Nederland In Londen Ervaringen En Beschouwingen:

The Purge of Dutch Quislings Henry L. Mason, 2012-12-06 This study is based on research which I conducted in the Netherlands in 1948 and 1949 In addition I was able to rely on experiences and impressions of the 1944 1946 period when I was stationed in the Low Countries as a United States Army Military Intelligence Officer In my description of Dutch purge measures I have attempted to be as unbiased a judge as possible whenever I was unable to arrive at a definite conclusion I contented myself with describing the opposing points of view I am quite aware that this attitude of neutrality may be criticized not only by many ex Resistance men who have become disgusted with the alleged softness of the purge but also by many others who appear equally dismayed about its severity For purposes of comparison readers who are familiar with action against collaborators in other countries such as France Italy or the Balkans may note that the Dutch purge was not dominated by considerations of party politics All Dutch employers and workers Protestants and Catholics Conservatives and Socialists had been united in their resistance against the enemy Consequently disagreements about purge measures did not follow class religious or party lines The few Dutch Communists had never been able to dominate the Resistance neither were they able to exploit the purge for their purposes Thus in Holland problems of collaboration and purge could be studied in their purest form without consideration of other factors Nederlandse politiek in historisch en vergelijkend perspectief Uwe Becker, 1993 Bundel bijdragen over kerkelijke rooms Katholieke en algemeen culturele ontwikkelingen op Curaçao

Crises of Empire Martin Thomas, Bob Moore, Larry Butler, 2015-04-23 Crises of Empire offers a comprehensive and uniquely comparative analysis of the history of decolonization in the British French and Dutch empires By comparing the processes of decolonization across three of the major modern empires from the aftermath of the First World War to the late 20th century the authors are able to analyse decolonization as a long term process They explore significant changes to the international system shifting popular attitudes to colonialism and the economics of empire This new edition incorporates the latest developments in the historiography as well as Increased coverage of the Belgian and Portuguese empires New introductions to each of the three main parts offering some background and context to British French and Dutch decolonization More coverage of cultural aspects of decolonization exploring empire from below This new edition of Crises of Empire is essential reading for all students of imperial history and decolonization In particular it will be welcomed by those who are interested in taking a comparative approach putting the history of decolonization into a pan European framework

Social Capitalism Kees van Kersbergen, 2003-09-02 Christian democracy has been the most successful political movement in post war Western Europe yet its crucial impact on the development of the modern European welfare state has been critically neglected In this study Kees van Kersbergen demonstrates the precise nature of the links between Christian democracy and the welfare state Using a variety of sources the author describes the origin and development of the Christian democratic movement and presents comparative accounts of the varying degrees of political entrenchment of national

christian democratic parties Drawing upon cross national indicators of welfare state development he identifies and explains the existence of a distinctively Christian democratic as opposed to a liberal or social democratic welfare state regime which he labels social capitalism This book compares the different national contexts under which christian democratic social theory has been turned into political action Kees van Keersbergen shows how the different social policy performances of crucial cases Germany Italy and the Netherlands have been affected not just by prevalent power structures but also by the coalitional strategies and political abilities of christian democratic parties Religion and Politics John T. S. Madeley, 2019-07-15 This title was first published in 2003 This subject area of this work cross cuts conventional sub disciplinary boundaries in the study of comparative politics Connections between religion and and politics can be identified in all of the thematic areas covered by the articles within **Nederland in Londen. Reichskommissariat Niederlande Konrad Kwiet,2010-10-01 Deutsche Besetzung und nationalsozialistische Gewaltpolitik haben in den traditionell neutralen seit über einem Jahrhundert von Fremdherrschaft verschonten Niederlanden mit ihrer verwurzelten demokratischen Ordnung und Toleranz einen außerordentlich schweren Schock ausgelöst Konrad Kwiet selbst einer deutsch holländischen Familie entstammend ist mit den Belastungen die sich daraus für das deutsch niederländische Verhältnis ergaben von Hause aus vertraut und aufgrund seiner gründlichen Studien besonders qualifiziert Seine konzentrierte Untersuchung will nicht die Gesamtgeschichte der Besatzungszeit erzählen sondern vor allem die politische relevanten Merkmale und Veränderungen des unter militärischem Befehl begonnenen aber schon im Mai 1940 der politischen Leitung des Reichskommissars Seys Inquart unterstellten Besatzungsregimes aufzeigen Im Vordergrund stehen dabei die widersprüchlichen Neuordnungen und Herrschaftskonzeptionen der Anfangsjahre 1940/41 in denen sowohl die großgermanische Reichspolitik wie der Versuch die holländischen Faschisten der Mussert-Bewegung in den Sattel zu heben an eigener Unzulänglichkeit oder holländischem Widerstand scheiterten und die ultima ratio der Gewalt das Feld zu beherrschen begann Die NS-Politik in den Niederlanden wird dabei als Teil der allgemeinen europäischen Hegemonialpolitik Hitlers betrachtet und auch mit den vielfach anders gelagerten Verhältnissen in Belgien verglichen Es gelingt dem Verfasser am Beispiel Hollands einsichtig zu machen dass der Totalitarismus nationalsozialistischer Herrschaft und das sich unter ihr ausbreitende Rechtsvakuum weniger in planvoller und monopolitischer Diktatur als vielmehr in der permanenten Improvisation und dem Antagonismus rivalisierender Machtgruppen und Machtkonzepte wurzelte die eine fortgesetzte Eskalation der Gewaltsamkeit in Gang setzten
