

The background of the book cover is a stylized, high-contrast illustration in black and white. It depicts a person's face in profile, looking down, with a hand near their mouth. The style is reminiscent of mid-20th-century graphic design, using bold lines and hatching for shading. The overall composition is abstract and evocative.

Relembrando-A Velha Literatura de Cordel e a Voz dos Poetas Mark J. Curran, 2014-09-24 *Relembrando A Velha*
Literatura de Cordel e a Voz dos Poetas really contains three important studies on the cordel 1 the revision and translation of
Curran s PhD dissertation from 1968 2 the augmentation of one of the chapters of the dissertation treating Brazil s best
known and pioneering poet Leandro Gomes de Barros 3 the publication of a now historic series of interviews with forty
cordel poets and publishers in the late 1970s Curran dedicates much time and energy to this endeavor because he believes
the researches were little known in their original form and more importantly with the passage of time and the evolution of
the cordel and Brazil in general they now remain as historic documents in Brazil s national cultural history A History of
Brazil E. Bradford Burns, 1993 Here is a new edition of the book generally acclaimed as the best single volume history of
Brazil It has been thoroughly revised and updated to include expanded treatment of intellectual social and popular history
and to provide increased coverage of labor blacks women and the military in Brazilian history Complete in breadth and
chronological span A History of Brazil is a panoramic interpretation of the Brazilian past from discovery to the present that
treats the economic social cultural and political evolution of Latin America s largest nation **Rhythm, Ancestrality and**

and Candomblé Repercussions examines how the highly percussive carnival practice of Maracatu de na o an Afro Brazilian
musical and spiritual tradition originating in the north eastern state of Pernambuco has evolved in relation to the cosmology
of Candomblé Nag in the urban centres of Recife and Olinda Brazil Offering one of the first detailed ethnographic explorations
into maracatu de na o Candomblé Nag and the connections between them this book is a collaborative enquiry into frequently
negated sacred and ancestral knowledge systems central to Afro Brazilian musical spiritual practices Using an innovative
research framework which integrates musical and rhythmic practices with spiritual ancestral and ecological knowledge
systems readers are provided with an intimate ethnography based on eight years of friendship and learning with the oldest

Lusophone and Afro Hispanic Cultural Dialogue is a collection of essays of broad historical and geographic scope that
advances analytical perspectives regarding a highly transcultural and changing African continent enmeshed in the vestiges of
slavery and colonialism and the complex dynamics of post colonialism Mostly grounded in literary studies the essays discuss

The Invention of the Brazilian Northeast Durval Muniz de Albuquerque Jr., 2014-10-17 Brazil's Northeast has traditionally been considered one of the country's poorest and most underdeveloped areas In this impassioned work the Brazilian historian Durval Muniz de Albuquerque Jr investigates why Northeasterners are marginalized and stereotyped not only by inhabitants of other parts of Brazil but also by nordestinos themselves His broader question though is how the Northeast came into existence Tracing the history of its invention he finds that the idea of the Northeast was formed in the early twentieth century when elites around Brazil became preoccupied with building a nation Diverse phenomena from drought policies to messianic movements banditry to new regional political blocs helped to consolidate this novel concept the Northeast Politicians intellectuals writers and artists often nordestinos played key roles in making the region cohere as a space of common references and concerns Ultimately Albuquerque urges historians to question
