Microbial Plant And Animal Research Biotechnology In Agriculture Industry And Medicine:

Microbial, Plant and Animal Research Rajarshi Kumar Gaur, Dr. K. P. Sharma, Dr. R. S. Chundawat, 2013

Biotechnology has proven to be one of the more fruitful technological approaches in science today being both very powerful and able to generate valuable intellectual property. This book aims to present examples in the applications of molecular biology and genetic engineering. This book shows how areas as diverse as agrofood technology, fine chemistry, detergents, bioremediation and biosensors are receiving significant contributions from biotechnology approaches. The fundamental principles that underpin all biotechnologies are explained and a full range of examples are discussed to show how these principles are applied from starting substrates to the final product. The challenges on these aspects and methodologies inspired us to edit this book.

Transgenic Crop Plants Chittaranjan Koley, Charles Michler, Albert G. Abbott, Timothy C. Hall, 2010-01-26. Development of transgenic crop plants, their utilization for improved agriculture, health, ecology and environment and their socio-political impacts are currently important fields in education, research and industries and also of interest to policy makers, social activists and regulatory and funding agencies. This work prepared with a class room approach on this multidisciplinary subject will fill an existing gap and meet the requirements of such a broad section of readers. Volume 2 with 13 chapters contributed by 41 eminent scientists from nine countries deliberates on the utilization of transgenic crops for resistance to herbicides, biotic stress and abiotic stress, manipulation of developmental traits, production of biofuel, biopharmaceuticals and algal bioproducts, amelioration of ecology and environment and fostering functional genomics as well as on regulations and steps for commercialization, patent and IPR issues and compliance to concerns and compulsions of utilizing transgenic plants.

Microbial Enzymes Dinesh Yadav, Pankaj Chowdhary, Gautam Anand, Rajarshi Kumar Gaur, 2024-10-17.
