Card Companion Victoria Maxwell, 2023-01-11 This guide is easy to use with any oracle card deck as it focuses more on intuitive reading rather than meanings The book takes the reader on an in depth journey through all aspects of oracle card reading It starts with choosing and bonding with a deck before explaining how to develop intuition and decode the messages in the cards then takes a deeper dive with oracle spells healing and reading for others Throughout the book there are activities and practices the reader can do with their own cards making it an experiential book that is easy and fun to work with but still contains opportunities for deep work and spiritual and intuitive development Ultimately the aim is to empower the reader to do more with their oracle cards than just picking a card reading the message and never thinking about it again something we are all guilty of It's a book that can help the reader to go on a deeper journey with the cards develop their intuition and gain more confidence clearer guidance and a deeper trust not only in their ability to read cards but also within themselves **Sacred Destiny Oracle Cards** Denise Linn, 2019 **Echoes Within Walls** Sam Ritchie, 2025-03-12 Sam

of this word is to live life or to reside The word Vasu originated from Vas and finally this word Vastu originated from Vasu Meaning of the word Vastu is a place where a person resides The meaning of Shastra is a book which deals with the mysterious and systematic explanation of a subject therefore the meaning of Vastushastra is a book related to the residence The origin and anatomy of Vastushastra is based on the principle of the five elements of creation As our body is also made up of these five elements if enough attention is paid to the incorporation of these five elements in the construction of a house then the people residing in the building shall reside happily These five elements are Earth Water Fire Air and Space Our universe also is made up of these five elements only Therefore the saying goes Yatpindetatbramhande God bhagwan has given these five gifts to us from bha bhumi land from ga gagan sky ether from va vayuq air from na neer water God is represented by the symbol Om These five elements are present in this Om also Aa is Agni fire Au is Jal water Ma is Vayu air W ardhachandra is Bhoomi land and 0 is Akash ether sky Similarly the word Vastu also denotes these five elements From Va Vayu air from Aa Agni fire from Sa Srishti Bhoomi land from Ta Tat means Akash ether sky and from Au Jal water These five elements also are represented by the five planets 1 Earth is represented by Mars 2 Water is represented by Venus 3 Fire is represented by Sun 4 Air is represented by Saturn 5 Ether is represented by Jupiter Similarly mind is controlled by Moon Intelligence is controlled by Mercury Ego and arrogance is controlled by Rahu and moksha or spirituality by Ketu Disbalance of these elements in the body produces ill health and disease In a similar manner the disbalance of these elements in a house creates varied kind of troubles for the persons living in it There are unlimited forces present in nature Some of these forces influence us for example the gravitational force of earth the magnetic and electrical energy of the universe and the electromagnetic force present everywhere These energies also exist in the constructed house and they continue influencing the electromagnetic force present in the human body This produces the auspicious or inauspicious results These results vary from place to place depending on the geographical location For these reasons the results of vastu principles are not the same all over the world They differ according to the longitude and latitude of the place They also differ according to the horoscope of the person concerned If man goes along with the flow of nature s energies it produces good health progress and prosperity If he goes against the flow of nature he faces hurdles and obstructions everywhere Hence it is utmost important and necessary for us to organize our lives according to nature only then we can live happily Halayudha kosha says that Vastu is that art of house construction which starts from Ishan kona etc and which protects the residents of the house from natural calamities and obstructions

Varshphal (Annual Predication) S.P. Gour, Parashari Jaimini and Tajik are the three most popular systems of Vedic Astrology Parashar gives more importance to the planets while Jaimini considers the rashis to be more important Tajik is mainly used in Prashna Shastra and in Varshaphal Tajik diverts slightly always from the main stream of the traditional methods and employs newer techniques of Astrology Tajik Neelakanthi of Acharya Neelakantha which was composed in the 16th century AD is the base of Taik Jyotish This does not mean that Varshaphal and Prashna techniques

were not practised in vedic Astrology before this Uttar Kalamrit of Kalidas mentions and describes the computation of Varshaphal dasha which is different from the Mudda dasha of Varshaphal Apart from this Shat Panchashikha of Prithyushyas is the established classic of Prashna Shastra which was composed centuries before Tajik Neelakanthi Ancient Kairaleeya Jyotish is also well known for considering Prashna to be their main technique The influence of Greek and Arab culture is clearly seen on the word Tajik Arrival of the invaders from Western Asia initiated the exchange of culture between India and West Asia This exchange introduced some newer techniques to our Vedic Astrology One of these techniques was Tajik This has been marked as the beginning of Tajik jyotish Tajik word does not belong to Sanskrit There are different opinions regarding this issue Some scholars consider it to be a distorted form of the word Jatak Another view is that meaning of Tajik is a horse in Turkish and Persian language The speed of this technique has been compared to that of a horse and for this reason it has been named Tajik In any case the influence of Mohammedans on this knowledge is very clear This is also confirmed by the other words of Tajik namely mudda muntha saham and the names of the Tajik yogas like Ithasal Ikkabal Ishraf nakta radda and khallasar etc Moving at the average speed of 1 per day Sun completes one round of the Zodiac in one year For casting the annual horoscope we select the time when Sun reaches the longitude of the natal Sun The horoscope cast for that date and time becomes the annual horoscope and the Varshaphal is decided on the basis of this horoscope In a similar manner prediction for any year of the person's life can be given on the basis of the annual horoscope In other words the annual horoscope is based on the longitude of the natal Sun and not on the date and time of birth This also means that the date day and time of the annual horoscope is generally different from that of the birth horoscope

Principles of Ashtakvarg Arun Bansal, Our ancient sages Rishis have introduced such a fine method in Horashastra that can help us find out the benignity and malignity of planets and their influence on the life of mankind They produced a system that can be helpful in finding out the lines and points The system is called Ashtakavarga By this system it is easy to find the good and evil effects of the deeds of a man Even a learned and well educated astrologer cannot attain the desired success without the knowledge of Ashtakavarga It is not possible to find out the benefic and malefic results caused due to the merits and demerits of the horoscope of a person without the knowledge of Ashtakavarg The author of this book had started studying the system some twenty years back and came to the conclusion that there is no system better than this that could make an accurate prediction By Ashtakavarga all the malefic and benefic outcome of the deeds of a man can be found out scientifically With the help of this system a minute prediction can be cast A fine theory of the relation between individual and society is applicable on this system There can be some differences on the results predicted by Vimshothari and transit on the basis of planets and houses on signs and ascendants In these circumstances how can a true prediction be made That is why the ancient astrologers have advised to use the Ashtakavarga system It is very hard to find out the effects time and nature of a planet by the common theories of Falit but by this system this is possible For instance a planet will enhance the influence

related to its own house if it is conjoined with or aspected by benefic planets while situated in own exalted or friendly sign. This is a widely accepted theory. But the question is what enhancement will take place in the sphere of the said aspect by that particular planet i.e. what will be the ratio of the benefic and malefic results. It is in this regard that the Ashtakavarga system is considered to be very authentic and decisive. With its help prediction regarding the ratio of gains, auspicious directions, gains from brothers, results of planets in transit etc. and the age, wealth, education, wisdom, relation between husband and wife, happiness, property, land, vehicle and deeds of a man can be made easily.
