Modernism in "The Day of the Locust" (1939) by Nathanael West Linda Schug, 2009 Seminar paper from the year 2003 in the subject American Studies Literature grade 1 7 University of Frankfurt Main course Decadence and Modernism in the Late 20th Century American Cinema language English abstract Jonathan Veitch asserts in the preface of his book American Superrealism that critics have had problems in placing Nathanael West within the literature of the 1930s and American literature in general They understood him for example as a poet of darkness as an apocalyptic writer as a homegrown surrealist as a writer of the left as a universal satirist in a way as the prototype of the contemporary Jewish American novelist Wisker 1 2 or as a realistic writer Martin see Roberts Although some of these characterizations are contradictory they all fit because they reflect different facets of the author or rather his work West combined all these elements and probably even several others in his writings His style was never constant At times his pictorial technique closely resembles collage but also cartoon strips movies and several different schools of painting as well as such non graphic visual arts as the tableau and the dance Reid 9 Taking the though not planned final result of his development as a writer his last book The Day of the Locust 1939 as an example I want to show in my essay that at least one of West s books does not fall between the different schools of writing Wisker 2 as he once noted He is certainly a representative of modernism the literary movement and point of view of his time see O Conner not only because a struggle for definition is part of what those years are about Wisker 121 Nathanael West was influenced by the same historical events and used many of the strategies other contemporary writers employed to express his way of seeing the world I will point out the features of modernism in the novel because as Randall Reid states i n a century which has made expe **American Modernism, 1910 - 1945** Roger Lathbury, 2009 A comprehensive reference guide to the modernist movement in American literature this volume provides a wealth of information on American modernism the Lost Generation modernism in the American novel the Harlem Renaissance modernism in poetry and drama and the literary culture of the Moderns Writers covered include Countee Cullen E E Cummings John Dos Passos T S Eliot William Faulkner F Scott Fitzgerald Sigmund Freud Robert Frost Ernest

Encountering Choran Community Emily Hinnov, 2009-07 Through a transnational perspective Emily M Hinnov's *Encountering Choran Community: Literary Modernism, Visual Culture and Political Aesthetics in the Interwar Years* identifies and describes modernist choran community as a previously understudied key counter narrative to Modernism's engagement with early twentieth century master narratives Hinnov uses the term choran community in order to emphasize the almost sacred nature of the experience represented in common by select modernist texts photographs and photo texts produced in the interwar period As Hinnov describes choran community comes about as a result of the choran moment or textual instant

when characters and or readers recognize their connection with a larger inherently unified whole Whether in a visual verbal or hybrid text the stasis of the choral moment contains the potent possibility of communal awareness or choral community in the future as well as the present The textual choral communities presented here consequently offset the sexist racist and classist solipsism of imperialist or fascist master narrative Emily N Hinnov is Assistant Professor of English at Bowling Green State University Firelands College

Ashes Taken for Fire Kevin Bell, 2007 American Expatriate Writing and the Paris Moment Donald Pizer, 1996 Montparnasse and its cafe life the shabby working class area of the place de la Contrescarpe and the Pantheon the small restaurants and cafes along the Seine and the Right Bank world of the well to do for American writers self exiled to Paris during the 1920s and 1930s the French capital represented what their homeland could not a milieu that through the freedom of thought and action it permitted and the richness of life it offered nurtured the full expression of the creative imagination How these expatriates interpreted and gave modernist shape to the myth of the Paris moment in their writing is the altogether fresh focus of Donald Pizer's study of seven of their major works Through careful readings of the texts Pizer identifies both the common threads in the expatriates response to the Paris moment and the distinctive expression each work gives to their shared experience Most important he addresses the neglected question of how the portrayal of the Paris scene helps shape a specific work's themes and form He traces such experimental devices as fragmented or cubistic narrative forms the dramatic representation of consciousness and sexual explicitness and explores the powerful and evocative tropes of mobility and feeding As Pizer demonstrates Paris between the two world wars was for the American expatriates more than a geographical entity It was a state of mind an experience that engendered the formal expression of a personal aesthetic The engaging and significant interplay between artist place and innovative self reflexive forms composes Pizer maintains the most distinctive contribution of expatriate writing to the literary movement called high modernism

Montale, the Modernist Giuseppe Gazzola, 2016 Montale the Modernist explores the historical contingencies and the scientific and philosophical ideas that influenced the composition of Montale's poetry offering new readings of among others *Non chiederai la parola* *Arsenio L alluvione* and *Dialogo* Framing Montale alongside such figures as Eliot Pound Svevo Larbaud and Joyce the book explores the celebrated peculiarities of his poems as modernist innovations allowing a comprehensive understanding of Montale's role in the lyrical canon of the twentieth century To recognize Montale's role as a preeminent modernist author also challenges our understanding of modernism itself not just because it underscores the relationship and the philosophical proximity between Catholic and literary modernism but because it reorients literary modernism as a truly pan European movement originating and distancing itself from the modes of Symbolism after the historic shock of World War I Considering the arc of Montale's long poetic trajectory this book traces his evolution from

Symbolist to modernist in *Ossi di seppia* high modernist *Le occasioni* *La bufera e altro* and finally to a postmodern thinker in the late works *Satura* *Diario del '71* e del '72
