Encyclopedia of Twentieth Century Architecture R. Stephen Sennott, 2004. For more information including the introduction, a full list of entries and contributors, a generous selection of sample pages, and more, visit the Encyclopedia of 20th Century Architecture website. Focusing on architecture from all regions of the world, this three-volume set profiles the twentieth century's vast chronicle of architectural achievements both within and well beyond the theoretical confines of modernism. Unlike existing works, this encyclopedia examines the complexities of rapidly changing global conditions that have dispersed modern architectural types, movements, styles, and building practices across traditional geographic and cultural boundaries.

The Making of Mexican Modernist Architecture Celia Esther Arredondo Zambrano, 2023-05-03. This book presents the making of Mexican Modernist architecture through five power structures: academic, social status, economic, political, gender, and postcolonial, and by interviews and analysis of 13 key Mexican architects. These include Luis Barragán, José Villagrán García, Juan O'Gorman, Pedro Ramírez Vázquez, Agustín Hernández, Abraham Zabludovsky, Carlos Mijares, Ricardo Legorreta, Juan José Díaz Infante, Enrique Norten, Alberto Kalach, Javier Sordo Madaleno, and Clara de Buen. Although the five power structures framed what was built, the testimony of these Mexican architects helps us to recognize and discover subtleties and nuances. Their views thereby shed light on what contributed to making Mexican Modernist architecture so distinctive globally. Even if these architects were not always aware of the power structures, their projects nonetheless supported discrimination, marginalization, and subjugation. In that sense, the book also reveals the extent to which these power structures are still present today. The Making of Mexican Modernist Architecture's uniqueness lies in uncovering the remarkable buildings that arose amid the five power structures while at the same time questioning their validity. It also voices the urgent need today for a new kind of architecture outside these boundaries. The book is essential reading for anyone studying Mexican and Latin American architecture.
