Nieuw Nederlandsch biografisch woordenboek Philip Christiaan Molhuysen,1927 *Gender, Power and Identity in the Early Modern House of Orange-Nassau* Susan Broomhall,Jacqueline Van Gent,2016-08-12 How do gender and power relationships affect the expression of family House and dynastic identities The present study explores this question using a case study of the House of Orange Nassau whose extensive visual material and archival sources from both male and female members enable the authors to trace their complex attempts to express gain and maintain power in texts material culture and spaces as well as rituals acts and practices The book adopts several innovative approaches to the history of the Orange Nassau family and to familial and dynastic studies generally Firstly the authors analyse in detail a vast body of previously unexplored sources including correspondence artwork architectural horticultural and textual commissions ceremonies practices and individual actions that have surprisingly received little attention to date individually and consider these as the collective practices of a key early modern dynastic family They investigate new avenues about the meanings and practices of family and dynasty in the early modern period extending current research that focuses on dominant men to ask how women and subordinate men understood family and dynasty in what respects such notions were shared among members and how it might have been fractured and fashioned by individual experiences Adopting a transnational approach to the Nassau family the authors explore the family s self presentation across a range of languages cultures and historiographical traditions situating their representation of themselves as an influential House within an international context and offering a new vision of power as a gendered concept Biografisch woordenboek Gelderland P. Renting-Kuijpers,2024-06-03 Edited with introduction and notes With notes on the manuscripts by A S Korteweg **Redefining William III** David Onnekink,Esther Mijers,2016-04-08 William III 1650 1702 was Stadholder in the United Provinces and King of England Scotland and Ireland His reign has always intrigued historians as it encompassed such defining events as the Dutch year of Disaster 1672 the Glorious Revolution 1688 and the ensuing wars against France Although William has played a pivotal role

in the political and religious history of his countries the significance and international impact of his reign is still not very well understood This volume contains a number of innovative essays from specialists in the field which have evolved from papers delivered to an international conference held at the University of Utrecht in December 2002 By focusing on the entire period 1650 1702 from an international perspective the volume moves historical discussion away from the traditional analysis of single events to encompass William s entire reign from a variety of political religious intellectual and cultural positions In so doing it offers a new perspective on the British and Dutch reigns of William III as well as the wider European milieu
