Organs Without Bodies Slavoj Žižek, 2004      *Postcolonial Literatures and Deleuze* L. Burns, B. Kaiser, 2012-06-19

Bringing together high profile scholars in the fields of Deleuze and postcolonial studies this book highlights the overlooked connections between two major schools of contemporary criticism and establishes a new critical discourse for postcolonial literature and theory      **Biopolitics, Materiality and Meaning in Modern European Drama** Hedwig

Fraunhofer, 2020-09-21 Arguing that existing modernisation theories have been unnecessarily one sided Hedwig Fraunhofer offers a rewriting of modernity that cuts across binary methodologies nature and culture mind and matter epistemology and ontology critique and affirmative writing dramatic and postdramatic theatre She specifically reworks the biopolitical exclusions that mark modern western epistemology leading up to modernity's totalitarian crisis point Fraunhofer reveals the performativity of theatre in its double sense as theatrical production and as the intra activity of a dynamic system of multiple relations between human and more than human actors energies and affects In modern theatre public and private human and more than human materiality and meaning collapse in a common life      **Out of This World** Peter Hallward, 2020-05-05

Gilles Deleuze was one of the most influential French philosophers of the last century This book aims to make sense of his fundamental project in the clearest possible terms by engaging with the central idea that informs virtually all of his work the equation of being and creativity It explores the various ways in which in order to affirm an unlimited creative power Deleuze proceeds to dissolve whatever might restrict or mediate its expression including the organisms objects representations identities and relations that this power generates along the way Rather than a theorist of material complexity or relational difference *Out of this World* argues that Deleuze is better read as a spiritual and extra worldly philosopher His philosophy leaves little room for processes of social or historical transformation and still less for political relations of conflict or solidarity Michel Foucault famously suggested that the 20th century would be known as Deleuzian this sympathetic but uncompromising new critique suggests that our Deleuzian century may soon be coming to a close      Theatres of Immanence

Laura Cull Ó Maoilearca, 2012-10-10 *Theatres of Immanence Deleuze and the Ethics of Performance* is the first monograph to provide an in depth study of the implications of Deleuze's philosophy for theatre and performance Drawing from Goat Island Butoh Artaud and Kaprow as well from Deleuze Bergson and Laruelle the book conceives performance as a way of thinking immanence      *Prolegomena to Any Future Materialism* Adrian Johnston, 2019-09-15 Adrian Johnston's trilogy *Prolegomena to Any Future Materialism* aims to forge a thoroughly materialist yet antireductive theory of subjectivity In this second volume *A Weak Nature Alone* Johnston focuses on the philosophy of nature required for such a theory This volume is guided by a fundamental question How must nature be rethought so that human minds and freedom do not appear to be either impossible or inexplicable within it Asked differently How must the natural world itself be structured such that sapient subjects in all their distinctive peculiarities emerged from and continue to exist within this world In *A Weak Nature Alone*

Johnston develops his transcendental materialist account of nature through engaging with and weaving together five main sources of inspiration Hegelian philosophy Marxist materialism Freudian Lacanian metapsychology Anglo American analytic neo Hegelianism and evolutionary theory and neurobiology Johnston argues that these seemingly but not really strange bedfellows should be brought together so as to construct a contemporary ontology of nature Through this ontology nonnatural human subjects can be seen to arise in an immanent bottom up fashion from nature itself *Death and Mastery* Benjamin Y. Fong,2016-11-08 The first philosophers of the Frankfurt School famously turned to the psychoanalytic theories of Sigmund Freud to supplement their Marxist analyses of ideological subjectification Since the collapse of their proposed marriage of Marx and Freud psychology and social theory have grown apart to the impoverishment of both Returning to this union Benjamin Y Fong reconstructs the psychoanalytic foundation stone of critical theory in an effort to once again think together the possibility of psychic and social transformation Drawing on the work of Hans Loewald and Jacques Lacan Fong complicates the famous antagonism between Eros and the death drive in reference to a third term the woefully undertheorized drive to mastery Rejuvenating Freudian metapsychology through the lens of this pivotal concept he then provides fresh perspective on Theodor Adorno Max Horkheimer and Herbert Marcuse s critiques of psychic life under the influence of modern cultural and technological change The result is a novel vision of critical theory that rearticulates the nature of subjection in late capitalism and renews an old project of resistance **Real Deceptions** Jennifer Friedlander,2017 *Real Deceptions* develops a new theory of realism through close consideration of myriad contemporary art media and cultural practices Rather than focusing on transgressing deceptions which distort reality the book argues that reality lies within the deceptions themselves That is to say realism s political potential emerges not by revealing deception but precisely by staging deceptions particularly deceptions that imperil the very categories of true and false In lieu of perceiving deception as an obstacle to truth it shows how deception functions as the truth s necessary conduit Categories invoked in realist works such as trompe l oeil illusion hypervirtuality and simulation help to establish how realism can be seen as moving from the creation of mere epistemological uncertainty to radical ontologically based indeterminacy The book cultivates this schema by considering productive connections between insights from Jacques Lacan and Jacques Ranciere *Real Deceptions* not only applies these theoretical frameworks to art and media examples but also engages in the reverse move of using the cases to further the theories This dual approach points to the ways in which efforts to produce realist representations often give rise to the destabilizing *Real* Lars von Trier's Women Rex Butler,David Denny,2016-11-17 The Danish director Lars von Trier is undoubtedly one of the world s most important and controversial filmmakers and arguably so because of the depiction of women in his films He has been criticized for subjecting his female characters to unacceptable levels of violence or reducing them to masochistic self abnegation as with Bess in *Breaking the Waves* She in *Antichrist* and Joe in *Nymphomaniac* At other times it is the women in his films who are dominant or break out in violence as in his

adaptation of Euripides Medea the conclusion of Dogville and perhaps throughout Nymphomaniac Lars von Trier s Women confronts these dichotomies head on Editors Rex Butler and David Denny do not take a position either for or against von Trier but rather consider how both attitudes fall short of the real difficulty of his films which may simply not conform to any kind of feminist or indeed anti feminist politics as they are currently configured Using Lacanian psychoanalysis and acknowledging the work of prior scholars on the films Lars von Trier s Women reveals hidden resources for a renewed feminist politics and social practice

Abstract Machines Garin Dowd,2007-01-01 What can philosophy bring to the reading of Beckett Combining intertextual analysis with a schizoanalytic genealogy derived from the authors of L Anti dipe Garin Dowd s Abstract Machines Samuel Beckett and Philosophy after Deleuze and Guattari offers an innovative response to this much debated question The author focuses on zones of encounter and thresholds of engagement between Beckett s writing and a range of philosophers among them Spinoza Leibniz and Kant and philosophical concepts Beckett s writing impacts in a variety of ways on Deleuze and Guattari s thought and in particular resonates with Deleuze s contributions to the history of philosophy in books such as Le Pli Leibniz et le baroque and his critical and clinical approach to literature Furthermore the books co written with Guattari concerned as they are with the molecularization of the discipline of philosophy in the name of thinking otherwise reveal themselves in a new light when explored in conjunction with Beckett s uvre With its arresting perspectives on a wide range of Beckett s works Abstract Machines will appeal to academics and postgraduate students interested in the philosophical aspects of his writing Its engagement with alternative contributions to the question of Beckett and philosophy including that of Alain Badiou renders it a timely and provocative intervention in contemporary debates on the relationship between literature and philosophy both within the field of Beckett studies and beyond

**Gilles Deleuze: Affirmation in Philosophy** J. Conway,2010-10-27 Why does knowledge of philosophy presuppose knowledge of reality What are the characters in Deleuze s theatre and philosophy How are his famous metaphysical distinctions secondary to the concept of philosophy as practice and politics These questions are answered through careful analysis and application of Deleuzian principles

**Žižek through Hitchcock** Laurence Simmons,2021-05-12 Maverick Slovenian cultural theorist philosopher and psychoanalyst Slavoj i ek has made his name elaborating the complexities of psychoanalytic and Marxist theory through the exotic use of examples from film and popular culture But what if we were to take i ek s pretensions to cinephilia and film criticism seriously In this book adopting i ek s own tactic of counterintuitive observation we shall read the corpus of Alfred Hitchcock s films one of the great achievements of Western civilization and i ek s idiosyncratic citation of them in order to arrive at a position where we can identify the core commitments that inform i ek s own work From the practice of Hitchcock we shall hopefully arrive at a theory of i ek just as i ek in his collection Everything You Always Wanted to Know About Lacan But Were Afraid to Ask Hitchcock Verso 1992 arrives at a theory of Lacan from the practice of Hitchcock To achieve this goal each chapter looks at a specific film by Hitchcock and explores a specific key concept crucial to the elaboration and core of i ek s ideas

**In Praise of Nonsense** Ted Hiebert,2012-06-28 What is truth in the postmodern age The artistic generation of the twentieth century has grown up immersed in the delirious imagination of postmodern thought which insists upon the ultimate uncertainty of meaning and that there is no self evident truth In Praise of Nonsense explores the possibilities and parameters of a postmodern imagination freed from the philosophical responsibilities of fiction fact and replication of lived experience Mobilizing an array of scholars and contemporary artists this study examines postmodern thinking through the lenses of identity and visual culture Speculative critical and always creative in its approach In Praise of Nonsense focuses on theories of disappearance irony and nonsense where the pleasures of the imaginary give rise to artistic inspiration When truth is unhinged so is falsity and all artistic thinking is called into question Ted Hiebert takes on the ambitious project of holding postmodernism accountable for its own conclusions while also considering how those conclusions might still be given philosophical and artistic form

**Sexual Difference in European Cinema** F. Vighi,2009-01-29 What can film tell us about enjoyment and sexual difference Can cinematic fiction be more Real than reality Fabio Vighi looks at Jacques Lacan s theory of sexuality

alongside some of the best known works of European cinema including films by Fellini Truffaut Antonioni and Bergman

**Deleuze and Film** David Martin-Jones,2012-04-04 Engages Deleuze s philosophy with a range of popular films and explores the degree to which a film s popularity impacts upon its ability to think in the manner that Deleuze described in relation to examples of the art of film in his Cinema books and *Situated Listening* Giorgio Biancorosso,2016-09-01 Screenwriters and film directors have long been fascinated by the challenges of representing the listening experience on screen While music has played a central role in film narrative since the conception of moving pictures the representation of music listening has remained a special occurrence In *Situated Listening The Sound of Absorption in Classical Cinema* author Giorgio Biancorosso argues for a redefinition of the music listener as represented in film Rather than construct the listener as a reverential concertgoer music analyst or gallery dweller this book instead shows how films offer a new way of thinking about listening as distributed experience an activity made public and shareable across vast cultural spaces rather than an insular motion It shows how cinema functions as not only a reservoir of established modes of listening but also an agent in the development of new listening practices As Biancorosso argues many films have perpetuated a long existing paradox of music as a means of silencing Consider an aggressive score overlaying battle scenes or a romantic scene conveying unspoken intimacy In the place of conversational exchange exists a veil of sound in the form of music and *Situated Listening* explains why this function influences both the course of interpretation and empathy experienced by film spectators By focusing on cinematic physical and emotional scenery surrounding a character viewers can recognize aspects of their own lives developing a deeper empathy for each fictional character through real and shared listening practices

**Choreographing Problems** Bojana Cvejic,2016-04-29 This book illuminates the relationship between philosophy and experimental choreographic practice today in the works of leading European choreographers A discussion of key issues in contemporary performance from the viewpoint of Deleuze Spinoza and Bergson is accompanied by intricate analyses of seven groundbreaking dance performances
