Ordeal By Providence:

Ordeal by Providence James Selwood, 2001-12-01 Immigrant family from Germany returns to Europe during the Weimar Republic and experiences the Nazi era World War II and its aftermath From Eternity to Time Aino Mäkilä, 2007 This study examines different conceptions of time in Daniel Defoe's 1660-1731 novels The temporal aspects of the novels are surveyed taking into account the historical situation of the novel as a genre and contemporary conceptions of time The modernisation process of the Western world serves as a wider context of the study as present research indicates that Defoe's novels exemplify a multilayered shift from pre-modern Western conceptions of time to those of the modern age The author also explores gendered time and economic and cultural values of time in Defoe's novels The book contributes a fresh analysis of Defoe's novels and demonstrates the crucial relation between historical cultural conceptions of time and the historically changing genre of the novel The Law Journal, 1882 *Superstition and Force* Henry Charles Lea, 1878 **Proving Woman** Dyan Elliott, 2009-01-10 Around the year 1215 female mystics and their sacramental devotion were among orthodoxy's most sophisticated weapons in the fight against heresy Holy women's claims to be in direct communication with God placed them in positions of unprecedented influence Yet by the end of the Middle Ages female mystics were frequently mistrusted derided and in danger of their lives The witch hunts were just around the corner While studies of sanctity and heresy tend to be undertaken separately *Proving Woman* brings these two avenues of inquiry together by associating the downward trajectory of holy women with medieval society's progressive reliance on the inquisitional procedure Inquisition was soon used for resolving most questions of proof It was employed for distinguishing saints and heretics it underwrote the new emphasis on confession in both sacramental and judicial spheres and it heralded the reintroduction of torture as a mechanism for extracting proof through confession As women were progressively subjected to this screening they became ensnared in the interlocking web of proofs No aspect of female spirituality remained untouched Since inquisition determined the need for tangible proofs it even may have fostered the kind of excruciating illnesses and extraordinary bodily changes associated with female spirituality In turn the physical suffering of holy women became tacit support for all kinds of earthly suffering even validating temporal mechanisms of justice in their most aggressive forms The widespread adoption of inquisitional mechanisms for assessing female spirituality eventuated in a growing confusion between the saintly and heretical and the ultimate criminalization of female religious expression *Nurses on the Front Line* Barbra Mann Wall, Arlene W. Keeling, 2010-09-01 *Nurses on the Front Line* examines how nurses have responded to both natural and man-made disasters in the United States Canada and other nations over the course of the previous and current centuries It documents 12 disasters including the Galveston hurricane of 1900 the 1942 Cocoanut Grove nightclub fire September 11th and Hurricane Katrina More than a simple narrative this text provides intimate first-hand experiences through letters memoirs oral histories and newspaper articles of health care workers survivors and civic and private organizations that

reflect on the character and speed of responders during a disaster It illustrates how nurses can restore stability in the aftermath of a chaotic event and analyzes the nurses role as part of a community response Key features Explains in detail what nurses can expect during disasters and what measures to take when disaster strikes Examines previous natural disasters and calls into question whether disasters were caused by accidents or intentional unintentional human error Discusses policy implications of the different disasters focusing on the federal government s response Investigates the roles and effects of race class and gender during a disaster

Native Nations Kathleen DuVal,2024-04-09 PULITZER PRIZE WINNER A magisterial overview of a thousand years of Native American history The New York Review of Books from the rise of ancient cities more than a thousand years ago to fights for sovereignty that continue today WINNER OF THE BANCROFT PRIZE THE CUNDILL HISTORY PRIZE AND THE MARK LYNTON HISTORY PRIZE Long before the colonization of North America Indigenous Americans built diverse civilizations and adapted to a changing world in ways that reverberated globally And as award winning historian Kathleen DuVal vividly recounts when Europeans did arrive no civilization came to a halt because of a few wandering explorers even when the strangers came well armed A millennium ago North American cities rivaled urban centers around the world in size Then following a period of climate change and instability numerous smaller nations emerged moving away from rather than toward urbanization From this urban past egalitarian government structures diplomacy and complex economies spread across North America So when Europeans showed up in the sixteenth century they encountered societies they did not understand those having developed differently from their own and whose power they often underestimated For centuries afterward Indigenous people maintained an upper hand and used Europeans in pursuit of their own interests In Native Nations we see how Mohawks closely controlled trade with the Dutch and influenced global markets and how Quapaws manipulated French colonists Power dynamics shifted after the American Revolution but Indigenous people continued to command much of the continent s land and resources Shawnee brothers Tecumseh and Tenskwatawa forged new alliances and encouraged a controversial new definition of Native identity to attempt to wall off U S ambitions The Cherokees created institutions to assert their sovereignty on the global stage and the Kiowas used their power in the west to regulate the passage of white settlers across their territory In this important addition to the growing tradition of North American history centered on Indigenous nations Kathleen DuVal shows how the definitions of power and means of exerting it shifted over time but the sovereignty and influence of Native peoples remained a constant and will continue far into the future An essential American history The Wall Street Journal

The Marrano Factory António José

Saraiva,2001-10-01 The Marrano Factory argues that the Portuguese Inquisition's stated intention of extirpating heresies and purifying Portuguese Catholicism was a monumental hoax the true purpose of the Holy Office was the fabrication rather than the destruction of Judaizers The caste or race of the New Christians was in reality synonymous with the Portuguese mercantile middle class which conservative Portuguese society would not tolerate Most or nearly all of the New Christian Inquisitorial victims some 40 000 between 1540 and 1765 were unremarkable Catholics who often had minimal Jewish ancestry The Portuguese Inquisitorial procedure was not designed to distinguish between guilt and innocence but considered any defendant once categorized a New Christian a Judaizer First published in Portuguese in 1969 this is the only work by Ant nio Jos Saraiva available in English and the only single volume history devoted primarily to the working of the Portuguese Inquisition a most lucid and compact survey It presents Saraiva's 1975 revised history and analysis of the Portuguese Inquisition a 1971 interview with Professor Israel Salvator R vah Saraiva's dialogues and R vah's reply of the same year both scholars letters to the Di rio de Lisboa Footnotes and introductions have been expanded A brief survey of the Portuguese Inquisition in Goa India as well as a list of Portuguese kings and Inquisitors general and an up to date bibliography have been added *The Month* ,1874 *The Month and Catholic Review* ,1874 *THE MONTH AND CATLIC REVIEW* ,1874
