Jeffrey Severs argues in *David Foster Wallace's Balancing Books* that Wallace was also deeply engaged with the social, political, and economic issues of the twentieth and twenty-first centuries. A rebellious economic thinker, Wallace satirized the deforming effects of money, questioned the logic of the monetary system, and saw the world through the lens of value's many hidden and untapped meanings. In original readings of all of Wallace's fiction, from *The Broom of the System* and *Infinite Jest* to his story collections and *The Pale King*, Severs reveals Wallace to be a thoroughly political writer whose works provide an often surreal history of financial crises and economic policies. As Severs demonstrates, the concept of value occupied the intersection of Wallace's major interests: economics, work, metaphysics, mathematics, and morality. Severs ranges from the Great Depression and the New Deal to the realms of finance, insurance, and taxation to detail Wallace's quest for balance and grace in a world of excess and entropy. Wallace showed characters struggling to place two feet on the ground and restlessly sought to balance the books of a chaotic culture. Explaining why Wallace's work has galvanized a new phase in contemporary global literature, Severs draws connections to key Wallace forerunners, Don DeLillo, Thomas Pynchon, and William Gaddis, as well as his successors, including Dave Eggers, Teddy Wayne, Jonathan Lethem, and Zadie Smith, interpreting Wallace's legacy in terms of finance, the gift, and office life.

**Sleeping Policemen** Dale Bailey, Jack Slay Jr., 2014-07-22 A late night joyride takes a sharp turn into nightmare territory when a group of college students tries to cover up a crime of carelessness. A moment of inattention on a winding roadway in the Smoky Mountains leaves a stranger dead and his accidental killers at the mercy of a possible witness. Finney Durant, Nick Laymon, and Reed Tucker are desperate not to be linked to the crime. Finney and Tucker insist on hiding the corpse, and Nick, hard up for money, takes the man's cash. But the hit and run is just the beginning of their problems, once they use a key found in the victim's pocket to open a bus locker and find a videotape that opens an ever-widening doorway into horror.

[Publishers, Censors and Collectors in the European Book Trade, 1650-1750](#) Ann-Marie Hansen, Arthur der Weduwen, 2024-03-18 This edited volume explores the development of the European book world between 1650 and 1750, concentrating on changes in publishing strategies, practices of censorship, the circulation of second-hand books, and the building of libraries. Its essays discuss this critical but much-neglected period of print history through case studies from Spain, Italy, France, the Holy Roman Empire, Britain, and the Netherlands. Ranging from the posthumous publication of Galileo to the regulation of the book auction market, this volume demonstrates that the century between 1650 and 1750 was a transformative period for the history of the printed book.

with the culture Wheeler fills in the blanks making Bible characters come alive by revealing hidden details about the society in which they lived

**A Theology of Artistic Sensibilities** John Dillenberger, 2004-10-19 For most of history argues John Dillenberger the visual arts were for better or worse part of the very fabric of the life and thought of the church But with the Reformation and the Counter Reformation a major change took place Protestant rejection of the visual was matched in Roman Catholicism by the reduction of its formative power While the visual arts dropped out of the lives of Protestant churches they became a memory rather than a source of ennoblement or power in the Roman Catholic Church Thus in different but allied ways Protestants and Catholics lost the power of the visual Part art history part historical theology and part theological reflection this book is both an argument and a program for the recovery of the visual arts in the life of the church for reclaiming seeing as part of religious perception It offers a theological understanding of the visual and provides a basis upon which the visual arts may again be incorporated into Protestantism and reinvigorated in Roman Catholicism The first part is devoted to historical reconstruction exploring those moments in Western history in which the relation between religion and the arts was in ferment Part 2 is given to contemporary delineation and analysis of spiritual perceptions in modern American painting and sculpture of modern church art and architecture and of the changing views of contemporary theologians toward the visual arts Citing David Tracy Karl Rahner Langdon Gilkey and others as examples Dillenberger argues that contemporary theology is moving away from the modern rationalistic understanding of theological analogy to one far closer to the arts Part 3 is constructive developing a theological perspective that demands and includes the visual arts and suggesting ways in which this can be accomplished in pastoral and theological education The world of art says Professor Dillenberger is more aware of the role of religion in the arts than the world of religion is of art Thus it is time for the church to resume its historic association with the visual arts albeit in analogous rather than reprimating ways
