What Is the Bible? Matthew Baker, Mark Mourachian, 2016-04-01 The patristic doctrine of Scripture is an understudied topic Recent scholars however have shown considerable interest in patristic exegetical strategies and methods from rhetoric and typology to theory and method far less attention though has

been paid to the early Christian understanding of the nature of Scripture itself This volume explores the patristic vision of the Bible the understanding of Scripture as the word of life and salvation the theological liturgical and ascetical practice of reading and is anchored by keynote essays from Fr John McGuckin Paul Blowers and Michael Legaspi The purpose is to reopen a consideration of the doctrine of Scripture for contemporary theology rooted in the tradition of the Church Fathers Greek Latin and Oriental an endeavor inspired by the theological vision of the twentieth century s foremost Orthodox Christian theologian Fr Georges Florovsky Our interest is not in mere description of historical uses of Scripture or interpretive methods but rather in the very nature of Scripture itself and its place within the whole economy of creation revelation and salvation

Theosis and Religion Norman Russell, 2024-03-14 Theosis originally a Greek term for Christian divinisation or deification has become a vogue word in modern theology Although recent publications have explored its meaning in a selection of different contexts this is the first book to offer a coherent narrative of how the concept of theosis developed in both its Eastern and Western versions Norman Russell shows how the role of Dionysius the Areopagite was pivotal not only in Byzantium but also in the late mediaeval West where it strengthened the turn towards an individualistic interiority Russell also relates theosis to changing concepts of religion in the modern age He investigates the Russian version of theosis introduced in the West by Russian members the Paris School after the 1917 Revolution Since then theosis has undergone additional development through the addition of esoteric elements which have since passed into the mainstream of all theological traditions and even into popular spirituality

Orthodox Christian Identity in Western Europe Sebastian Rimestad, 2020-11-19 This book analyses the discourses of Orthodox Christianity in Western Europe to demonstrate the emerging discrepancies between the mother Church in the East and its newer Western congregations Showing the genesis and development of these discourses over the twentieth century it examines the challenges the Orthodox Church is facing in the modern world Organised along four different discursive fields the book uses these fields to analyse the Orthodox Church in Western Europe during the twentieth century It explores pastoral ecclesiological institutional and ecumenical discourses in order to present a holistic view of how the Church views

itself and how it seeks to interact with other denominations Taken together these four fields reveal a discursive vitality outside of the traditionally Orthodox societies that is however only partly reabsorbed by the church hierarchs in core Orthodox regions like Southeast Europe and Russia The Orthodox Church is a complex and multi faceted global reality Therefore this book will be a vital guide to scholars studying the Orthodox Church ecumenism and religion in Europe as well as those working in religious studies sociology of religion and theology more generally

The Unknown Europe James R. Payton, 2021-11-03 The fascinating history of Eastern Europe includes highs of soaring cultural achievement and lows of almost unimaginable repression But we in the West don t know much about Eastern Europe or its history this book helps us see why We got interested when the region became a threat during the Cold War but what we learned focused on the Communist period after World War II not Eastern Europe itself or its deep history a history that continues to live in the hearts of its peoples James Payton offers an accessible treatment of the history of the region an opportunity to learn about Eastern Europeans as they are He overviews that story from pre history to the present examining

eleven turning points that profoundly shaped Eastern European history His treatment considers the backgrounds to the turning points the events and the long lasting impacts they had for the various Eastern European nations This helps us understand how Eastern Europeans themselves see their history the long haul over the centuries with the influence and impact of events of the sometimes distant past shaping how they see themselves their neighbors and their place in the world

coverage spans the areas of world religions theism atheism the problem of evil science and religion and ethics **Hans Lassen Martensen** Jon Stewart, 2012-02-17 Although he has long been known primarily as the object of Søren Kierkegaard's disdain Hans Lassen Martensen 1808-84 was a celebrated figure in his own time Recognized as a brilliant scholar and highly successful churchman Martensen worked in a number of different areas of theology and philosophy producing an impressive literary corpus over a period of several decades His authorship is remarkably varied including philosophical treatises theological tracts sermons eulogies book and theater reviews as well as polemical and occasional pieces During his lifetime he saw his works translated into German Swedish English French Hungarian and Dutch These works were widely read and frequently reprinted in numerous editions throughout the second half of the century It is unfortunate that to international research he was known for many years only as a central figure in Kierkegaard's attack on the Danish State Church In the past few decades there has however been a renewed appreciation for Martensen as an important thinker in his own right The present anthology attempts to bring together the works of the leading Danish and international scholars responsible for this recent surge of interest In order to capture the different aspects of Martensen's thought the volume has been organized into three main rubrics I Theology II Philosophy and III Politics and Social Theory Collectively the articles featured here treat Martensen's main works from his dissertation On the Autonomy of Human Self-Consciousness in 1837 to his monumental three-volume Christian Ethics from the 1870s The authors demonstrate that the problems critically addressed by Martensen in the Danish Golden Age are still very much with us today in the twenty-first century Jon Stewart is Associate Research Professor at the Søren Kierkegaard Research Centre at the University of Copenhagen **The Public Image of Eastern Orthodoxy** Heather L. Bailey, 2020-06-15 Focusing on the period between the revolutions of 1848-1849 and the First Vatican Council 1869-1870 The Public Image of Eastern Orthodoxy explores the circumstances under which westerners concerned about the fate of the papacy the Ottoman Empire Poland and Russian imperial power began to conflate the Russian Orthodox Church with the state and to portray the Church as the political tool of despotic tsars As Heather L. Bailey demonstrates in response to this reductionist view Russian Orthodox publicists launched a public relations campaign in the West especially in France in the 1850s and 1860s The linchpin of their campaign was the building of the impressive Saint Alexander Nevsky Church in Paris consecrated in 1861 Bailey posits that as the embodiment of the belief that Russia had a great historical purpose inextricably tied to Orthodoxy the Paris church both reflected and contributed to the rise of religious nationalism in Russia that followed the Crimean War At the same time the confrontation with westerners' negative ideas about the Eastern Church fueled a reformist spirit in Russia while contributing to a better understanding of Eastern Orthodoxy in the West
