Killer Cults Stephen Singular, 2021-06-29 What's scarier than a murderer Someone with the charisma to compel others to kill for them or to kill

themselves Meet these cult leaders and get an inside look at their beliefs and how they controlled others Some cults led by leaders like Charlie Manson Jim Jones and David Koresh are notorious But others are less well known such as Shoko Asahara and his doomsday cult Aum Shinrikyo who orchestrated the sarin gas attack on the Tokyo subway Or Joseph Di Mambro and Luc Jouret who founded the Order of the Solar Temple a doomsday cult that led to the death of 51 members by murder or suicide Then there is Marshall Applewhite leader of Heaven s Gate who along with 38 followers killed themselves in the belief that the Hale Bopp comet signaled the arrival of a spaceship that would transport them to a higher plane of existence What makes cult leaders so compelling is their often unfathomable power over their adherents Why do people kill others or themselves for a questionable set of beliefs Killer Cults tells the stories behind both famous and unfamiliar cults and the people behind them Across a series of profiles we learn the jaw dropping truth behind some of the most mystifying and deadly cults and their leaders all of whom led their followers down a dark murderous path

new religious movements and cults but modern organized efforts to oppose and restrict them have been less well understood In Agents of Discord Anson Shupe and Susan E Darnell offer a groundbreaking analysis of the operations and motives of these oppositional groups which they generally group under the umbrella term of the anticult movement Historically there have always been parallel groups opposed to certain religious movements whether these be anti Quaker anti Roman Catholic or anti Mormon The authors establish the cultural context of such movements in the nineteenth century They point out the link between modern anticult movements and nativist movements in American history Turning to the postwar era the authors discuss the rise of anticult movements and focus specifically on one of the most prominent the Cult Awareness Network CAN CAN was a two tiered organization Partly composed of volunteers donors and families affected by cult movements it also included what the authors call an inner sanctum of behavioral science professionals attorneys and deprogrammers Using never before reported data on CAN s activities the authors cite an extensive history of financial impropriety that finally led to the organization s bankruptcy They offer a pointed critique informed by current scholarship of the brainwashing model of mental enslavement presented by the anticult movement that has been a central assumption undergirding its activities At the same time they show how increasing professionalization has gradually begun a shift of such movements to a therapeutic model of exit counseling that rejects the crude methods of earlier intervention strategies In their analysis of the anticult movement nationally and internationally Shupe and Darnell merge sociological concepts and social history to make unique sense of a hereto

Late modernist poetics Anthony Mellors, 2024-06-04 This book explores

the uncanny afterlife of modernist ideals in the second half of the twentieth century Rejecting the familiar notion that modernism dissolved during the 1930s it argues that the fusion of rationalism and mysticism which characterises modernist poetics was sustained long after its politics had been discredited by the events of World War Two The book s central concern is why the aesthetic mysticism that Walter Benjamin called the faith of those who made common cause with Fascism continued to be a guiding principle for literary elites and countercultural movements alike New light is shed on the relationship between occultism and the Pound tradition especially in terms of Pound s influence on post 1945 Anglo American poetry and a critical theory of late modernism is offered which shows how belated notions of cultural redemption have survived in contemporary poetry This wide ranging contextual study focuses on the poetry of Ezra Pound Charles Olson Paul Celan and J H Prynne and explores the development of modernist culture through its theories of phenomenology psychoanalysis science ethnography and ancient history
