of NWM is due to relationship marketing Within this thesis I analyse if network marketing is enrichment for people this means how the perception of network marketing is in the society as well as from people within NMO and further whether NMO deceives people in order to achieve profit

1 2 Problem According to Bhattacharya and Mehta 2000 p 361 Network Marketing Organisations NMO has grown in importance over the last few decades For example Avon a well known network marketing company is ranked number 67 in the Best Global Brands 2009 Interbrand 2009 Furthermore over 70 % of direct sales revenues are generated by network marketing organizations Bhattacharya and Mehta 2000 p 361 Network marketing is a huge global industry a personal selling away from fixed retail locations Muncy 2004 p 47 where strong social networks and relationships are the basis for the success The estimated worldwide sales resulting from network marketing approaches is 90 billion Muncy 2004 p 47 The focus of NWM is on people and congenial and trustful encounters Relationships between people are one reason why network marketing is a growing business in recent years
