Molenaarstermen En Molengeschiedenis:

The Rise and Decline of Dutch Technological Leadership (2 Vols) Karel Davids, 2008-08-31 Technological leadership is an important topic in economic history and the history of technology This book addresses the issue of technological leadership by means of an in depth study on the Dutch Republic once described as the first modern economy Drawing on extensive research in archives in Europe and a vast amount of printed sources and secondary literature it provides a wide ranging overview of Dutch technological leadership in the early modern Europe it explains whence this leadership came about and why it ended and it explores to what extent the Dutch case illuminates the evolution of technological leadership in general This book is thus relevant for the study of technological leadership the development of technology in the early modern period as well as the history of the economic expansion of the Dutch Republic

History of Technology Volume 19 Graham Hollister-Short, 2016-09-30 The technical problems confronting different societies and periods and the measures taken to solve them form the concern of this annual collection of essays Volumes contain technical articles ranging widely in subject time and region as well as general papers on the history of technology In addition to dealing with the history of technical discovery and change History of Technology also explores the relations of technology to other aspects of life social cultural and economic and shows how technological development has shaped and been shaped by the society in which it occurred
