Malcolm Vale, 2020-04-02 The concept of a Renaissance in the arts in thought and in more general culture North of the Alps often evokes the idea of a cultural transplant which was not indigenous to or rooted in the society from which it emerged

Classic definitions of the European Renaissance during the 14th 15th and 16th centuries have seen it as what was in effect an Italian import into the Gothic North Yet there were certainly differences divergences and dichotomies between North and South which have to be addressed Here Malcolm Vale argues for a Northern Renaissance which while cognisant of Italian developments displayed strong continuities with the indigenous cultures of northern Europe But it also contributed novelties and innovations which often tended to stem from and build upon those continuities A Short History of the Renaissance in Northern Europe while in no way ignoring or diminishing the importance of the Hellenic and Roman legacy seeks other sources and different uses of classical antiquity for a rather different kind of Renaissance if such it was in the North

Writing the North of England in the Middle Ages Joseph Taylor, 2022-12-22 Uncovering the medieval origin of England's North South divide Joseph Taylor examines the complex dynamics of regionalism and nationalism **Sir Jerome Horsey's Travels and Adventures in Russia and Eastern Europe** John Anthony Butler, 2018-10-29 This volume details Sir Jerome Horsey's account of his experiences in Russia and other countries Horsey who spent the better part of seventeen years in the country until leaving in 1591 was an employee of the Muscovy Company but also operated as an unofficial ambassador for both the English and Russian governments He was personally acquainted with such people as Ivan the Terrible Tsar Fyodor I and Boris Godunov and gives lively and interesting accounts of his interactions with them as well as with many other prominent people both Russian and English Horsey has been accused of exaggeration chicanery and self advertisement but his account is by far the most readable and enjoyable of the many books written by English people sojourning in Russia It has been published only twice both times in conjunction with Giles Fletcher's contemporary and more professional account of the Russian state this edition with a full introduction and extensive notes is the first to present Horsey's book on its own It is a travel book an adventure story and an autobiography of a controversial and significant figure **The Gentleman's Magazine**, 1800 *Discovering Jesus in Our Place* Sturla J. Stålsett, 2003 Contributed articles chiefly presented at second consultation at São Leopoldo Brazil and some on general framework and focus of International Network in Advanced Theological Education INATE the contextualisation of theology and theological education **French Mediterraneans** Patricia M. E. Lorcin, Todd Shepard, 2016-05 While the Mediterranean is often considered a distinct unified space recent scholarship on the early modern history of the sea has suggested that this perspective is essentially a Western one devised from the vantage point of imperial power that historically patrolled the region's seas and controlled its ports By contrast for the peoples of its southern shores the Mediterranean was polymorphous shifting with the economic and seafaring exigencies of the moment Nonetheless by the nineteenth century the idea of a monolithic Mediterranean had either been absorbed by or imposed on the populations of the region In *French Mediterraneans* editors Patricia M E Lorcin and Todd Shepard offer a collection of scholarship that reveals the important French element in the nineteenth and twentieth century creation of the singular Mediterranean These essays provide a critical study of space and movement through new approaches to think about

the maps migrations and margins of the sea in the French imperial and transnational context By reconceptualizing the Mediterranean this volume illuminates the diversity of connections between places and polities that rarely fit models of nation state allegiances or preordained geographies Modern North Julie Decker,2010-03-31 The Geographic Region Around the North Pole is a Raw and Exotic Area of Untouched Nature and Inescapable Beauty Building in this extremely cold climate requires an advanced degree of ingenuity and resolve Ecological conditions including high winds snowdrifts and permafrost combined with periods of little sunlight present seemingly impossible logistical hurdles for architects Vernacular buildings have emerged but like most indigenous structures they do little more than simply enclose and protect Recent years have witnessed an explosion of exceptional new architecture and a new definition of a Northern building one that is both extraordinarily responsive to place and aesthetically provocative In Modern North Architecture on the Frozen Edge author Julie Decker presents thirty four of the most compelling and far ranging possibilities of contemporary architecture in the North These buildings located in northern Canada Scandinavia and Alaska are united in the way they embrace extreme conditions and provide visual stimulation in places that sometimes offer little more than a whitescape The book contains innovative structures by both established and up and coming architects including David Chipperfield Architects Studio Granda and Shim Sutcliffe Architects as well as essays by Brian Carter Juhani Pallasmaa Edwin Crittenden and Lisa Rochon that place the projects in the context of a new architectural response to the North **BOOK JACKET**

Religion and Peacebuilding Harold Coward,Gordon S. Smith,2004-01-16 Acknowledging that religion can motivate both violence and compassion this book looks at how a variety of world religions can and do build peace **Canada and the Idea of North** Sherrill Grace,2001 A comprehensive overview of the role of the idea of North in Canadian thought art and popular culture

Yemelianova,Laurence Broers,2020-03-13 The Routledge Handbook of the Caucasus offers an integrated multidisciplinary overview of the historical ethno linguistic cultural socio economic and political complexities of the Caucasus Covering both the North and South Caucasus the book gathers together leading Western Caucasian and Russian scholars of the region from different disciplines in the humanities and social sciences Following a thorough introduction by the editors the handbook is divided into six parts which combine thematic and chronological principles Place peoples and culture Political history The contemporary Caucasus politics economics and societies Conflict and political violence The Caucasus in the wider world Societal and cultural dynamics This handbook will be an essential reference work for scholars interested in Russian and Eastern European studies Eurasian history and politics and religious and Islamic studies Modernity and Secession Michel Huisseune,2006-08-01 The northern Italian Padanian identity fostered by the Lega Nord is rooted in the long standing tradition in political and scholarly discourse of casting regional differences within Italy in terms of a North South geographic divide Trying to come to terms in the late 1980s and 1990s with Italy's real or presumed inadequacies such as inefficient government corruption and organized crime this imagined geography acquired political centrality in that the North became associated with the virtues of modernity and the South with the vices of un modernity It was not only politicians but also

social scientists who fostered and perpetuated this conceptualization of the North South divide thus imposing a normative hierarchy between the two parts of the country In response to this discourse many scholars both in Italy and abroad have started to question this perception of the South as a backward and implicitly inferior society Starting from this critical tradition Michel Huyseune provides a new systematic and interdisciplinary approach that re interprets the premises behind Italy s imagined geography of modernity He moves beyond an understanding of the South as a backward and implicitly inferior society and problematizes normative notions of modernity thus offering a new perspective on the North South divide which has a significance well beyond the case of Italy *Patterns in Freshwater Fish Ecology* William J.

Matthews,2012-12-06 Nearly a decade ago I began planning this book with the goal of summarizing the existing body of knowledge on ecology of freshwater fishes in a way similar to that of H B N Hynes comprehensive treatise *Ecology of Running Waters* for streams The time seemed appropriate as there had been several recent volumes that synthesized much information on a range of topics important in fish ecology from biogeographic to local scales For example the *Fish Atlas* Lee et al 1980 had provided range maps and basic entry to the original literature for all freshwater fishes in North America and in 1986 Hocutt and Wiley s *Zoogeography of North American Fishes* provided a detailed synthesis of virtually everything known about distributional ecology of fishes on that continent Tim Berra 1981 had summarized in convenient map form the worldwide distribution of all freshwater fish families and Joe Nelson s 1976 and 1984 editions of *Fishes of the World* had appeared To complement these big picture views of fish distributions the volume on *Community and Evolutionary Ecology of North American Freshwater Fishes* edited by David Heins and myself Matthews and Heins 1987 had provided an opportunity for more than 30 individuals or groups to summarize their work on stream fishes albeit mostly for warmwater systems
