globalization Moving between local and global perspectives the essays discuss how once faraway places like Latin America Asia Africa and the Indian Subcontinent are now having an impact on the South One essay for example looks at a range of issues behind the explosive growth of North Carolina's Latino population which grew by almost 400 percent during the 1990s miles ahead of the national growth percentage of 61 In another essay we learn why BMW workers in Germany frustrated with the migration of jobs to South Carolina refer to the American South as our Mexico Showing that global forces are often on both sides of the matchup reshaping the South but also adapting to and exploiting its peculiarities many of the essays make the point that although the new ethnic food section at the local Winn Dixie is one manifestation of globalization so is the wide ranging export of such originally southern phenomena as NASCAR and Kentucky Fried Chicken If a single message emerges from the book it is this Beware of tidy accounts of worldwide integration On one hand globalization can play to southern shortcomings think of the region's repute as a source of cheap labor on the other the influx of new peoples customs and ideas is poised to alter forever the South's historic black white racial divide
