wide range of ethnographic studies on local spiritual and media practices Recognizing that processes of globalization are shaped by mass mediation the volume raises questions such as How are media like photography cinema video the telephone or television integrated in seances and healing rituals How do spirit mediums connect with these media Why are certain technical media shunned in these contexts *The Routledge Companion to Expressionism in a Transnational Context* Isabel Wünsche, 2018-09-03 The Routledge Companion to Expressionism in a Transnational Context is a challenging exploration of the transnational formation dissemination and transformation of expressionism outside of the German speaking world in regions such as Central and Eastern Europe the Baltics and Scandinavia Western and Southern Europe North and Latin America and South Africa in the first half of the twentieth century Comprising a series of essays by an international group of scholars in the fields of art history and literary and cultural studies the volume addresses the intellectual discussions and artistic developments arising in the context of the expressionist movement in the various art centers and cultural regions The authors also examine the implications of expressionism in artistic practice and its influence on modern and contemporary cultural production Essential for an in depth understanding and discussion of expressionism this volume opens up new perspectives on developments in the visual arts of this period and challenges the traditional narratives that have predominantly focused on artistic styles and national movements **Opera and Music Theatre** Christine Matzke, Lena van der Hoven, Christopher Odhiambo, Hilde Roos, 2020 Compelling inside views of what characterises opera and music theatre in African and African diasporic contexts *Living the City in Africa* Brigit Obrist, Veit Arlt, Elisio Macamo, 2013 Research on cities worldwide still takes its cue from cities in Europe and the US which are seen as the standard model However cities in the global South are undergoing a much more rapid transformation including multiple interlinked transitions with Africa featuring the highest urbanization rates world wide Scholars therefore call for a new approach to urban studies which examines cities from a more global comparative perspective This book discusses the new approach which pays added attention to the role that societal creativity plays in processes of urbanization instead of concentrating exclusively on expert driven planning and intervention Especially in fast growing cities with weaker institutional capacity for interventions the interplay between intervention and invention between expert and societal agency becomes more tangible and all the more significant Series Swiss African Studies Schweizerische Afrikastudien Etudes africaines suisses Vol 10 *Nigerian Artists* Janet L. Stanley, 1993 **From Bayreuth to Burkina Faso** Sarah Hegenbart, 2022-11-30 Opera Village Africa a participatory art experiment by the late German multimedia artist Christoph Schlingensiefel serves as a testing ground for a critical interrogation of Richard Wagner's notion of the Gesamtkunstwerk Sarah Hegenbart traces the path from Wagner's introduction of the Gesamtkunstwerk in Bayreuth to Schlingensiefel's attempt to charge the idea of the total artwork with new meaning by transposing it to the West African country Burkina Faso Schlingensiefel developed Opera Village in collaboration with the world renowned architect Francis K r This final project of Schlingensiefel is inspired by and illuminates the diverse

themes that informed his artistic practice including coming to terms with the German past anti-Semitism critical race theory and questions of postcolonial self criticism From Bayreuth to Burkina Faso introduces the notion of the postcolonial Gesamtkunstwerk to disrupt the Eurocentric perspective on art history exploring how the socio political force of a postcolonial Gesamtkunstwerk could affect processes of transcultural identity construction It reveals how Schlingensiefel translocated the Wagnerian concept to Burkina Faso to address German colonial history and engage with it from the perspective of multidirectional memory cultures
