**Warfare at Sea, 1500-1650** Jan Glete, 2002-01-04 Warfare at Sea 1500 1650 is the first truly international study of warfare at sea in this period Commencing in the late fifteenth century with the introduction of gunpowder in naval warfare and the rapid transformation of maritime trade Warfare at Sea focuses on the scope and limitations of war before the advent of the big battle fleets from the middle of the seventeenth century The book also compares the social history of seamen and the early officer corps in several European countries and includes discussion on Spain Portugal France Venice the Ottoman Empire and the Baltic states

*Exercise of Arms*, 2021-10-25 The great European conflict known as the Thirty Years War was only the final phase of a war in the Netherlands which was to last 80 years In the course of this the Dutch rose up successfully against their Spanish rulers and

established a Republic in the early 16th century which was the envy of its contemporaries This volume brings together papers by 11 leading military historians from the Netherlands who discuss the processes by which the Dutch organised and financed the military apparatus which was eventually to defeat the leading land and maritime power of their day and to maintain the position of Holland as a world power until well into the 18th century Articles cover military matters such as changes in strategy and tactics and issues such as the financing of the war effort the navy privateering and the arms trade

**Asian Trade and European Influence** M. A. P. Meilink-Roelofs, 2013-11-11 Now that this study is completed and I wish to make due acknowledgment to all those who have in any degree contributed towards its realization my thoughts turn in the first place to the one to whom this book is dedicated It is a great grief to me that he who took such an intense interest in my work has not lived to see its conclusion It was he who in the beginning urged me to venture upon this course of study and whose encouragement helped me in moments of despondency The high standard which with his keen and critical judgment he set for his own work was an example to me and I shall strive to maintain it in my future studies Not only did he help me to lay the foundation of my knowledge of archive science but he was also my guide in a field new to me in many respects that of Asian maritime trade His wide knowledge of medieval European trade in the Baltic area led me to compare and contrast the two worlds of East and West and thus helped me to obtain a deeper insight into the differences and similarities between the various problems involved I am greatly indebted to Prof Dr J M Romein who has followed the progress of my studies with great interest all these years and on whose help and support sometimes in very difficult circumstances I have always been able to rely
