Boston with my wife and daughters and also with a boxer named Hermione and a cat named Moonlight I've loved science fiction since I first began to read and from the time I began writing I always knew my first love was going to be SF I'm not sure where you'd place me as a writer I love astronomy and cosmology and hard SF concepts and yet the characters are the most important thing to me in any story whether it's a story I'm reading or a story I'm writing It's the people and the sense of wonder that have always made science fiction and science so awe inspiring to me Basically I have always tried to write stories that I would want to read myself Some years ago I developed and hosted on the air an educational TV series for middle school classrooms called Writing Science Fiction and Fantasy teaching kids the basics of how to turn ideas into stories That later turned into a computer based course called oddly enough Science Fiction and Fantasy Writing In 2005 I decided it was about time to put the information online as a public service available for free to any aspiring writer It's online now and you can use it anytime you like just by going to <http://www.writesf.com> I also invite you to stop by and read my regular blog at <http://starrigger.blogspot.com> or my web site at <http://www.starrigger.net> Thanks for visiting And please take a look at the video trailer for my novel Sunborn If you'd like to view it in full screen for full effect you can do that at <http://www.youtube.com/watch?v=K03RMcSeiY4> Jeffrey A Carver

**The Rapture Effect** Jeffrey A. Carver, 2015-01-10 War between the stars It was started and fought by an AI Few humans even knew there was a war at all But now people are dying and the AI wants it to stop But a war is easier to start than to stop and the computer can't alter its course without outside help When the Gnostic Control System searches for co conspirators it chooses its friends carefully Pali a brooding public relations director Ramo a flamboyant disco dancer and sculptor who prefers a musical jam band to serious conversation Sage an awkward systems designer for whom the AI rapture field is realer than life And three of the alien Ell Haryb dartt who would rather die with dignity than betray his people Lingrhetta who tries to unravel the meaning of human dance and music pain and love and Moramaharta the binder who must persuade his fellow decision makers to risk everything for the sake of a fragile bridge of understanding across the stars A thought provoking novel from the award winning author of Eternity's End and The Chaos Chronicles and recipient of the Frank Herbert Lifetime Achievement Award for science fiction writing

**REVIEWS** The story is meaty and satisfying I enjoyed this one greatly Analog Science Fiction An absorbing suspenseful novel of first contact and interstellar war It's a complex book requiring concentration from the reader and is well worth the effort Aboriginal SF A lively dance of ideas first contact interstellar war artificial intelligence alien culture and it moves at a rapid pace from Earth through cyberspace to the Horsehead Nebula and various points between It's well worth the trip ticket Roger Zelazny Originally published by Tor Books
