## **Modern Fables Curt Moeller:**

**Modern Fables** Curt Moeller, 2015-11-27 Modern Fables is a series of tales in which animals act like humans complete with murder adultery and jealousy but also forgiveness intelligence and compassion The eighteen fables contained in this volume explore issues of morality ethics and psychology in both serious and lighthearted ways creating just as many questions as they answer The Trow (formerly Wilson's) Copartnership and Corporation Directory of New York City ,1906

**Embracing Democracy in Modern Germany** Michael L. Hughes, 2021-01-14 Across the modern era the traditional stereotype of Germans as authoritarian and subservient has faded as they have become mostly model democrats This book for the first time examines 130 years of history to comprehensively address the central questions of German democratization How and why did this process occur What has democracy meant to various Germans And how stable is their or indeed anyone s democracy Looking at six German regimes across thirteen decades this study enables you to see how and why some Germans have always chosen to be politically active even under dictatorships the enormous range of conceptions of political culture and democracy they have held and how interactions among various factors undercut or facilitated democracy at different times Michael L Hughes also makes clear that recent surges of support for populism and authoritarianism have not come out of nowhere but are inherent in long standing contestations about democracy and political citizenship Hughes argues that democracy in Germany or elsewhere cannot be a story of adversity overcome which culminates in a happy ending it is an ongoing open ended process whose ultimate outcome remains uncertain **Off-Modern Catholic Aesthetics**

**Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1968     *Hi Hitler!* Gavriel D. Rosenfeld,2015 Analyzes how the Nazi past has become increasingly normalized within western memory since the start of the new millennium     **Screening War** Paul Cooke,Marc Silberman,2010 Re examines German cinema s representation of the Germans as victims during the Second World War and its aftermath The recent discovery of German wartime suffering has had a particularly profound impact in German visual culture Films from Margarethe von Trotta s *Rosenstrasse* 2003 to Oliver Hirschbiegel s Oscar nominated *Downfall* 2004 and the two part television mini series *Dresden* 2006 have shown how

ordinary Germans suffered during and after the war Such films have been presented by critics as treating a topic that had been taboo for German filmmakers However the representation of wartime suffering has a long tradition on the German screen For decades filmmakers have recontextualized images of Germans as victims to engage shifting social and ideological discourses By focusing on this process the present volume explores how the changing representation of Germans as victims has shaped the ways in which both of the postwar German states and the now unified nation have attempted to face the trauma of the past and to construct a contemporary place for themselves in the world Contributors See n Allan Tim Bergfelder Daniela Berghahn Erica Carter David Clarke John E Davidson Sabine Hake Jennifer Kapczynski Manuel Kppen Rachel Palfreyman Brad Prager Johannes von Moltke Paul Cooke is Professor of German Cultural Studies at the University of Leeds and Marc Silberman is Professor of German at the University of Wisconsin

*Emotional Motives in International Relations* Rupert Brodersen, 2018-05-16 The study of emotions in International Relations is gaining wide spread attention Within the emotional turn in IR the emotion of rage however has not been given sufficient attention instead being used as short hand for irrationality and excess Rage is arguably one of the oldest and most destructive emotions in human affairs This book offers an innovative approach that seeks to split rage into its traditional manifestation of aggression and violence and into a less visible passive manifestation of Nietzschean Ressentiment This model facilitates a comprehensive understanding of revisionist motivation from the violence of ISIS to the oppositionism of Putin s Russia The aim is to illustrate how a lack of violence can belie vengeful impulses and a silent rage and how acts of violence regardless of brutality are often framed as a type of justice and moral imperative in the mind of the aggressor This book raises serious questions and concerns about legitimacy and order in global affairs and offers a firm theoretical basis for the exploration of present day conflicts

*War Stories* Robert G. Moeller, 2003-04-18 Moeller conveys the complicated story of how West Germans recast the past after the Second World War He demonstrates the selective remembering that took place among West Germans during the postwar years in particular they remembered crimes committed against Germans

*The Writer*, 1929 The oldest magazine for literary workers

**The Representation of War in German Literature** Elisabeth Krimmer, 2010-06-10 The history of literature about war is marked by a fundamental paradox although war forms the subject of countless novels dramas poems and films it is often conceived as indescribable Even as many writers strive towards an ideal of authenticity they maintain that no representation can do justice to the terror and violence of war Readings of Schiller Kleist J nger Remarque Grass B ll Handke and Jelinek reveal that stylistic and aesthetic features gender discourses and concepts of agency and victimization can all undermine a text s martial stance or its ostensible pacifist agenda Spanning the period from the Revolutionary and Napoleonic Wars to the recent wars in Yugoslavia and Iraq this book investigates the aesthetic theoretical and historical challenges that confront writers of war
