft, 2017-11-30. Numerous books have attempted to assess the generational threat from Jihadist-inspired terrorism, but few offer any positive advice on solutions. Islamist terrorism is today a fact of life, and its potency is vividly illustrated by outrages in otherwise secure Western democracies, not to mention overt ISIL aggression in the Middle East and many African States. Without a far better understanding of the Islamic religion, its beliefs, values, hierarchy, or lack of, and different sects countering the existential threat will be greatly hindered, not to say nearly impossible. In this thoughtful book, the author, who combines scholarship with gritty on-the-ground experience, examines numerous options to counter the insidious threat that faces not only Western civilization but the wider world. These range from the extremes, such as deportation and internment, through the multifaceted combined actions against hate preachers, intensified intelligence work, and border security, to comprehensive and inclusive joint action programs. This is an important and timely book on what is today the greatest security threat, written by an acknowledged expert.
