**Jazeera and Democratization** Ezzeddine Abdelmoula,2015-03-02 Al Jazeera and Democratization analyses the increasing role of the media in political transformations with a special emphasis on the Arab world Taking the Al Jazeera media network as a case study the author explains how engaging the public and providing platforms for open debate and free expression contributed to the emergence of a new vibrant Arab public sphere The launch of Al Jazeera in 1996 was a significant event that led to subsequent changes both in Arab media and politics Among these changes the Arab spring is certainly the most remarkable This unprecedented phenomenon has already resulted in political change in a number of countries and is expected to generate a democratizing wave and reshape the face of the region The Arab spring provides us with a telling empirical example where the interplay between media and politics is manifest The public sphere that has emerged out of this newly communicative environment has undoubtedly played its role in the current political transformations In this context Arab democratization is no longer an abstract it is rather a developing process that needs our attention and requires concerted scholarly efforts Highly topical this book provides a fresh theoretical perspective on Arab democratization in light of the Arab Spring and is essential reading for researchers and students of Middle East Politics Media Studies and Democratization **Johnson's Universal Cyclopaedia** ,1895 *Towards an Arab higher education space: international challenges and societal responsibilities* Lamine, Bechir,2010-12-31

The Second Sex still relevant From her work it emerges that patriarchy is a many headed monster Over the past decades various heads of this monster have been slayed important breakthroughs have been achieved by and for women in law politics and economics Today however we witness movements in the opposite direction such as a masculinist political revival in different parts of the world the spread of the neoliberal myth of the Super Woman the rise of transnational networks of trafficking in women and children and a new international Jihadism This suggests that patriarchy is indeed a Hydra a multi headed monster that grows several new heads every time one head is cut off Since different often hybrid heads of patriarchy dominate in different settings feminism requires a variety of strategies Women s movements all over the world today are critically creating new models of self and society in their own contexts Drawing on notions of Beauvoir as well as Michel Foucault this book outlines a feminism in a new key which consists of women s various freedom practices each hunting the Hydra in their own key but with mutual support
