Contemporary Jewish Philosophy Irene Kajon, 2006 Contemporary Jewish Philosophy offers a comprehensive survey of Jewish philosophy in the twentieth century

An Introduction to Modern Jewish Philosophy Claire Elise Katz, 2013-11-19 How Jewish is modern Jewish philosophy The question at first appears nonsensical until we

consider that the chief issues with which Jewish philosophers have engaged from the Enlightenment through to the late 20th century are the standard preoccupations of general philosophical inquiry Questions about God reality language and knowledge metaphysics and epistemology have been of as much concern to Jewish thinkers as they have been to others Moses Mendelssohn for example was a friend of Kant Hermann Cohen's philosophy is often described as neo Kantian Franz Rosenzweig wrote his dissertation on Hegel And the thought of Emmanuel Levinas is indebted to Husserl In this much needed textbook which surveys the most prominent thinkers of the last three centuries Claire Katz situates modern Jewish philosophy in the wider cultural and intellectual context of its day indicating how broader currents of British French and German thought influenced its practitioners But she also addresses the unique ways in which being Jewish coloured their output suggesting that a keen sense of particularity enabled the Jewish philosophers to help define the whole modern era Intended to be used as a core undergraduate text the book will also appeal to anyone with an interest how some of the greatest minds of the age grappled with some of its most urgent and fascinating philosophical problems

How Judaism Became a Religion Leora Batnitzky, 2011-08-22 A new approach to understanding Jewish thought since the eighteenth century Is Judaism a religion a culture a nationality or a mixture of all of these In *How Judaism Became a Religion* Leora Batnitzky boldly argues that this question more than any other has driven modern Jewish thought since the eighteenth century This wide ranging and lucid introduction tells the story of how Judaism came to be defined as a religion in the modern period and why Jewish thinkers have fought as well as championed this idea Ever since the Enlightenment Jewish thinkers have debated whether and how Judaism largely a religion of practice and public adherence to law can fit into a modern Protestant conception of religion as an individual and private matter of belief or faith Batnitzky makes the novel argument that it is this clash between the modern category of religion and Judaism that is responsible for much of the creative tension in modern Jewish thought Tracing how the idea of Jewish religion has been defended and resisted from the eighteenth century to today the book discusses many of the major Jewish thinkers of the past three centuries including Moses Mendelssohn Abraham Geiger Hermann Cohen Martin Buber Zvi Yehuda Kook Theodor Herzl and Mordecai Kaplan At the same time it tells the story of modern orthodoxy the German Jewish renaissance Jewish religion after the Holocaust the emergence of the Jewish individual the birth of Jewish nationalism and Jewish religion in America More than an introduction *How Judaism Became a Religion* presents a compelling new perspective on the history of modern Jewish thought

Introduction to Modern Jewish Philosophy, 20?? *Jewish Philosophy and Western Culture* Victor J. Seidler, 2007-11-28 This is one of the first textbooks to try to set the entire discipline of Jewish philosophy in its proper cultural and historical contexts In so doing it introduces the vibrant Jewish philosophical tradition to students while also making a significant contribution to inter religious dialogue Victor J Seidler argues that the dominant Platonic tradition in the West has led to a form of cultural ethics which asserts false superiority in its relationships with others He offers a critical reappraisal of the

philosophical underpinnings of this western Christian culture which for so long has viewed Judaism with hostility Examining the work of seminal Jewish thinkers such as Philo Buber Mendelsohn Herman Cohen Leo Baeck Levinas Rosenzweig and others the author argues for a code of ethics which prioritises particular and personal moral responsibility rather than the impersonal and universal emphases of the Greek tradition His provocative and original overview of Jewish philosophy uncovers a vital and neglected tradition of thought which works against the likelihood of a Holocaust recurring *Faith and Reason* Samuel Hugo Bergman,1963 Norbert M. Samuelson: Reasoned Faith Hava Tirosh-Samuelson,Aaron W.
