Modern World Tiffany K. Wayne, 2011-10-17 Collecting more than 200 sources in the global history of feminism this anthology supplies an insightful record of the resistance to patriarchy throughout human history and around the world From writings by Enheduana in ancient Mesopotamia 2350 BCE to the present day manifesto of the Association of Women for Action and Research in Singapore Feminist Writings from Ancient Times to the Modern World A Global Sourcebook and History excerpts more than 200 feminist primary source documents from Africa to the Americas to Australia Serving to depict feminism as much broader and older than simply the modern struggle for political rights and equality this two volume work provides a more comprehensive and varied record of women s resistance cross culturally and throughout history The author s goal is to showcase a wide range of writers thinkers and organizations in order to document how resistance to patriarchy has been at the center of social political and intellectual history since the infancy of human civilization This work addresses feminist ideas expressed privately through poetry letters and autobiographies as well as the public and political aspects of women s rights movements

Human Rights in World History Peter N. Stearns, 2012-05-04 Defended by a host of passionate advocates and organizations certain standard human rights have come to represent a quintessential component of global citizenship There are however a number of societies who dissent from this orthodoxy either in general or on particular issues on the basis of political necessity cultural tradition or group interest Human Rights in World History takes a global historical perspective to examine the emergence of this dilemma and its constituent concepts Beginning with premodern features compatible with a human rights approach including religious doctrines and natural rights ideas it goes on to describe the rise of the first modern style human rights statements associated with the Enlightenment and contemporary antislavery and revolutionary fervor Along the way it explores ongoing contrasts in the liberal approach between sincere commitments to human rights and a recurrent sense that certain types of people had to be denied common rights because of their perceived backwardness and need to be civilized These contrasts find clear echo in later years with the contradictions between the pursuit of human rights goals and the spread of Western imperialism By the second half of the 20th century human rights frameworks had become absorbed into key global institutions and conventions and their arguments had expanded to embrace multiple new causes In today s postcolonial world and with the rise of more powerful regional governments the tension between universal human rights arguments and local opposition or backlash is more clearly delineated than ever but no closer to satisfactory resolution
