Ordinary Wisdom Biographical Aging And The Journey Of Life:

Ordinary Wisdom William Lowell Randall, Gary M. Kenyon, 2001 Randall and Kenyon examine the concept of wisdom. What wisdom is exactly has vexed thinkers throughout the history of thought. Indeed for much of modern times the topic has been taboo given the intellectual climate created by such movements as analytic philosophy, behaviorist psychology, and cognitive science. This study adds to a growing movement that is reclaiming wisdom as a meaningful concept by viewing human development in terms of metaphors that enrich models like mind as computer which proposes mental activity is reducible to processing information. Randall and Kenyon's metaphors are life as story and life as journey and their conceptual extension life as adventure. Ordinary metaphors with extraordinary implications. Through the lenses of these intertwining time honored tropes the authors see wisdom not as an unattainable ideal nor as the sole province of experts or educators, geniuses, therapists, or saints. Rather it is potentially within the reach of everyone, not as a commodity but as a quality of life, as a matter of being, not of having. Insofar as everyone is on a journey and has or is a story, everyone has access to an ordinary wisdom which it behooves people to explore and express. This book will be of particular interest to scholars, students, and researchers involved with psychology, gerontology, theology, philosophy, and education. [The Encyclopedia of Adulthood and Aging, 3 Volume Set](#) Susan K. Whitbourne, 2016-01-19 This authoritative reference work contains more than 300 entries covering all aspects of the multi disciplinary field of adult development and aging. Brings together concise, accurate summaries of classic topics as well as the most recent thinking and research in new areas. Covers a broad range of issues from biological and physiological changes in the body to changes in cognition, personality, and social roles to applied areas such as psychotherapy, long term care, and end of life issues. Includes contributions from major researchers in the academic and clinical realms. 3 Volumes. www.encyclopediaadulthoodandaging.com *Shaping Ageing* Adriana Teodorescu, Dan Chiribucă, 2022-03-24 This volume examines the manifold, often contradictory aspects of ageing, considering the ways in which contemporary social transformations affect the experience, conception, interpretation, and representation of ageing. Thematically arranged, it brings together the latest scholarly work from around the world to consider theories and narratives of ageing and the effects of space and place on identity and the experience of old age. Combining micro and macro perspectives as well as theoretical and applied research, this interdisciplinary volume offers cross cultural and comparative studies that resist overgeneralization and reductivism in an effort to shed fresh light on our experience, understanding, and response to ageing in the modern world. As such, it will appeal to scholars across the social sciences, particularly sociology, gerontology, demography, social policy, and cultural studies with interests in ageing and later life. *Exploring Existential Meaning* Gary T. Reker, Kerry Chamberlain, 2000 Both implicit and existential meaning are important constructs in fully understanding human experience. The editors of this volume present a forum for an array of viewpoints and recent research that address the notion of optimal human growth. Verhaeghen, Christopher Hertzog, 2016-03-09 The Oxford Handbook of Emotion Social Cognition and Problem Solving in Adulthood provides the first overview of a new field of adult development that has emerged out of conceptualizations and research at the intersections between socioemotional development social cognition emotion coping and everyday problem solving

Finance and Society in 21st Century China Junie T. Tong, 2016-04-15 In this revealing book Junie Tong reflects on the role of banking and finance in China The author adopts a critical perspective that views the societal as well as economic functioning of banking and finance Finance and Society in 21st Century China considers how far the modern economy is disconnected from Chinese culture and history and the problems this separation may cause She questions the common assumption that China has outgrown its reliance on its Western counterparts The author believes that the country is still very much dependent on exports and foreign investments and any radical or rapid reduction in either would have serious adverse consequences for China's sustainable economic growth To provide a model for finance and society that integrates culture and economy Tong draws on the seminal work of Belgian economist banker and social commentator Bernard Lietaer who has focused on cultural forces and the future of money in the world generally Using representative case studies for illustration Tong applies Lietaer's work in a specifically Chinese context highlighting the need to root finance and enterprise in the rhythms and forces within Chinese culture to avoid future chaos and achieve socio economic stability in a country now so critical to global well being
