## STEP 2

Now use one red and one blue opaque disc to see if your expected results from the Punnet square match your actual results. On the red opaque disc, write a capital "T" on each side. On the blue disc, write a lowercase "t" on each side. Place 2 discs in a cup. Shake the cup and toss the coins on your desk. Repeat this step several times.

a) What are the genotypes that always show up?

---

---

---

b) What is the phenotype of the entire F1 generation? Explain.

---

---

---

## STEP 3

To visualize how a dominant trait can actually mask the effects of a recessive trait your students will place a green and a yellow transparent disc on top of each other. They should hold them together and look through them at a light. Which color is visible? Which is the dominant trait in this simulation?

---

---

---

## Questions

1. Is it possible for two organisms to have different genotypes but the same phenotype? Explain your answer.

---

---

---

2. Is the F1 generation homozygous or heterozygous for height?

---

---

---

3. In dogs, wire hair is due to a dominant gene. Is it possible to mate 2 wire-hair dogs that would produce a puppy with smooth hair? What are the genotypes of the two parent dogs?

*A Christian Student's Guide to Truth in Science* Stanley J. O'Briant, 2015-03-13 This book exposes the attempt to teach atheistic evolution to students often ridiculing their faith in God The classrooms in our schools have become the battlegrounds for the minds of our children Since the introduction of evolution by Charles Darwin there has been a growing list of atheist professors who vigorously fight any religion The classrooms of America should not be the battlegrounds of any religion but evolution is a religion It has no place in the classroom since it does not offer any information that improves the teaching of any science class except evolution itself There is no proof of evolution only assertions innuendos credulity belief without proof and suppositions Fully one third of all geology textbooks deal with evolution which is founded only opinion and undocumented assertions Therefore it should be removed from all textbooks Dr David Menton who taught medicine at the Washington School of Medicine in St Louis Missouri for twenty five years stated that he never once needed to reference evolution in any medical class A coalition of organizations such as the National Academy of Sciences whose members are 93% atheist or agnostic and the National Center for Science and Education control most of the government grants intended for schools use fully support the atheism of evolution and they attack any criticism of evolution **Project Earth Science**

Pascalian thought both recovers a lost perspective on the war between science and religion and offers a fruitful angle of study for twenty first century reflection As the science vs religion rancor reached its early fury at the turn of the century many devout French Catholic intellectuals struggled with the increasingly dogmatic spirit in both the Roman Catholic Church and the scientific community The dominant ideology of scientism within the intellectual establishment of the Third Republic 1870 1940 collided with a growing authoritarianism within the Church expressed in the 1893 papal encyclical Providentissimus Physicist Pierre Duhem philosopher Maurice Blondel and priest Lucien Laberthonniere rejected the Roman Catholic Church s Thomistic methodology and sought intellectual inspiration instead in the philosophy of seventeenth century scientist mathematician philosopher and Christian apologist Blaise Pascal These neo Pascalians offered an alternative to the adversarial relationship between modern culture and orthodox Catholic faith but their ideas came to an abrupt and bitter conclusion when they ran afoul of Church authority The narrative and contribution of the neo Pascalians offers many insights and lessons that could helpfully inform the contemporary debates surrounding the dialogue between science and religion

shows that widespread resacralisation has been taking place which is producing new ways of perceiving God and the divine. The last century has seen unmistakable changes in religious practices and the concept of spirituality right across the world. There was a broad expectation for much of the twentieth century that religious worldviews would eventually succumb to the challenge of secularist materialism but this process of secularisation has yet to occur as predicted. The book begins by contrasting theories of secularisation and resacralisation. Throughout the book conceptual threads or new religious themes related to this resacralisation are discussed in terms of three main categories: reimagining God's nature, substance and location; reimagining human value and purpose; and reimagining modes of redemption. Finally, the book considers how these threads are moving in various different directions and what the religious future might hold. This is a bold examination of contemporary spirituality that will appeal to academics and scholars of religious studies, new religious movements and the sociology of religion.

*Comprehensive Multiple-Choice Questions in Pathology* Vinay Kumar Kohli, Chitra Kohli, Akanksha Singh, 2022-08-22.
