## **Monarchy End Empire Government Commonwealth:**

**Monarchy and the End of Empire** Philip Murphy, 2013-12-05 This unique and meticulously researched study examines the triangular relationship between the British government the Palace and the modern Commonwealth since 1945 It has two principal areas of focus the monarch's role as sovereign of a series of Commonwealth Realms and quite separately as head of the Commonwealth It traces how in the early part of the twentieth century the British government promoted the Crown as a counterbalance to the centrifugal forces that were drawing the Empire apart Ultimately however with newly independent India's determination to become a republic in the late 1940s Britain had to accept that allegiance to the Crown could no longer be the common factor binding the Commonwealth together It therefore devised the notion of the headship of the Commonwealth as a means of enabling a republican India to continue to give the monarchy a pivotal symbolic role and therefore to remain in the Commonwealth In the years of rapid decolonization which followed 1945 it became clear that this elaborate constitutional infrastructure posed significant problems for British foreign policy The system of Commonwealth Realms was a recipe for confusion and misunderstanding Policy makers in the UK increasingly saw it as a liability in terms of Britain's relations with its former colonies so much so that by the early 1960s they actively sought to persuade African nationalist leaders to adopt republican constitutions on independence The headship of the Commonwealth also became a cause for concern partly because it offered opportunities for the monarch to act without ministerial advice and partly because it tended to tie the British government to what many within the UK had begun to regard as a largely redundant institution Philip Murphy employs a large amount of previously unpublished documentary evidence to argue that the monarchy's relationship with the Commonwealth which was initially promoted by the UK as a means of strengthening Imperial ties increasingly became an source of frustration for British foreign policy makers

*The Commonwealth, South Africa and Apartheid* Stuart Mole, 2023-05-31 This book explores the role of the modern Commonwealth in the international campaign against apartheid in South Africa Spanning the period of South Africa's apartheid state from its foundation in 1948 until its ending in April 1994 the author demonstrates that after the 1960 Sharpeville massacre and South Africa's subsequent exclusion from the Commonwealth the organisation was able to become both pathfinder and interlocutor on the road to South Africa's freedom As well as South Africa's ejection from the Commonwealth apartheid's increasing isolation was sustained by the Commonwealth's pioneering work in boycotting apartheid sport as well as campaigning to stop arms sales It also played an important role in internationalising economic and financial sanctions credited by some as the final nail in apartheid's coffin and was able to

make an important and distinctive contribution to the transition to democracy At the same time critical debates within the Commonwealth about racial and political equality transformed the association from a docile post imperial organisation led by the UK and in its own interests to a modern multiracial North South forum for reconciling global difference and overcoming the legacies of colonialism This comprehensive and authoritative account of the Commonwealth s engagement with apartheid South Africa is intended for all those who study and research the modern Commonwealth its structure and influence and for those with a general interest in contemporary post war history

**The Story of British Propaganda Film** Scott Anthony, 2024-09-05 All art is propaganda wrote George Orwell but not all propaganda is art Moving from World War I to the War on Terror and beyond The Story of British Propaganda Film shows how the emergence of film as a global media phenomenon reshaped practices of propaganda while new practices of propaganda in turn reshaped the use of the moving image It explores classic examples of cinematic propaganda such as The Battle of the Somme 1916 Listen to Britain 1942 and Animal Farm 1954 alongside little known newsreels telemagazines

and digital media initiatives in the process challenging our understanding of propaganda itself and its many diverse manifestations Richly illustrated with unique material from the BFI National Archive the book shows how central propaganda is to the development of British film and how it has filtered our understanding of modern British history from narratives of decolonisation to the celebration of pop culture and the meanings of the postwar consensus In a contemporary moment so preoccupied with misinformation malinformation and disinformation Scott Anthony explains why the response to the ubiquity of the propaganda film has often turned out to be the production of ever more propaganda

**Securitizing Marine Protected Areas** Elizabeth M. De Santo, 2024-07-10 This book presents a novel examination of Marine Protected Areas within a security context bridging science policy and geopolitics and addressing the often under emphasized aspect of environmental justice The book argues that Marine Protected Areas MPAs are not only a critical tool for protecting marine biodiversity in a changing climate but they also play an important role at the intersection of geopolitics and environmental justice and they provide a case study of environmental governance at the science policy interface The book takes an interdisciplinary and critical approach and builds on the author's two decades of experience working in this field Geopolitically it explores the ways in which MPAs provide footprints for influence and access to resources far from home for nations with overseas territories MPAs also raise important issues connected to equity environmental justice and social justice including access to resources and participation in environmental decision making processes key aspects for achieving long term conservation goals The book also demonstrates how MPAs are a critical lens for understanding how policy makers cope with scientific uncertainty and the necessity of well designed and precautionary science advisory processes While the ecological contribution of MPAs is paramount social issues and geopolitical considerations are often less obvious in the discourse underpinning MPAs and the resulting tensions can undermine long term conservation objectives By applying the three lenses of geopolitics environmental justice and science this book provides key insights to help the international community moving past the 2030 biodiversity targets and beyond towards a future of meaningful equitable and effective conservation approaches This book will be of great interest to students and scholars of biodiversity conservation marine studies political geography environmental governance and science
