Modernization As Spectacle In Africa:

Modernization as Spectacle in Africa Peter J. Bloom, Stephan F. Miescher, Takyiwaa Manuh, 2014-05-09 For postcolonial Africa modernization was seen as a necessary outcome of the struggle for independence and as crucial to the success of its newly established states Since then the rhetoric of modernization has pervaded policy culture and development lending a kind of political theatricality to nationalist framings of modernization and Africans perceptions of their place in the global economy These 15 essays address governance production and social life the role of media and the discourse surrounding large scale development projects revealing modernization s deep effects on the expressive culture of Africa

Ghana on the Go Jennifer Hart, 2016-10-03 As early as the 1910s African drivers in colonial Ghana understood the possibilities that using imported motor transport could further the social and economic agendas of a diverse array of local agents including chiefs farmers traders fishermen and urban workers Jennifer Hart s powerful narrative of auto mobility shows how drivers built on old trade routes to increase the speed and scale of motorized travel Hart reveals that new forms of labor migration economic enterprise cultural production and social practice were defined by autonomy and mobility and thus shaped the practices and values that formed the foundations of Ghanaian society today Focusing on the everyday lives of individuals who participated in this century of social cultural and technological change Hart comes to a more sensitive understanding of the ways in which these individuals made new technology meaningful to their local communities and associated it with their future aspirations

The Wireless World Simon James Potter, Friederike Kind-Kovacs, 2022 *The Wireless World* sheds new light on the transnational connections created by international broadcasting using a single analytical frame to draw together the periods from the pioneering days of wireless through WWII and the Cold War to the decades since the fall of the Berlin Wall to reveal key continuities and transformations

The Nature of the Path Marcus Filippello, 2017-01-17 *The Nature of the Path* reveals how a single road has shaped the collective identity of a community that has existed on the margins of larger societies for centuries Marcus Filippello shows how a road running through the Lama Valley in Southeastern Benin has become a mnemonic device that has allowed residents to counter prevailing histories Built by the French colonial government and following a traditional pathway

the road serves as a site where the h ri people narrate their changing relationship to the environment and assert their independence in the political milieus of colonial and postcolonial Africa Filippello first visited the Yor b speaking h ri community in Benin knowing only the history in archival records Over several years he interviewed more than 100 people with family roots in the valley and discovered that their personal identities were closely tied to the community which in turn was inextricably linked to the history of the road that snakes through the region s seasonal wetlands The road contested welcomed and obstructed over many years passes through fertile farmlands and sacred forests both rich in meaning for residents Filippello s research seeks to counter prevailing notions of Africa as an exotic and pristine yet contrarily war torn disease ridden environmentally challenged and impoverished continent His informants vivid construction of history through the prism of the road coupled with his own archival research offers new insights into Africans complex understandings of autonomy identity and engagement in the slow process we call modernization **Age of Concrete** David

Morton,2019-07-17 **Age of Concrete** is a history of the making of houses and homes in the sub rbios of Maputo Louren o Marques Mozambique from the late 1940s to the present Often dismissed as undifferentiated ahistorical slums these neighborhoods are in fact an open air archive that reveals some of people s highest aspirations At first people built in reeds Then they built in wood and zinc panels And finally even when it was illegal they risked building in concrete block making permanent homes in a place where their presence was often excruciatingly precarious Unlike many histories of the built environment in African cities **Age of Concrete** focuses on ordinary homebuilders and dwellers David Morton thus models a different way of thinking about urban politics during the era of decolonization when one of the central dramas was the construction of the urban stage itself It shaped how people related not only to each other but also to the colonial state and later to the independent state as it stumbled into being Original deeply researched and beautifully composed this book speaks in innovative ways to scholarship on urban history colonialism and decolonization and the postcolonial state Replete with rare photographs and other materials from private collections **Age of Concrete** establishes Morton as one of a handful of scholars breaking new ground on how we understand Africa s cities **The Routledge Companion to Sexuality and Colonialism** Chelsea Schields,Dagmar Herzog,2021-05-24 Unique in its global and interdisciplinary scope this collection will bring together comparative insights across European Ottoman Japanese and US imperial contexts while spanning colonized spaces in Latin America the Caribbean Africa the Indian Ocean the Middle East and East and Southeast Asia Drawing on interdisciplinary perspectives from cultural intellectual and political history anthropology law gender and sexuality studies and literary criticism **The Routledge Companion to Sexuality and Colonialism** combines regional and historiographic overviews with detailed case studies making it the key reference for up to date scholarship on the intimate dimensions of colonial rule Comprising more than 30 chapters by a team of international contributors the Companion is divided into five parts Directions in the study of sexuality and colonialism Constructing race controlling reproduction Sexuality in law

Atomic Junction Abena Dove Osseo-Asare, 2019-09-19 An innovative account of the first nuclear programme in independent Africa centring on the promises and perils of atomic research in Ghana **Ghana** Jeffrey Ahlman, 2023-10-05 Few African countries have attracted the international attention that Ghana has In the late nineteenth and early twentieth centuries the then colonial Gold Coast emerged as a key political and intellectual hub for British West Africa Half a century later when Ghana became the first sub Saharan state to emerge from European colonial rule it became a key site for a burgeoning transnational African anticolonial politics that drew activists freedom fighters and intellectuals from around the world As the twentieth century came to a close Ghana also became an international symbol of the putative successes of post Cold War African liberalization and democratization projects Here Jeffrey Ahlman narrates this rich political history stretching from the beginnings of the very idea of the Gold Coast to the country's 1992 democratization which paved the way for the Fourth Republic At the same time he offers a rich social history stretching that examines the sometimes overlapping sometimes divergent nature of what it means to be Ghanaian through discussions of marriage ethnicity and migration of cocoa as a cultural system of the multiple meanings of chieftaincy and of other contemporary markers of identity Throughout it all Ahlman distills decades of work by other scholars while also drawing on a wide array of archival oral journalistic and governmental sources in order to provide his own fresh insights For its clear comprehensive coverage not only of Ghanaian history but also of the major debates shaping nineteenth and twentieth century African politics and society more broadly Ghana A Political and Social History is a must read for students and scholars of African Studies The Development Film in the Americas Molly Geidel, 2025-10-28 In this book Molly Geidel traces the rise and fall of the development film an overlooked film genre that circulated widely in the Americas from the 1940s through the 1970s Development films often short documentaries were made at the behest of state agencies global governance organizations and private corporations to link capitalist conceptions of economic growth to improved quality of life Development films made this link beautifully compelling blending elements from ethnography and socially committed leftist film traditions to create indelible narratives of underdevelopment and modernization The Development Film in the Americas tells the story of these films and the hemispheric cohort of filmmakers who crafted them chronicling the filmmakers fraught relationships with both the organizations they worked for and the actors in their films International Relations Stephanie Lawson, 2017-01-19 International Relations emerged as a distinct academic discipline in the early twentieth century but its philosophic foundations draw on centuries of thinking about human nature power and authority justice and injustice and their implications for relations within and between political communities In this fully revised and updated third edition of her popular text Stephanie Lawson retains a broad historical and contextual approach in introducing readers to the central

themes and theoretical perspectives in IR while also addressing key issues and challenges in the contemporary period. These include the emergence of states and empires theories ranging from classical realism and liberalism to postcolonial and green theory, twentieth century international history, security and insecurity, global governance and world order, international political economy, globalization, the future of the sovereign state, and the prospects for a post international world. Written in an accessible narrative style, this book is an ideal primer for students at undergraduate level and beyond, including those undertaking postgraduate study in IR with little or no previous academic training in the field.

Gender, Sexuality, and the Cold War Philip E. Muehlenbeck, 2017-06-19 As Marko Duman i writes in his introduction to *Gender Sexuality and the Cold War*, despite the centrality of gender and sexuality in human relations, their scholarly study has played a secondary role in the history of the Cold War. It is not an exaggeration to say that few were left unaffected by Cold War gender politics, even those who were in charge of producing, disseminating and enforcing cultural norms were called on to live by the gender and sexuality models into which they breathed life. This underscores the importance of this volume as here scholars tackle issues ranging from depictions of masculinity during the all consuming space race to the vibrant activism of Indian peasant women during this period, to the policing of sexuality inside the militaries of the world. *Gender Sexuality and the Cold War* brings together a diverse group of scholars whose combined research spans fifteen countries across five continents, claiming a place as the first volume to examine how issues of gender and sexuality impacted both the domestic and foreign policies of states far beyond the borders of the United States during the tumult of the Cold War.

Kwame Nkrumah Jeffrey S. Ahlman, 2021-04-23 A new biography of Ghana's Kwame Nkrumah, one of the most influential political figures in twentieth century African history. As the first prime minister and president of the West African state of Ghana, Kwame Nkrumah helped shape the global narrative of African decolonization. After leading Ghana to independence in 1957, Nkrumah articulated a political vision that aimed to free the country and the continent politically, socially, economically, and culturally from the vestiges of European colonial rule, laying the groundwork for a future in which Africans had a voice as equals on the international stage. Nkrumah spent his childhood in the maturing Gold Coast colonial state. During the interwar and wartime periods, he was studying in the United States. He emerged in the postwar era as one of the foremost activists behind the 1945 Manchester Pan African Congress and the demand for an immediate end to colonial rule. Jeffrey Ahlman's biography plots Nkrumah's life across several intersecting networks: colonial, postcolonial, diasporic, national, Cold War, and pan African. In these contexts, Ahlman portrays Nkrumah not only as an influential political leader and thinker, but also as a charismatic, dynamic, and complicated individual seeking to make sense of a world in transition.

Africans in Exile Nathan Riley Carpenter, Benjamin N. Lawrance, 2018-09-10 This rich volume will interest scholars and students of Africa, the African diaspora, world history, legal history, and international affairs. Lorelle Semley, author of *To Be Free and French: Citizenship in France's Atlantic Empire*. The enforced removal of individuals has long been a political tool used by African states to create

generations of asylum seekers refugees and fugitives Historians often present such political exile as a potentially transformative experience for resilient individuals but this reading singles the exile out as having an exceptional experience This collection seeks to broaden that understanding within the global political landscape by considering the complexity of the experience of exile and the lasting effects it has had on African peoples The works collected in this volume seek to recover the diversity of exile experiences across the continent This corpus of testimonials and documents is presented as an archive that provides evidence of a larger shared experience of persecution and violence This consideration reads exiles from African colonies and nations as active participants within rather than simply as victims of the larger global diaspora In this way exile is understood as a way of asserting political dissidence and anti imperial strategies Broken into three distinct parts the volume considers legal issues geography as a strategy of anticolonial resistance and memory and performative understandings of exile The experiences of political exile are presented as fundamental to an understanding of colonial and postcolonial oppression and the history of state power in Africa

Nkrumah and the Ghana Revolution C. L. R. James, 2022-02-07 In this new edition of *Nkrumah and the Ghana Revolution* C L R James tells the history of the socialist revolution led by Kwame Nkrumah the first president and prime minister of Ghana Although James wrote it in the immediate post independence period around 1958 he did not publish it until nearly twenty years later when he added a series of his own letters speeches and articles from the 1960s Although Nkrumah led the revolution James emphasizes that it was a popular mass movement fundamentally realized by the actions of everyday Ghanaians Moreover James shows that Ghana s independence movement was an exceptional moment in global revolutionary history it moved revolutionary activity to the African continent and employed new tactics not seen in previous revolutions Featuring a new introduction by Leslie James an unpublished draft of C L R James s introduction to the 1977 edition and correspondence this definitive edition of *Nkrumah and the Ghana Revolution* offers a revised understanding of Africa s shaping of freedom movements and insight into the possibilities for decolonial futures
