Price, 2019-04-22 This book seeks to confront the challenge that science presents to the traditional pillars of Judaism It identifies and analyzes a wide variety of issues including some contemporary sacred cows First the book considers what is fact and what is fiction in the primary stories contained in Judaism's foundational texts Then drawing on Jewish ethical teachings it seeks to determine how Judaism and science can inform each other with respect to a broad range of contemporary issues from abortion and allergies to vaccinations and violence with firearms Finally it peeks into the future to address issues that Judaism and science are just now beginning to discuss such as an exotheology for aliens on distant planets a Jewdroid who seeks acceptance in a shul and even the fate of the universe itself *When Judaism Meets Science* addresses readers of all persuasions regardless of denomination and whether a believer or not as the author builds a case with specific recommendations for the value of a reality based Judaism one grounded on both traditional ethics and empirical evidence that can resonate with the educated adults of Israel *Liberty from All Masters* Barry C. Lynn, 2020-09-29 An eye opening and persuasive defense of robust antitrust enforcement as essential to the core principles of American democracy Publishers Weekly Very few thinkers in recent years have done more to shift the debate in Washington than Barry Lynn In *Liberty from All Masters* he proves himself as a lyrical theorist and a bold interpreter of history This book is an elegant summoning of a forgotten tradition that can help the nation usher in a new freedom Franklin Foer Americans are obsessed with liberty mad about liberty On any day we can tune into arguments about how much liberty we need to buy a gun or get

an abortion to marry who we want or adopt the gender we feel We argue endlessly about liberty from regulation and observation by the state and proudly rebel against the tyranny of course syllabi and Pandora playlists Redesign the penny today and the motto would read You ain't the boss of me Yet Americans are only now awakening to what is perhaps the gravest domestic threat to our liberties in a century in the form of an extreme and fast growing concentration of economic power Monopolists today control almost every corner of the American economy The result is not only lower wages and higher prices hence a concentration of wealth and power in the hands of the few The result is also a stripping away of our liberty to work how and where we want to launch and grow the businesses we want to create the communities and families and lives we want The rise of online monopolists such as Google and Amazon designed to gather our most intimate secrets and use them to manipulate our personal and group actions is making the problem only far worse fast Not only have these giant corporations captured the ability to manage how we share news and ideas with one another they increasingly enjoy the power to shape how we move and play and speak and think An examination of our fall into the economic pit crafted by Amazon Google et al and ideas for how to crawl out Admonitory cautionary and essential Kirkus Reviews starred review
