Need Adapted Treatment Offener Dialog:

Need Adapted Treatment Heidi Neumann, 2011-10-24 Studienarbeit aus dem Jahr 2010 im Fachbereich Psychologie Beratung und Therapie Note 1,0 Hochschule Fulda Sprache Deutsch Abstract Im Rahmen meiner beruflichen Tätigkeit setze ich mich gegenwärtig mit der bedürfnisangepassten Behandlung Need Adapted Treatment auseinander. Ein Teil dieser neuartigen Behandlungsmethode sind die Therapieversammlungen, in denen im Rahmen eines offenen Dialogs OD miteinander kommuniziert wird. Da bei dieser Behandlungsmethode nicht der Klient alleine im Mittelpunkt steht, sondern mit ihm sein persönliches Netzwerk im Rahmen dieser Ausarbeitung auf die Angehörigenarbeit eingegangen. In diesem Zusammenhang wird das Augenmerk auf die Voraussetzungen des OD gelegt sowie auf Belastungen, die für die Angehörigen auftreten könnten.

Offener Dialog Jaakko Seikkula, Tom Erik Arnkil, 2022-08-08 Das Buch beschreibt eine Methode, die in Finnland längst erfolgreich ist. Therapieplanung und Kommunikation finden im gemeinsamen Gespräch zwischen behandelndem Team und der Person in der Krise sowie seinem sozialen Netzwerk statt. Die Neuauflage reflektiert auch Erfahrungen mit der Umsetzung des Konzepts im deutschen Hilfesystem. Ein Mensch kommt in den Krisendienst oder die psychiatrische Klinik. Umgehend und niedrigschwellig wird sein komplettes Netzwerk aus Angehörigen, Freunden, innen, Arbeitgebern, innen aktiviert und zu einem gemeinsamen Gespräch mit dem behandelnden Team eingeladen, um in einem Offenen Dialog gemeinsam darüber nachzudenken, wodurch die Handlungskompetenz des Menschen in der Krise gestärkt werden kann. Bedürfnisorientierung, Mobilität sowie eine spezielle dialogische Kommunikation in der Therapie sind drei der besonderen Prinzipien dieses Konzepts, das Hospitalisierung vermeiden hilft und die Chancen der Integration ins Arbeitsleben erhöht.

Inklusion für die gemeindepsychiatrische Praxis Wolfgang Bayer, Katharina Ratzke, Svenja Bunt, 2019-12-04 UN BRK und Quartiermaki. Inklusion in die Gemeinde ist auch nach der Ratifizierung der UN Behindertenrechtskonvention eine Forderung, die allzu oft eine solche bleibt. Dieses Buch zeigt, in welche Richtung es gehen kann, wenn das Postulat zur Praxis wird. Ein Inspirationsbuch für eigene Inklusionsprojekte. Worin bestehen die Barrieren von Menschen mit psychischen Erkrankungen und wie können sie überwunden werden? Dieser Frage ging das wissenschaftlich begleitete Projekt an fünf Modellstandorten nach. Die Autorinnen und Autoren stellen die zugrunde liegenden Konzepte zur Inklusion dar und vor allem deren Umsetzung an den Modellstandorten. Ein Fortbildungscurriculum für die Quartiersarbeit in der Sozialpsychiatrie sowie Interviews mit Expertinnen und Experten aus der Wissenschaft und Praxis runden das Buch ab.

Open Dialogue Around the World - Implementation, Outcomes, Experiences, and Perspectives David Mosse, Raffaella Pocobello, Rob Saunders, Jaakko Seikkula, Sebastian von Peter, 2025-07-30 Open Dialogue OD is a low hierarchical mental health service model that originated in Finland in the 1980s following a change on two different levels. First, a culture of dialogical communication between staff, users, and caregivers was established. Secondly, community-based multidisciplinary teams were organized to offer primarily outpatient services. Immediate help in crisis, continuity of support by the same team, a

low medication and primarily psychotherapeutically oriented approach are key principles of OD that have been further elaborated upon overtime during the past decades OD promotes mutual trust and open exchange between the involved stakeholders It is based on a mental health care epistemology that prioritizes human values everyday relationships and context bound understandings over symptoms and clinical diagnostics Transparency is of high value All information is shared and all voices are to be heard thereby recognizing diversity and reflecting power differentials during the whole process of support OD is now practiced in various regions around the globe i e in several countries in Europe as well as in Australia Japan Latin America and the USA Studies in Western Lapland demonstrated various outcomes such as reducing the prevalence and incidence of so called chronic mental illness need for disability benefits and intake of neuroleptic medication while increasing functional remission and taking up work on the first labour market However these outcomes primarily originate in studies that have investigated the OD in countries of its origin leading to the question of whether they are transferrable to other healthcare contexts This question is crucial since OD varies internationally in its adaption to local health care systems and contingencies instead of representing a clearly demarcated intervention This Research Topic is interested in gaining an international perspective on OD It will assemble papers and contributions that report and comment on local OD practices describe and analyze their outcomes and impact and inform future directions worldwide Manuscripts that are co authored by peers survivors and user researchers are especially welcomed All manuscripts will be peer reviewed We are interested in Qualitative quantitative and mixed method original research on OD reporting on empirical research such as the results of intervention studies clinical or pilot trials Systematic reviews or mini reviews that summarize the results of empirical studies on OD Case reports that highlight an unexpected situation or outcome of an OD course of support Policy and practice reviews on local regulations and guidelines that are relevant for OD Hypotheses papers that present novel arguments interpretations or theoretical models in relation to OD Perspective articles that present a viewpoint on a specific area of investigation in relation to OD Conceptual analysis articles that explore the concepts and issues behind OD Papers on training and instructions that describe innovative curricula courses and teaching formats concerning OD Data report presenting a description or a research dataset on OD Brief research report that presents original research and or preliminary findings on OD with fewer detail Commentary and opinion papers that provide critical comments or contribute viewpoints on recent research findings

Humane Psychiatrie Jonathan Gutmann, 2019-08-21 Die Psychiatrie befindet sich an einem Scheideweg an dem sie sich zwischen paternalistischer Fürsorge und der Autonomie psychisch erkrankter Menschen entscheiden muss Dabei darf das bergeordnete Ziel einer humanen Psychiatrie nicht aus den Augen verloren werden Hierfür bedarf es eines Paradigmenwechsels Zentrale Themen innerhalb der menschenwürdigen Versorgung sind Menschlichkeit und Mitmenschlichkeit in deren Mittelpunkt der Mensch steht nicht die Diagnose Eine zukünftige humane Psychiatrie kann Themen wie Dialog Begegnung auf Augenhöhe subjektiver Sinn Empowerment oder Recovery nicht
