Pearl, 2013 This book discusses the significance of late twentieth century and early twenty first century American fiction written in response to the AIDS crisis and interrogates how sexual identity is depicted and constructed textually Pearl develops Freudian psychoanalytic theory in a complex account of the ways in which grief is expressed and worked out in literature showing how key texts from the AIDS crisis by authors such as Edmund White Michael Cunningham Eve Sedgwick and also later the archives of The ACT UP Oral History Project lie both within the tradition of gay writing and a postmodernist poetics The book demonstrates how literary texts both expose and construct personal identity how they expose and produce sexual identities and how gay and queer identities were written onto the page but also constructed and consolidated by these very texts Pearl argues that the division between realist and postmodern and gay and queer respectively is determined by whether the experience expressed and accounted is mediated through the psychoanalytic categories of mourning or melancholia and is marked by a kind of coherence or chaos in the texts themselves This study presents an important development in scholarly work in gay literary studies queer theory and AIDS representation Queer Aging in North American Fiction Linda M. Hess, 2019-01-24 Exploring representations of queer aging in North American fiction this book illuminates a rich yet previously unheeded intersection within American culture At a time when older LGBTQ persons gradually gain visibility in gerontological studies and in the media this work provides a

critical perspective concerned with the ways in which the narratives and images we have at our disposal shape our realities Each chapter shines a spotlight on a significant work of queer fiction beginning with post WWII novels and ending with filmic representations of the 2010s exploring narratives as both reflections and agents of broader cultural negotiations concerning queer sexuality and aging As a result the book not only redresses queer aging s history of invisibility but also reveals narratives of queer aging to be particularly apt in casting new light on the ways in which growing older is perceived and conceptualized in North American culture

More Tales of the City Armistead Maupin, 2000 This is the second chronicle in the Tales of the City saga which follows the adventures of a naive young secretary who forsakes Cleveland for San Francisco and discovers a whole new world filled with a bizarre cast of characters
