**Metropolitan Natures** Stephane Castonguay, Michele Dagenais, 2011-07-30 One of the oldest metropolitan areas in North America Montreal has evolved from a remote fur trading post in New France into an international center for services and technology A city and an island located at the confluence of the Ottawa and St Lawrence Rivers it is uniquely situated to serve as an international port while also providing rail access to the Canadian interior The historic capital of the Province of Canada once Canada's foremost metropolis Montreal has a multifaceted cultural heritage drawn from European and North American influences Thanks to its rich past the city offers an ideal setting for the study of an evolving urban environment Metropolitan Natures presents original histories of the diverse environments that constitute Montreal and its region It explores the agricultural and industrial transformation of the metropolitan area the interaction of city and hinterland and the interplay of humans and nature The fourteen chapters cover a wide range of issues from landscape representations during the colonial era to urban encroachments on the Kahnawake Mohawk reservation on the south shore of the island from the 1918-1920 Spanish flu epidemic and its ensuing human environmental modifications to the urban sprawl characteristic of North America during the postwar period Situations that politicize the environment are discussed as well including the economic and class dynamics of flood relief highways built to facilitate recreational access for the middle class power generating facilities that invade pristine rural areas and the elitist environmental hegemony of fox hunting Additional chapters examine human attempts to control the urban environment through street planning waterway construction water supply and sewerage [A Companion to Global Environmental History](#) J. R. McNeill, Erin Stewart Mauldin, 2015-05-04 The Companion to Global Environmental History offers multiple points of entry into the history and historiography of this dynamic and fast growing field to provide an essential road map to past developments current controversies and future developments for specialists and newcomers alike Combines temporal geographic thematic and contextual approaches from prehistory to the present day Explores environmental thought and action around the world to give readers a cultural intellectual and political context for engagement with the environment in modern times Brings together environmental historians from around the world including scholars from South Africa Brazil Germany and China *The Audacity of His Enterprise* M. Max Hamon, 2020-01-09 Shining a spotlight on the life vision and cultivation of one of Canada's most influential historical figures **Griffintown** Matthew Barlow, 2017-06-28 This vibrant biography of Griffintown an inner city Montreal neighbourhood brings to life the history of Irish identity in the legendary enclave As Irish immigration dwindled by the late nineteenth century Irish culture in the city became diasporic reflecting an imagined homeland Focusing on the power of memory to shape community Matthew Barlow finds that despite sociopolitical pressures and a declining population the spirit of this ethnic quarter was nurtured by the men and women who grew up there Today as Griffintown attracts renewed interest from developers this textured analysis reveals how public memory defines our urban centres **Wallless Cities** Shen

Hou,2024-10-21 This book aims to outline the detailed process of integrating nature and cities in a historical context through the lens of urban environmental history capturing how the most ordinary yet enduring natural forces have shaped the form of cities and the thoughts of individuals It provides a detailed examination of the development trends achievements and existing issues in this field and a profound understanding of the urgency and necessity of nurturing new ideas to guide cities out of their ecological paradox It also summarizes the formation and development challenges and missions of American cities centered around the core image of the City Without Walls *New World Cities* John Tutino,Martin V. Melosi,2019-02-20 For millennia urban centers were pivots of power and trade that ruled and linked rural majorities After 1950 explosive urbanization led to unprecedented urban majorities around the world That transformation inextricably tied to rising globalization changed almost everything for nearly everybody production politics and daily lives In this book seven eminent scholars look at the similar but nevertheless divergent courses taken by Mexico City Rio de Janeiro Buenos Aires Montreal Los Angeles and Houston in the twentieth century attending to the challenges of rapid growth the gains and limits of popular politics and the profound local effects of a swiftly modernizing globalizing economy By exploring the rise of these six cities across five nations *New World Cities* investigates the complexities of power and prosperity difficulty and desperation while reckoning with the social cultural and ethnic dynamics that mark all metropolitan areas Contributors Mich le Dagenais Mark Healey Martin V Melosi Bryan McCann Joseph A Pratt George J Sanchez and John Tutino *The Feel of the City* Nicolas Kenny,2014-01-01 At the start of the twentieth century the modern metropolis was a riot of sensation City dwellers lived in an environment filled with smoky factories crowded homes and lively thoroughfares Sights sounds and smells flooded their senses while changing conceptions of health and decorum forced many to rethink their most banal gestures from the way they negotiated speeding traffic to the use they made of public washrooms *The Feel of the City* exposes the sensory experiences of city dwellers in Montreal and Brussels at the turn of the century and the ways in which these shaped the social and cultural significance of urban space Using the experiences of municipal officials urban planners hygienists workers writers artists and ordinary citizens Nicolas Kenny explores the implications of the senses for our understanding of modernity

Urban Rivers Stephane Castonguay,Matthew Evenden,2012-05-10 *Urban Rivers* examines urban interventions on rivers through politics economics sanitation systems technology and societies how rivers affected urbanization spatially in infrastructure territorial disputes and in flood plains and via their changing ecologies Providing case studies from Vienna to Manitoba the chapters assemble geographers and historians in a comparative survey of how cities and rivers interact from the seventeenth century to the present Rising cities and industries were great agents of social and ecological changes particularly during the nineteenth century when mass populations and their effluents were introduced to river environments Accumulated pollution and disease mandated the transfer of wastes away from population centers In many cases potable water for cities now had to be drawn from distant sites These developments required significant infrastructural

improvements creating social conflicts over land jurisdiction and affecting the lives and livelihood of nonurban populations The effective reach of cities extended and urban space was remade By the mid twentieth century new technologies and specialists emerged to combat the effects of industrialization Gradually the health of urban rivers improved From protoindustrial fisheries mills and transportation networks through industrial hydroelectric plants and sewage systems to postindustrial reclamation and recreational use Urban Rivers documents how Western societies dealt with the needs of mass populations while maintaining the viability of their natural resources The lessons drawn from this study will be particularly relevant to today s emerging urban economies situated along rivers and waterways City of beasts Thomas

Almeroth-Williams,2019-07-04 This book explores the role of animals horses cattle sheep pigs and dogs in shaping Georgian London Moving away from the philosophical fictional and humanitarian sources used by previous animal studies it focuses on evidence of tangible dung bespattered interactions between real people and animals drawn from legal parish commercial newspaper and private records This approach opens up new perspectives on unfamiliar or misunderstood metropolitan spaces activities social types relationships and cultural developments Ultimately the book challenges traditional assumptions about the industrial agricultural and consumer revolutions as well as key aspects of the city s culture social relations and physical development It will be stimulating reading for students and professional scholars of urban social economic agricultural industrial architectural and environmental history Epidemic Encounters Magda Fahrni,Esyllt W.

Jones,2012-05-24 Health crises such as the SARS epidemic and H1N1 have rekindled interest in the 1918 influenza pandemic which swept the globe after the First World War and killed approximately fifty million people Epidemic Encounters examines the pandemic in Canada where one third of the population took ill and fifty five thousand people died What role did social inequalities play in determining who survived How did the authorities health care workers and ordinary citizens respond Contributors answer these questions as they pertained to both local and national contexts In the process they offer new insights into medical history s usefulness in the struggle against epidemic disease **Montreal, City of Water** Michèle

Dagenais,2017-11-15 Built within an exceptional watershed Montreal is intertwined with the waterways that ring its island and flow beneath it in underground networks Even as the city has pushed its suburbs deeper into the interior of the island and onto the mainland the daily lives and leisure activities of its inhabitants remain closely bound to water Montreal City of Water focuses on water not only as a physical element of the landscape both shaping and shaped by urban development but also as a sociocultural component of the life of the city In exploring the dynamics governing the relationship between Montrealers and their environment this unique study considers the role of water in the production and transformation of urban space over two centuries It traces the history of urbanization and shines a light on current concerns about water pollution river rehabilitation and renewed public access to the riverfront and the power relations involved in addressing those concerns *A City on a Lake* Matthew Vitz,2018-04-26 In *A City on a Lake* Matthew Vitz tracks the environmental and

political history of Mexico City and explains its transformation from a forested water rich environment into a smog infested megacity plagued by environmental problems and social inequality Vitz shows how Mexico City's unequal urbanization and environmental decline stemmed from numerous scientific and social disputes over water policy housing forestry and sanitary engineering From the prerevolutionary efforts to create a hygienic city supportive of capitalist growth through revolutionary demands for a more democratic distribution of resources to the mid twentieth century emergence of a technocratic bureaucracy that served the interests of urban elites Mexico City's environmental history helps us better understand how urban power has been exercised reproduced and challenged throughout Latin America **City of Lake and Prairie**

Kathleen A. Brosnan, Ann Durkin Keating, William C. Barnett, 2020-09-08 Known as the Windy City and the Hog Butcher to the World Chicago has earned a more apt sobriquet City of Lake and Prairie with this compelling innovative and deeply researched environmental history Sitting at the southwestern tip of Lake Michigan one of the largest freshwater bodies in the world and on the eastern edge of the tallgrass prairies that fill much of the North American interior early residents in the land that Chicago now occupies enjoyed natural advantages economic opportunities and global connections over centuries from the Native Americans who first inhabited the region to the urban dwellers who built a metropolis in the nineteenth and twentieth centuries As one millennium ended and a new one began these same features sparked a distinctive Midwestern environmentalism aimed at preserving local ecosystems Drawing on its contributors interdisciplinary talents this volume reveals a rich but often troubled landscape shaped by communities of color workers and activists as well as complex human relations with industry waterways animals and disease **EM**, 2007 *La urbanización del río Tunjuelo* Vladimir

Sánchez, 2021-09-29 El presente libro aporta al estudio de las relaciones entre las desigualdades socio económicas y los cambios ambientales en la urbanización de Bogotá un tema de indudable trascendencia justo en un contexto mundial actual marcado por el incremento de las desigualdades a nivel urbano y los desafíos ambientales asociados al cambio climático la contaminación los desastres el derecho al agua y como nos ha enseñado el 2020 los virus y las pandemias que creemos superados Es también una ayuda para comprender la urbanización como un proceso ambiental en el cual están presentes elementos tanto sociales como naturales El caso del río Tunjuelo es ilustrativo de la producción de desigualdades ambientales en el proceso de urbanización se analiza la relación existente entre la intensificación del proceso de urbanización de Bogotá a mediados del siglo XX la actividad minera en el río y la ocurrencia de inundaciones en los barrios ubicados sus riberas y se muestra cómo esta interrelación debe ser entendida en el marco de la alta desigualdad socioespacial que caracteriza el proceso de urbanización de la capital Además de lo que puede significar para el entorno bogotano esta información puede servir de comparación o contrastación de situaciones similares en otras ciudades y otros ríos urbanos tanto de Colombia como de América Latina *América, History and Life*, 2007 Article abstracts and citations of reviews and dissertations covering the United States and Canada **Les enjeux sociaux de l'environnement** Louis Guay, 2021-09-07T00:00:00-04:00 L'ouvrage

se penche sur l'environnement d'un point de vue sociologique. Il se centre sur les acteurs, les institutions, les controverses en contexte social et politique. L'aide de thèmes particuliers comme la ville, le climat, la biodiversité, l'eau, la forêt, l'enquête sociologique vise à comprendre le passage des problèmes aux actions en matière d'environnement. Index of Conference Proceedings Received British Library. Lending Division, 1981. *Routledge International Handbook of Social and Environmental Change* Stewart Lockie, David A. Sonnenfeld, Dana R. Fisher, 2013-10-30. This book reviews the major ways in which social scientists are conceptualizing more integrated perspectives on society and nature from the global to local levels. The chapters in this volume by international experts from a variety of disciplines explore the challenges, contradictions and consequences of socioecological change along with the uncertainties and governance dilemmas they create. *Directory of American Scholars* Rita C. Velázquez, 1999. Completely updated, this 9th edition presents biographical profiles of United States and Canadian scholars currently active in teaching, research and publishing in the fields of philosophy, religion and law.
