Mexico Between Hitler And Roosevelt:

Mexico Between Hitler and Roosevelt Friedrich Engelbert Schuler, 1998 Mexico's relationship with the world during the 1930s is revealed as a fascinating series of calculated responses to domestic political changes and international economic shifts

Unwelcome Exiles. Mexico and the Jewish Refugees from Nazism, 1933-1945 Daniela Gleizer, 2013-10-02

Unwelcome Exiles Mexico and the Jewish Refugees from Nazism 1933-1945 reconstructs a largely unknown history during the Second World War the Mexican government closed its doors to Jewish refugees expelled by the Nazis In this comprehensive investigation based on archives in Mexico and the United States Daniela Gleizer emphasizes the selectiveness and discretionary implementation of post revolutionary Mexican immigration policy which sought to preserve mestizaje the country's blend of Spanish and Indigenous people and the ideological basis of national identity by turning away foreigners considered inassimilable and therefore undesirable Through her analysis of Mexico's role in the rescue of refugees in the 1930s and 40s Gleizer challenges the country's traditional image of itself as a nation that welcomes the persecuted This book is a revised and expanded translation of the Spanish *El exilio inc modo M xico y los refugiados jud os 1933 1945* which received an Honorable Mention in the LAJSA Book Prize Award 2013

Mexico's Relations with Latin America during the Cárdenas Era Amelia M. Kiddle, 2016-10-15 This book examines culture and diplomacy in Mexico's relations with the rest of Latin America during the presidency of L zaro C rdenas 1934-1940 Drawing on archival research throughout Latin America the author demonstrates that C rdenas's representation of Mexico as a revolutionary nation contributed to the formation of Mexican national identity and spread the legacy of the Mexican Revolution of 1910 beyond Mexico's borders C rdenas did more than any other president to fulfill the goals of the revolution incorporating the masses into the political life of the nation and implementing land reform resource nationalization and secular public education and his government promoted the idea that these reforms represented a path to social political and economic development for the entire region Kiddle offers a colorful and detailed account of the way Cardenista diplomacy was received in the rest of Latin America and the influence his policies had throughout the continent

The War Has Brought Peace to Mexico Halbert Jones, 2014-04-15 Though the war years in Mexico have attracted less attention than other periods this book shows how the crisis atmosphere of the early 1940s played an important part in the consolidation of the post revolutionary regime

Mexico and the Spanish Civil War Mario Ojeda Revah, 2015-07-01 Based on first hand diplomatic political and journalistic sources most unpublished Mexico and the Spanish Civil War investigates the backing of the Second Republic by Mexico during the Spanish Civil War Significant military material and financial aid was given by the government of L zaro C rdenas 1934-1940 to the Republic which involved not only direct sales of arms but also smuggling operations covertly undertaken by Mexican diplomatic agents in order to circumvent the embargo imposed by the London Committee of Non Intervention This path breaking account reveals the operations in Spain of Mexican workers soldiers artists and intellectuals such as later Nobel

Laureate Octavio Paz and the Muralist David Alfaro Siqueiros as volunteers and propagandists for the Republican cause Engagement with the Spanish Civil War also had a profound impact upon Mexico's domestic politics as support for the Republic was equated by Cárdenas with his own revolutionary project The defeat of the Republic in 1939 therefore had far reaching repercussions for the post 1940 governments Originally published to critical acclaim in Spanish the work has been quoted and reviewed by many leading specialists on the Civil War including Anthony Beevor Nigel Vias Santos Juliá and Pedro Pérez Herrero This book is essential reading for students and scholars specialising in contemporary European history and politics Latin American studies and all those with an interest in the Spanish Civil War and the Mexican Revolution

Religion and State Formation in Postrevolutionary Mexico Ben Fallaw, 2013-01-21 The religion question the place of the Church in a Catholic country after an anticlerical revolution profoundly shaped the process of state formation in Mexico From the end of the Cristero War in 1929 until Manuel L. Calles assumed the presidency in late 1940 and declared his faith Mexico's unresolved religious conflict roiled regional politics impeded federal schooling undermined agrarian reform and flared into sporadic violence ultimately frustrating the secular vision shared by Plutarco Elías Calles and Lázaro Cárdenas Ben Fallaw argues that previous scholarship has not appreciated the pervasive influence of Catholics and Catholicism on postrevolutionary state formation By delving into the history of four understudied Mexican states he is able to show that religion swayed regional politics not just in states such as Guanajuato in Mexico's central west Rosary Belt but even in those considered much less observant including Campeche Guerrero and Hidalgo Religion and State Formation in Postrevolutionary Mexico reshapes our understanding of agrarian reform federal schooling revolutionary anticlericalism elections the Segunda a second Cristero War in the 1930s and indigenism the Revolution's valorization of the Mesoamerican past as the font of national identity

Finding Afro-Mexico Theodore W. Cohen, 2020-05-07 In 2015 the Mexican state counted how many of its citizens identified as Afro Mexican for the first time since independence Finding Afro Mexico reveals the transnational interdisciplinary histories that led to this celebrated reformulation of Mexican national identity It traces the Mexican African American and Cuban writers poets anthropologists artists composers historians and archaeologists who integrated Mexican history culture and society into the African Diaspora after the Revolution of 1910 Theodore W. Cohen persuasively shows how these intellectuals rejected the nineteenth century racial paradigms that heralded black disappearance when they made blackness visible first in Mexican culture and then in post revolutionary society Drawing from more than twenty different archives across the Americas this cultural and intellectual history of black visibility invisibility and community formation questions the racial cultural and political dimensions of Mexican history and Afro diasporic thought

The Vatican and Catholic Activism in Mexico and Chile Stephen J. C. Andes, 2014 A religious and political history of transnational Catholic activism in Latin America during the 1920s and 1930s

Cervantes, the Golden Age, and the Battle for Cultural Identity in 20th-Century Spain Ana María G. Laguna, 2021-07-29 Studies that connect the Spanish

17th and 20th centuries usually do so through a conservative lens assuming that the blunt imperialism of the early modern age endlessly glorified by Franco's dictatorship was a constant in the Spanish imaginary. This book by contrast recuperates the thriving humanistic vision of the Golden Age celebrated by Spanish progressive thinkers, writers and artists in the decades prior to 1939 and the Francoist Regime. The hybrid modern stance of the country in the 1920s and early 1930s would uniquely incorporate the literary and political legacies of the Spanish Renaissance into the ambitious design of a forward democratic future. In exploring the complex understanding of the multifaceted event that is modernity, the life story and literary opus of Miguel de Cervantes (1547-1616) acquires a new significance given the weight of the author in the poetic and political endeavors of those Spanish left wing reformists who believed they could shape a new Spanish society. By recovering their progressive dream buried for almost a century of incipient and full Spanish modernities, Ana María G. Laguna establishes a more balanced understanding of both the modern and early modern periods and casts doubt on the idea of a persistent conservatism in Golden Age literature and studies. This book ultimately serves as a vigorous defense of the canonical as well as the neglected critical traditions that promoted Cervantes's humanism in the 20th century.

Antifascist Humanism and the Politics of Cultural Renewal in Germany Andreas Agocs, 2017-07-14. A study of German traditions of cultural renewal from their origins in antifascist activism in German exile communities in Europe and Latin America during World War II to their failure during the emerging Cold War in occupied Germany and the early German Democratic Republic.

Hitler's Man in Havana Thomas Schoonover, 2008-09-12. When Heinz L.ning posed as a Jewish refugee to spy for Hitler's Abwehr espionage agency, he thought he had discovered the perfect solution to his most pressing problem: how to avoid being drafted into Hitler's army. L.ning was unsympathetic to Fascist ideology but the Nazis' tight control over exit visas gave him no chance to escape Germany. He could enter Hitler's army either as a soldier or a spy. In 1941 he entered the Abwehr academy for spy training and was given the code name Lumann. Soon after L.ning began the service in Cuba that led to his ultimate fate of being the only German spy executed in Latin America during World War II. L.ning was not the only spy operating in Cuba at the time. Various Allied spies labored in Havana: the FBI controlled eighteen Special Intelligence Service operatives and the British counterintelligence section subchief Graham Greene supervised Secret Intelligence Service agents and Ernest Hemingway's private agents supplied inflated and inaccurate information about submarines and spies to the U.S. ambassador Spruille Braden. L.ning stumbled into this milieu of heightened suspicion and intrigue. Poorly trained and awkward at his work, he gathered little information worth reporting, was unable to build a working radio and improperly mixed the formulas for his secret inks. L.ning eventually was discovered by British postal censors and unwittingly provided the inspiration for Graham Greene's *Our Man in Havana*. In chronicling L.ning's unlikely trajectory from a troubled life in Germany to a Caribbean firing squad, Thomas D. Schoonover makes brilliant use of untapped documentary sources to reveal the workings of the famed Abwehr and the technical and social aspects of L.ning's spycraft.

Using archival sources from three continents Schoonover offers a narrative rich in atmospheric details to reveal the political upheavals of the time not only tracking L ning s activities but also explaining the broader trends in the region and in local counterespionage Schoonover argues that ambitious Cuban and U S officials turned L ning s capture into a grand victory For at least five months after L ning s arrest U S and Cuban leaders J Edgar Hoover Fulgencio Batista Nelson Rockefeller General Manuel Ben tez Ambassador Spruille Braden and others treated L ning as a dangerous key figure for a Nazi espionage network in the Gulf Caribbean They reworked his image from low level bumbler to master spy using his capture for their own political gain In the sixty years since L ning s execution very little has been written about Nazi espionage in Latin America partly due to the reticence of the U S government Revealing these new historical sources for the first time Schoonover tells a gripping story of L ning s life and capture suggesting that L ning was everyone s man in Havana but his own

The Ambivalent Revolution Stephen E. Lewis,2005 Why did the Zapatista rebellion occur in Chiapas and not in some other state in southern Mexico where impoverished marginalized indigenous peasants also suffer a legacy of exploitation and repression Stephen Lewis believes the answers can be found in the 1920s and 1930s During those critical years Mexico s most important state and nation building agent the Ministry of Public Education SEP struggled to introduce the reforms and institutions of the Mexican revolution in Chiapas In 1934 the administration of president L zaro C rdenas endorsed socialist education turning federal teachers into federal labor inspectors and promoters of agrarian reform Teachers also attempted to incorporate indigenous populations and forge a more sober defanaticized nationalist citizenry SEP activism won over most mestizo communities after 1935 but enraged local ranchers planters and politicians unwilling to abide by the federal blueprint In the Maya highlands federal education was a more categorical failure and Cardenista Indian policy had unintended even sinister consequences By 1940 Cardenismo and SEP populism were in full retreat even as mestizo communities came to embrace the culture of schooling and identify with the Mexican nation Fifty years later the delayed incomplete and corrupted nature of state and nation building in Chiapas prevented resolution of the state s most pressing problems As Lewis concludes the Zapatistas appropriated the federal government s discarded revolutionary nationalist discourse in 1994 and launched a rebellion that challenged the Mexican state to contemplate a plural multi ethnic nation

Watering the Revolution Mikael D. Wolfe,2017-06-22 In Watering the Revolution Mikael D Wolfe transforms our understanding of Mexican agrarian reform through an environmental and technological history of water management in the emblematic Laguna region Drawing on extensive archival research in Mexico and the United States Wolfe shows how during the long Mexican Revolution 1910 1940 engineers distribution of water paradoxically undermined land distribution In so doing he highlights the intrinsic tension engineers faced between the urgent need for water conservation and the imperative for development during the contentious modernization of the Laguna s existing flood irrigation method into one regulated by high dams concrete lined canals and motorized groundwater pumps This tension generally resolved in favor of development

which unintentionally diminished and contaminated the water supply while deepening existing rural social inequalities by dividing people into water haves and have nots regardless of their access to land By uncovering the varied motivations behind the Mexican government's decision to use invasive and damaging technologies despite knowing they were ecologically unsustainable Wolfe tells a cautionary tale of the long term consequences of short sighted development policies

Connected Struggles Maurice Demers, 2014-07-01 Nationalists from Quebec and Catholic militants from Mexico once shared a common cause one that influenced international relations between their two countries At a time when the Revolution and its aftermath in Mexico and world wars marginalized voices of political dissent in Canada Catholics in both nations saw their cultural struggles as interconnected and worked to build transnational alliances as meaningful discourses of cultural identity In *Connected Struggles* Maurice Demers considers how and why groups from Mexico and Quebec actively sought to establish close cultural and political links Drawing on extensive research in government religious and university archives in Mexico and Canada Demers delves into the actors their rationales and the processes and meanings of such alliances He proposes a reinterpretation of North South collaboration in the Americas by analysing how the bonds created by Quebec's and Mexico's civil societies and religious communities influenced diplomatic relations showing not only the Catholic origins of this solidarity but its conservative even reactionary roots Demers explains how the foreign ministries in Canada and Mexico both used and denounced these linkages depending on the political gains to be made Documenting the emergence of solidarity between French Canadians and Mexicans *Connected Struggles* contributes to the understanding of the influence of civil societies in the history of international relations

Technified Muses Sara A. Potter, 2024-10-08 In this volume Sara Potter uses the idea of the muse from Greek mythology and the cyborg from posthuman theory to consider the portrayal of female characters and their bodies in Mexican art and literature from the 1920s to the present examining genres including science fiction cyberpunk and popular fiction

Anti-americanism in Latin America and the Caribbean Alan McPherson, 2006-03 Whether rising up from fiery leaders such as Venezuela's Hugo Chavez and Cuba's Fidel Castro or from angry masses of Brazilian workers and Mexican peasants anti U S sentiment in Latin America and the Caribbean today is arguably stronger than ever It is also a threat to U S leadership in the hemisphere and the world Where has this resentment come from Has it arisen naturally from imperialism and globalization from economic and social frustrations Has it served opportunistic politicians Does Latin America have its own style of anti Americanism What about national variations How does cultural anti Americanism affect politics and vice versa What roles have religion literature or cartoons played in whipping up sentiment against el yanqui Finally how has the United States reacted to all this This book brings leaders in the field of U S Latin American relations together with the most promising young scholars to shed historical light on the present implications of hostility to the United States in Latin America and the Caribbean In essays that carry the reader from Revolutionary Mexico to Peronist Argentina from Panama in the nineteenth century to the West Indies mid

century independence movement and from Colombian drug runners to liberation theologians the authors unearth little known campaigns of resistance and probe deeper into episodes we thought we knew well They argue that for well over a century identifying the United States as the enemy has rung true to Latin Americans and has translated into compelling political strategies Combining history with political and cultural analysis this collection breaks the mold of traditional diplomatic history by seeing anti Americanism through the eyes of those who expressed it It makes clear that anti Americanism far from being a post 9 11 buzzword is rather a real force that casts a long shadow over U S Latin American relations *Cárdenas Compromised* Ben Fallaw,2001-08-17 The first archive based study of the failure of President Cardenas s agrarian reform in Mexico s Yucatan region *Power and Illicit Drugs in the Global South* Maziyar Ghiabi,2020-04-28 More than a hundred years have passed since the adoption of the first prohibitionist laws on drugs Increasingly the edifice of international drug control and laws is vacillating under pressures of reform Scholarship on drugs history and policy has had a tendency to look at the issue mostly in the Western hemisphere of the globe or to privilege Western narratives of drugs and drugs policy This volume instead turns this approach upside down and makes an intellectual attempt to redefine the subject of drugs in the Global South Opium heroin cannabis hashish methamphetamines and khat are among the drugs discussed in the contributions to the volume which spans from Sub Saharan Africa to Southeast Asia including the Middle East North Africa Latin America and the Indian Subcontinent The volume also makes a powerful case for an interdisciplinary approach to the study of drugs by juxtaposing the work of historians political scientists geographers anthropologists and criminologists Ultimately this edited volume is a rich and diverse collection of new case studies which opens up venues for further research This book was originally published as a special issue of Third World Quarterly [A Companion to Latin American History](#) Thomas H. Holloway,2011-03-21 The Companion to Latin American History collects the work of leading experts in the field to create a single source overview of the diverse history and current trends in the study of Latin America Presents a state of the art overview of the history of Latin America Written by the top international experts in the field 28 chapters come together as a superlative single source of information for scholars and students Recognizes the breadth and diversity of Latin American history by providing systematic chronological and geographical coverage Covers both historical trends and new areas of interest **State Governors in the Mexican Revolution, 1910-1952** Jürgen Buchenau,William H. Beezley,2009-03-16 This unique book traces Mexico s eventful years from 1910 to 1952 through the experiences of its state governors During this seminal period revolutionaries destroyed the old regime created a new national government built an official political party and then discarded in practice the essence of their revolution In this tumultuous time governors some of whom later became president served as the most significant intermediaries between the national government and the people it ruled Leading scholars study governors from ten different states to demonstrate the diversity of the governors experiences implementing individual revolutionary programs over time as well as the waxing and waning of strong governorship as an institution that

ultimately disappeared in the powerful national regime created in the 1940s and 1950s. Until that time, the contributors convincingly argue, the governors provided the revolution with invaluable versatility by dealing with pressing issues of land, labor, housing, and health at the local and regional levels. The flexibility of state governors also offered test cases for the implementation of national revolutionary laws and campaigns. The only book that considers the state governors in comparative perspective, this invaluable study offers a fresh view of regionalism and the Revolution. Contributions by William H. Beezley, Jürgen Buchenau, Francie R. Chassen-López, Michael A. Ervin, María Teresa Fernández Aceves, Paul Gillingham, Kristin A. Harper, Timothy Henderson, David LaFrance, Stephen E. Lewis, Stephanie J. Smith, and Andrew Grant Wood.

The Top Books of the Year Mexico Between Hitler And Roosevelt The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the captivating narratives that have captivated audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Mexico Between Hitler And Roosevelt : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Mexico Between Hitler And Roosevelt : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papan, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and suspenseful novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
