Sharaf al Din al M saw in Lebanon and Muhammad Jawid Mughniyya in Damascus this book gives new insight on the future of inter Muslim relations at a time of growing inter sectarian contention from the Iran Iraq war to the post 2003 Sunni Shi'i conflict in Iraq and al Qaeda's anti Shi'i message taking into account questions of theology historiography jurisprudence and politics which all played a vital role in the transition to the contemporary era The author here analyses the broad scholarly connections between Iran Iraq and Lebanon in the twentieth century while debating paramount questions of leadership identity and group membership in the development of modern Shi'ism Examining the relationship between intellectual thought and socio political development in the region this book provides a new perspective concerning the future of an increasingly globalised Muslim world and will prove essential reading for students and specialists **The Bloomsbury**

Zaman, 2010-12-16 From the cleric led Iranian revolution to the rise of the Taliban in Afghanistan many people have been surprised by what they see as the modern reemergence of an antimodern phenomenon This book helps account for the increasingly visible public role of traditionally educated Muslim religious scholars the ulama across contemporary Muslim societies Muhammad Qasim Zaman describes the transformations the centuries old culture and tradition of the ulama have undergone in the modern era transformations that underlie the new religious and political activism of these scholars In doing so it provides a new foundation for the comparative study of Islam politics and religious change in the contemporary world While focusing primarily on Pakistan Zaman takes a broad approach that considers the Taliban and the ulama of Iran Egypt Saudi Arabia India and the southern Philippines He shows how their religious and political discourses have evolved in often

unexpected but mutually reinforcing ways to redefine and enlarge the roles the ulama play in society Their discourses are informed by a longstanding religious tradition of which they see themselves as the custodians But these discourses are equally shaped by and contribute in significant ways to contemporary debates in the Muslim public sphere This book offers the first sustained comparative perspective on the ulama and their increasingly crucial religious and political activism It shows how issues of religious authority are debated in contemporary Islam how Islamic law and tradition are continuously negotiated in a rapidly changing world and how the ulama both react to and shape larger Islamic social trends Introducing previously unexamined facets of religious and political thought in modern Islam it clarifies the complex processes of religious change unfolding in the contemporary Muslim world and goes a long way toward explaining their vast social and political ramifications

Key Islamic Political Thinkers John L. Esposito, Emad El-Din Shahin, 2018-08-08 *Key Islamic Political Thinkers* offers an examination of some of the leading intellectuals behind the resurgence of political Islam The essays in this volume cover a selection of thinkers that is representative of the main strands of contemporary Muslim political thought

The Muslim Brotherhood in Jordan Joas Wagemakers, 2020-09-17 Since its founding in 1945 the Jordanian Muslim Brotherhood has enjoyed decades of almost continuous parliamentary presence and state acceptance in Jordan participating in elections organising events and even establishing a hospital In this detailed account of the Muslim Brotherhood's ideological and behavioural development in Jordan Joas Wagemakers focusses on the group's long history and complex relationship with the state its parliament and society It shows how age old concepts derived from classical Islam and the writings of global Islamist scholars have been used and reused by modern day Jordanian Islamists to shape their beliefs in the context of the present day nation state Far from its reputation as a two faced global conspiracy bent on conquering the West the Muslim Brotherhood is a deeply divided group that has nevertheless maintained a fascinating internal ideological consistency in its use of similar religious concepts As such it is part of and continues to build on trends in Muslim thought that go back hundreds of years

Islam in Perspective Patrick Bannerman, 2013-06-03 There has been a significant upsurge of western interest in the political manifestations and significance of Islam in the last decade fuelled by the notion of Islamic revival the Iranian revolution and by events in countries as diverse as Egypt Pakistan and Sudan Oil power and its effect on the international economic order the relationship of Muslim countries with the superpowers and the continuation of the Arab Israeli conflict have also served to focus attention on Islamic politics and in particular on the notion of Islamic reassertion As the author of this book argues one result of this interest has been the development of a view of Islam as monolithic and implacable He takes a broad view of the intellectual and cultural history of Islam emphasising the extraordinary diversity of Islamic societies and the ways in which the ideal is often pragmatically adapted to reality In this wider social and historical context the nature of Islamic revival is then reassessed First published in 1988

Islam as Power Bianka Speidl, 2020-12-03 Providing an in depth and extensive analysis of the concept of power as articulated by Muhammad Husayn Fadlallah 1935

2010 this case study analyses the systemic conceptualisation of power and his argumentation of sacralising Islamised power The volume also offers a quick overview of how the concept was understood and articulated by other Shi'ite jurists such as Ayatollah Khomeini Examining Fadlallah's oeuvre in particular his seminal book *Islam and the Logic of Power* al-Islam wa mantiq al-quwwa this book focuses on the narrative itself which played a central role in the radical transformation that occurred in the Shi'ite concept of empowerment and its recognition as a necessity The analysis of Fadlallah's conceptualisation and argumentation illustrates the mechanism of sacralising righteous power as well as the means of gaining it Fadlallah reinterpreted Shi'ism as a project of empowerment to initiate and sustain an impulse of power amongst the Lebanese Shi'ites in the most critical moment of modern Lebanese history Dealing with the concept of power in Shi'ite political thought from a theoretical perspective the study has an innovative approach that offers an insight into how the transformative narrative is constructed and what makes it convincing Shedding light on the content and logical structure of Fadlallah's argumentation this volume will be of interest to scholars and students researching contemporary politics Islam and the Middle East

Beyond Shariati Siavash Saffari, 2017-02-16 Ali Shariati 1933-77 has been called by many the ideologue of the Iranian Revolution An inspiration to many of the revolutionary generation Shariati's combination of Islamic political thought and Left leaning ideology continues to influence both in Iran and across the wider Muslim world In this book Siavash Saffari examines Shariati's long standing legacy and how new readings of his works by contemporary neo Shariatis have contributed to a deconstruction of the false binaries of Islam modernity Islam West and East West Saffari argues that through their critique of Eurocentric metanarratives on the one hand and the essentialist conceptions of Islam on the other Shariati and neo Shariatis have carved out a new space in Islamic thought beyond the traps of Orientalism and Occidentalism This unique perspective will hold great appeal to researchers of the politics and intellectual thought of post revolutionary Iran and the greater Middle East

Reinventing Khomeini Daniel Brumberg, 2001-04-15 Reinventing Khomeini offers a new interpretation of the political battles that paved the way for reform in Iran Brumberg argues that these conflicts did not result from a sudden ideological shift nor did the election of President Mohammad Khatami in 1997 really defy the core principles of the Islamic Revolution To the contrary the struggle for a more democratic Iran can be traced to the revolution itself and to the contradictory agendas of the revolution's founding father Ayatollah Ruhollah Khomeini A complex figure Khomeini was a fervent champion of Islam but while he sought a Shi'ite vision of clerical rule under one Supreme Leader he also strove to mesh that vision with an implicitly Western view of mass participatory politics The intense magnetism and charisma of the ayatollah obscured this paradox But reformers in Iran today while rejecting his autocratic vision are reviving the constitutional notions of government that he considered and even casting themselves as the bearers of his legacy In Reinventing Khomeini Brumberg proves that the ayatollah is as much the author of modern Iran as he is the symbol of its fundamentalist past

Makers of Contemporary Islam John L. Esposito, John Obert Voll, 2001 This book examines the

biographies of nine major activist intellectuals whose work provides the core of what the Islamic resurgence became in the 1990s and is an important foundation for what it can become in the 21st century. Nine figures are covered: Ismail al-Faruqi, Khurshid Ahmad, Maryam Jameelah, Hasan Hanafi, Anwar Ibrahim, and Abdurrahman Wahid.
