Holding the Line George White Jr.,2005-11-04 The rivalry between the United States and the Soviet Union intensified as Dwight D Eisenhower entered the White House However the burning question for the vast majority of the world's population was not whether they would join the Free World or the Soviet bloc but whether they could achieve meaningful self determination Nowhere did the answer to that question loom larger than in Africa The Eisenhower administration's confrontation with Africa demonstrates the significance of race in the creation and execution of American foreign policy In this new work historian George White Jr explores the ways in which Eisenhower diplomacy influenced by America's racialized fantasies fears and desires turned the Cold War into a global sanctuary for the rehabilitation of Whiteness In turn American statesmen and bureaucrats justified the undermining of democracy and freedom by stuffing the multi faceted realities of African aspirations and Western privileges into the straitjacket of a bi polar worldview Using as its foundation American relations with Ethiopia Ghana South Africa and the Congo Holding the Line demonstrates the power of race to warp perception and to severely limit the parameters and possibilities of human engagement Holding the Line provides a fresh perspective on 1950s era U S foreign relations that remain salient in American diplomacy today This is a

book that will be of interest to students of American diplomatic history Critical Race and Whiteness studies American studies and international relations **The Way We See it** Sandra Richards, 2008 Following in the steps of Bernard Coard's *How the West Indian Child is Made Educationally Subnormal in the British School System* this book also threatens to cause a social and political storm with its hard hitting accounts of school exclusion and the realities of racism Dr Richards takes a radical African centred look at school exclusions teasing out uncomfortable historical links and throwing new light on sensitive and complex issues Her research reveals how teachers who work to be inclusive can themselves be subjected to exclusion They suffer in silence from what she calls professional envy when they try to operate against racialized punitive cultures We learn how technology now shapes young people's daily interactions and the implications for their schooling Through the voices of pupils and today's parents we are led into the world of the people affected by excluding practices The author shows how school exclusion harms children their families communities and society But she goes on to map out the ways teachers can transform their practice and support vulnerable children at risk of exclusion **Melanin Guide to Spiritual Awakening** J.A.H.
