Modern Parables For Financial Freedom Parables 11 15:

Economic Development Parables Winai Wongsurawat,2023-06-01 Wongsurawat looks at the history of Thailand since the mid nineteenth century and uses events to elucidate basic economic models and concepts He selects defining moments in Thailand s history to convey key economic ideas worthy of classroom discussion Written without excessive jargon the chapters connect complex historical phenomena with broader transportable economic concepts The cases range from the signing of the Bowring Treaty in 1855 opening Siam to the forces of globalization to the Asian Financial Crisis that wreaked havoc on the economy in 1997 Key economic terms are also explained Reconnecting the increasingly distant fields of history and economics this is an appealing text to researchers with an interest in Thailand s economic history as well as undergraduates undergoing an introductory economics course or overseas program in Thailand **The Congregationalist** ,1925 **The Literary World** ,1900 **The Works of Saint Augustine: v. 1. Sermons on the Old Testament, 20-50** Saint Augustine (of Hippo),1990 **The Voice of Jesus** Stephen I. Wright,2000 This literary study considers how the voice of Jesus has been heard in different periods of parable interpretation and how the categories of figure and trope may help us towards a sensitive reading of the parables today This book explores what it means to seek the voice of Jesus in his parables through the interpretive keys of literary tropes Through a detailed discussion of significant periods of parable interpretation with reference to six narrative parables peculiar to Luke s Gospel it demonstrates the continued necessity of a creative response to an intention when confronted with figures of speech Drawing on the long tradition of interpretation a fresh hearing of the tone of the parables as exemplary tales is suggested rooted in both the conditions of Jesus s contemporary culture and the Old Testament Scriptures *The Congregationalist and Christian World* ,1904 **Contemporary Public Speaking** Courtland L. Bovée,2003 Contemporary Public Speaking includes all the traditional fundamentals as well as the hottest issues in public speaking today Featuring a conversational style and an extensive photo and illustration program this comprehensive coverage provides students with the tools they need to analyze and apply public speaking principles Examples exercises and boxed features offer insights into major themes such as speaking across cultures developing creativity improving critical thinking overcoming speech anxiety focusing on ethics and learning from real world speaking situations Students will also explore how to speak on the job and in small groups develop persuasive strategies and use audio visual aids from flip charts to multimedia presentations and will learn basic ways to become more effective speakers and listeners A Collegiate Press book CONSULTING EDITORS JoAnn Edwards University of Mississippi Jon A Hess University of Missouri Columbia Cynthia Irizarry Stetson University Shannon McCraw Southeastern Oklahoma State University Timothy P Meyer University of Wisconsin Green Bay Louis J Rosso Winthrop University **Rethinking Economic Theories** Tiago Cardão-Pito,2025-09-29 In recent times economic theories have provided the dominant explanations of how to understand and organize human societies This book argues that the study of economic theories must not be restricted to the disciplines

of economics political economy or economic sociology and must encompass our relationship to the biosphere In this new volume Tiago Cardoso Pito further develops his innovative system to organize the major economic theories into two major theoretical groups one is termed hedonist economic theory primarily mainstream economics which generally defends moneyed persons politically and the other is work based economic theory the most well known version of which is Marxism which defends workers politically It is shown that economics can only be understood through the political disputes between these two major theories but it is also argued that both major economic theories are fundamentally unprepared for addressing human societies and the biosphere They both attribute metaphysical status to money describing monetary flows as the constitutive being of economic social and ecological phenomena Furthermore both theories follow the overinclusive and tautological post Adam Smith concept of capital which confuses monetary and non monetary flows Although human work remains highly relevant in our technologically enhanced times this book demonstrates that returning to work based economic theory is no longer a viable option to contest the dominance of hedonist economic theory A new bio social theory is required to explain the integration of human societies into the biosphere This book is a vital reading for students and scholars of economic and social theory political economy economic sociology organization sustainability and ecological issues
