Neoliberal Hegemony A Global Critique:

Neoliberal Hegemony Dieter Plehwe, Bernhard J. A. Walpen, Gisela Neunhöffer, 2007-05-07 Neoliberalism is fast becoming the dominant ideology of our age yet politicians businessmen and academics rarely identify themselves with it and even political forces critical of it continue to carry out neoliberal policies around the globe How can we make sense of this paradox Who actually are the neoliberals This is the first explanation of neoliberal hegemony which systematically considers and analyzes the networks and organizations of around 1 000 self conscious neoliberal intellectuals organized in the Mont Plerin Society This book challenges simplistic understandings of neoliberalism It underlines the variety of neoliberal schools of thought the various approaches of its proponents in the fight for hegemony in research and policy development political and communication efforts and the well funded well coordinated and highly effective new types of knowledge organizations generated by the neoliberal movement partisan think tanks It also closes an important gap in the growing literature on private authority presenting new perspectives on transnational civil society formation processes This fascinating new book will be of great interest to students of international relations political economy globalization and politics *The Routledge Handbook to the Political Economy and Governance of the Americas* Olaf Kaltmeier, Anne Tittor, Daniel Hawkins, Eleonora Rohland, 2020-01-09 This handbook explores the political economy and governance of the Americas placing particular emphasis on collective and intertwined experiences Forty six chapters cover a range of Inter American key concepts and dynamics The flow of peoples goods resources knowledge and finances have on the one hand promoted interdependence and integration that cut across borders and link the countries of North and South America including the Caribbean together On the other hand they have contributed to profound asymmetries between different places The nature of this transversally related and multiply interconnected hemispheric region can only be captured through a transnational multidisciplinary and comprehensive approach This handbook examines the direct and indirect political interventions geopolitical imaginaries inequalities interlinked economic developments and the forms of appropriation of the vast natural resources in the Americas Expert contributors give a comprehensive overview of the theories practices and geographies that have shaped the economic dynamics of the region and their impact on both the political and natural landscape This multidisciplinary approach will be of interest to a broad array of academic scholars and students in history sociology geography economics and political science as well as cultural postcolonial environmental and globalization studies *The Rise and Fall of Neoliberalism* Doctor Kean Birch, Doctor Vlad Mykhnenko, 2013-07-18 The recent devastating and ongoing economic crisis has exposed the faultlines in the dominant neoliberal economic order opening debate for the first time in years on alternative visions that do not subscribe to a free market ethic Bringing together the work of distinguished scholars and dedicated activists *The Rise and Fall of Neoliberalism* presents critical perspectives of neoliberal policies questions the ideas underpinning neoliberalism and explores diverse responses to it from around the world **Neoliberalism in Crisis** Henk Overbeek, Bastiaan van

Apeldoorn,2012-02-29 The authors interrogate the condition of the neoliberal project in the wake of the global crisis and neoliberalism's predicted death in 2007 both in terms of the regulatory structures of finance led capitalism in Europe and North America and the impact of new centres of capitalist power on global order *Think Tanks and Global Politics*

Alejandra Salas-Porras,Georgina Murray,2017-08-30 This text provides a cutting edge analysis of the increasingly central role think tanks play in societies worldwide Examining their control of global resources both in economic and political policy fields and their inroads into structures of power it addresses key questions How have think tanks reached these positions of power Has the northern core produced neoliberal clones that have hydra like colonised the globe Who funds and controls these think tanks and for what purpose How is policy making knowledge created How are new policy ideas propagated and validated How do think tanks become dominant sources of knowledge in public spheres including the media Exploring the dynamics of think tank networks in specific regions and countries this book considers the coalitions they generate to advance the social purpose they endorse and in particular the spaces they occupy in the structures and fields of power at the national regional and global level **Neoliberal Health Organizing**

Mohan J Dutta,2016-07-01 Mohan J Dutta closely interrogates the communicative forms and practices that have been central to the establishment of neoliberal governance In particular he examines cultural discourses of health in relationship to the market and the health implications of these cultural discourses Using examples from around the world he explores the roles of public private partnerships NGOs militaries and new technologies in reinforcing the link between market and health Identifying the taken for granted assumptions that constitute the foundations of global neoliberal organizing he offers an alternative strategy for a grassroots driven participatory form of global organizing of health This inventive theoretical volume speaks to those in critical communication in health research in social policy and in contemporary political economy studies **The Role of Neoliberalism in the Marketisation of Higher Education**

Gerbrand Tholen,2024-09-11 This book assesses to what extent marketisation in Higher Education can be attributed to Neoliberalism Higher education sectors in many countries have increasingly relied on market mechanisms in their management and functioning particularly in their provision of education Many assume that Neoliberalism with its pursuit of free markets and competition is the key driver Neoliberalism continues to be a popular concept to describe the social political and economic worlds around us but there is little consensus on how it should be defined or understood The book argues that there is a clear scope for the use of Neoliberalism to describe the direction HE is shifting towards but it is rather inadequate on its own and not applicable in all areas *Market Civilizations*

Quinn Slobodian,Dieter Plehwe,Esra Elif Nartok,Aditya Balasubramanian,Tobias Rupperecht,Isabella M. Weber,Antina von Schnitzler,Jeremy Walker,Paulo Chamon,Karin Fischer,Mila Jonjic,Nenad Pantelic,Lars Mjølset,Reto Hofmann,Jimmy Casas Klausen,2022-05-24 A deep investigation of neoliberalism's proselytizers in Eastern Europe and the Global South Where does free market ideology come from Recent work on the neoliberal intellectual movement around the Mont Pelerin Society has allowed for closer study of

the relationship between ideas interests and institutions Yet even as this literature brought neoliberalism down to earth it tended to reproduce a European and American perspective on the world With the notable exception of Augusto Pinochet s Chile long seen as a laboratory of neoliberalism the new literature followed a story of diffusion as ideas migrated outward from the Global North Even in the most innovative work the cast of characters remains surprisingly limited clustering around famous intellectuals like Milton Friedman and Friedrich Hayek Market Civilizations redresses this absence by introducing a range of characters and voices active in the transnational neoliberal movement from the Global South and Eastern Europe This includes B R Shenoy an early member of the Mont Pelerin Society from India who has been canonized in some circles since the Singh reforms Manuel Ayau another MPS president and founder of the Marroqu n University an underappreciated Latin American node in the neoliberal network Chinese intellectuals who read Hayek and Mises through local circumstances and many others Seeing neoliberalism from beyond the industrial core helps us understand what made radical capitalism attractive to diverse populations and how often disruptive policy ideas went local

Globalization and Capitalist Geopolitics Daniel Woodley,2017-11-27 *Globalization and Capitalist Geopolitics* is concerned with the nature of corporate power against the backdrop of the decline of the West and the struggle by non western states to challenge and overcome domination of the rest of the world by the West This book argues that although the US continues to preside over a quasi imperial system of power based on global military preponderance and financial statecraft and remains reluctant to recognize the realities global economic convergence the age of imperial state hegemony is giving way to a new international order characterized by capitalist sovereignty and competition between regional and transnational concentrations of economic power This title seeks to interrogate the structure of world order by examining leading approaches to globalization and political economy in international relations and international political economy Breaking with the classical school Woodley argues that geopolitics should be understood as a transnational strategic practice employed by powerful state actors which mirrors predatory corporate rivalry for control over global resources and markets reproducing the structural conditions for corporate power through the transnational state form of capital In a period of increasing geopolitical insecurity and economic instability this title provides an authoritative yet accessible commentary on debates on capitalism and globalization in the wake of the financial crisis It is valuable resource for students and scholars seeking to develop a deeper understanding of the historical determinants of the changing dynamics of neoliberal capitalism and their implications for world order

Discourses of Neoliberalism in Singapore's Higher Education Context Marissa K. L. E,2022-11-30 E explores using textual words and visual image data from the corporate newsletters of two prominent Asian universities how particular discourses and their associated discursive representations of neoliberal logic and subjectivity occur in higher education In particular she looks at the expression of both institutional priorities and state imperatives that lend themselves to a complementarity built upon two contradictory perspectives individualism and communitarianism She argues that the ever increasing demand for and utility of

higher education in neoliberal society means that it no longer functions merely to provide knowledge and skills but has implications for society the individual and the state with regard to their ways of thinking doing and being Contributing to a growing corpus of literature on how higher education around the world is being shaped by neoliberal policies E s research is based on work done in the city state of Singapore a less well represented context in current literature While both higher education institutions possess significantly different institutional identities and backgrounds the alignment of their varied representations of neoliberal logic and subjectivity with state sanctioned imperatives that indirectly impose demands and constraints shows how neoliberalism as ideology adapts to the socio political socio cultural and socio economic dimensions that make up the Singapore context The discursive representations of context dependent neoliberal logics and subjectivity are discussed in terms of their ideological implications focusing primarily on the complementarity between seemingly contradictory ideological positions E s work uses an innovative framework that integrates aspects of Discourse Theory with Critical Discourse Analysis and demonstrates the use of this framework through empirical linguistic and image analysis Appealing to academics and graduate students in linguistics especially those with an interest in critical multimodal discourse analysis audiences from the domains of higher education research critical geography sociology and political science will also find this a useful book

Spiders of the Market, Enhanced Ebook David Afriyie Donkor,2016-07-11 The Ghanaian trickster spider Ananse is a deceptive figure full of comic delight who blurs the lines of class politics and morality David Afriyie Donkor identifies social performance as a way to understand trickster behavior within the shifting process of political legitimization in Ghana revealing stories that exploit the social ideologies of economic neoliberalism and political democratization At the level of policy neither ideology was completely successful but Donkor shows how the Ghanaian government was crafty in selling the ideas to the people adapting trickster rooted performance techniques to reinterpret citizenship and the common good Trickster performers rebelled against this takeover of their art and sought new ways to out trick the tricksters

Domesticating Neo-Liberalism Alison Stenning,Adrian Smith,Alena Rochovská,Dariusz Świątek,2011-06-20 Based on in depth research in Poland and Slovakia Domesticating Neo Liberalism addresses how we understand the processes of neo liberalization in post socialist cities Builds upon a vast amount of new research data Examines how households try to sustain their livelihoods at particularly dramatic and difficult times of urban transformation Provides a major contribution to how we theorize the geographies of neo liberalism Offers a conclusion which informs discussions of social policy within European Union enlargement

Management and Neoliberalism Alexander Styhre,2014-04-16 After the financial collapse of 2008 and the bailing out of banks in the US and the UK the long term viability of the neoliberal doctrine has come under new scrutiny The elimination of regulatory control the financialization of the economy including the growth of increasingly complex financial innovations and the dominance of a rentier class have all been subject to thorough criticism Despite the unexpected meltdown of the financial system and the substantial costs for restoring the finance industry critics contend that

the same decision makers remain in place and few substantial changes to regulatory control have been made Even though neoliberal thinking strongly stresses the role of the market and market based transactions the organization theory and management literature has been marginally concerned with neoliberalism as a political agenda and economic policy This book examines the consequences of neoliberalism for management thinking and management practice Managerial practices in organizations are fundamentally affected by a political agenda emphasizing competition and innovation Concepts such as auditing corporate social responsibility shareholder value and boundariless careers are some examples of managerial terms and frameworks that are inextricably entangled with the neoliberal agenda This book introduces the literature on neoliberalism its history and controversies and demonstrates where neoliberal thinking has served to rearticulate managerial practice including in the areas of corporate governance human resource management and regulatory control of organizations

Violent Neoliberalism S. Springer,2015-03-18 Violent Neoliberalism explores the complex unfolding relationship between neoliberalism and violence Employing a series of theoretical dialogues on development discourse and dispossession Cambodia this study sheds significant empirical light on the vicious implications of free market ideology and practice

Variegated Neoliberalism Huw Macartney,2010-12-15 Variegated Neoliberalism provides comparative analyses of global and European banking communities and economic research centres in the UK France and Germany It explains the current neoliberal order in global finance and the realms of possibility for challenges to it *The Vortex of Power* Airlangga Pribadi Kusman,2018-07-17 This book explores the role of intellectuals and governance processes in post authoritarian Indonesia Focusing on East Java the author argues that intellectuals have played an increasingly direct and practical role in the exercise of governance at the local level of Indonesian politics The book provides insights into how the collaboration between intellectuals and local politico business elites has shaped good governance and democratic institution building validating power structures that continue to obstruct political participation in the country In addition the book also delves into the contribution of local intellectuals in resolving the contradictions between technocratic ideas and governance practices in the interest of local elites Empirical studies included in the book add to the broader literature on the social role of intellectuals highlighting their role as not just defined by their capacity to produce and circulate knowledge but also by their particular position in concrete social and political struggle The author also explores the manner in which relationships between intellectuals business and political elites and NGOs in local political and economic practices intersect with national level contests over power and resources *The SAGE Handbook of Neoliberalism* Damien Cahill,Melinda Cooper,Martijn Konings,David Primrose,2018-02-26 Over the last two decades neoliberalism has emerged as a key concept within a range of social science disciplines including sociology political science human geography anthropology political economy and cultural studies The SAGE Handbook of Neoliberalism showcases the cutting edge of contemporary scholarship in this field by bringing together a team of global experts Across seven key sections the handbook explores the different ways in which

neoliberalism has been understood and the key questions about the nature of neoliberalism Part 1 Perspectives Part 2 Sources Part 3 Variations and Diffusions Part 4 The State Part 5 Social and Economic Restructuring Part 6 Cultural Dimensions Part 7 Neoliberalism and Beyond This handbook is the key reference text for scholars and graduate students engaged in the growing field of neoliberalism [Handbook of Neoliberalism](#) Simon Springer, Kean Birch, Julie MacLeavy, 2016-07-07 Neoliberalism is easily one of the most powerful discourses to emerge within the social sciences in the last two decades and the number of scholars who write about this dynamic and unfolding process of socio spatial transformation is astonishing Even more surprising though is that there has until now not been an attempt to provide a wide ranging volume that engages with the multiple registers in which neoliberalism has evolved The Routledge Handbook of Neoliberalism seeks to offer a comprehensive overview of the phenomenon of neoliberalism by examining the range of ways that it has been theorized promoted critiqued and put into practice in a variety of geographical locations and institutional frameworks With contributions from over 50 leading authors working at institutions around the world the volumes seven sections will offer a systematic overview of neoliberalism s origins political implications social tensions spaces natures and environments and aftermaths in addressing ongoing and emerging debates The volume aims to provide the first comprehensive overview of the field and to advance the established and emergent debates in a field that has grown exponentially over the past two decades coinciding with the meteoric rise of neoliberalism as a hegemonic ideology state form policy and program and governmentality It includes a substantive introductory chapter and will serve as an invaluable resource for undergraduates graduate students and professional scholars alike **Neoliberal Thought and Thatcherism** Robert Ledger, 2017-12-01 The premiership of Margaret Thatcher has been portrayed as uniquely ideological in its pursuit of a more market based economy A body of literature has been built on how a sharp turn to the right by the Conservative Party during the 1980s inspired by the likes of Milton Friedman and Friedrich Hayek acted as one of the key stepping stones to the turbo charged capitalism and globalization of our modern world But how neoliberal was Thatcherism The link between ideas and the Thatcher government has frequently been over generalized and under specified Existing accounts tend to characterize neoliberalism as a homogeneous and often ill defined group of thinkers that exerted a broad influence over the Thatcher government In particular this study explores how Margaret Thatcher approached special interest groups a core neoliberal concern The results demonstrate a willingness to utilize the state often in contradictory ways to pursue apparently more market orientated policies This book through a combination of archival research interviews and examination of neoliberal thought itself defines the dominant strains of neoliberalism more clearly and explores their relationship with Thatcherism [Closing Sysco](#) Lachlan MacKinnon, 2020-02-24 Closing Sysco presents a history of deindustrialization and working class resistance in the Cape Breton steel industry between 1945 and 2001 The Sydney Steel Works is at the heart of this story having existed in tandem with Cape Breton s larger coal operations since the early twentieth century The book

explores the multifaceted nature of deindustrialization the internal politics of the steelworkers union the successful efforts to nationalize the mill in 1967 the years in transition under public ownership and the confrontations over health safety and environmental degradation in the 1990s and 2000s Closing Sysco moves beyond the moment of closure to trace the cultural historical and political ramifications of deindustrialization that continue to play out in post industrial Cape Breton Island A significant intervention into the international literature on deindustrialization this study pushes scholarship beyond the bounds of political economy and cultural change to begin tackling issues of bodily health environment and historical memory in post industrial places The experiences of the men and women who were displaced by the decline and closure of Sydney Steel are central to this book Featuring interviews with former steelworkers office employees managers politicians and community activists these one on one conversations reveal both the human cost of industrial closure and the lingering after effects of deindustrialization
