Europe's Mediterranean Neighbourhood Pierre Beckouche, 2017-03-31 Illustrated with pioneering maps and with country analyses from a network of researchers from across the Mediterranean this book takes a territorial approach as a

way toward a shared vision for a truly integrated Euro Mediterranean region At a time when the region is undergoing rapid change the main goal of the book is to challenge misconceptions with common geographic data on issues such as transport energy agriculture water and to suggest avenues for policies common to Europe and its southern neighbours *Managing Construction Projects* Graham M. Winch, 2009-12-30 Project management is of critical importance in construction yet its execution poses major challenges In order to keep a project on track decisions often have to be made before all the necessary information is available Drawing on a wide range of research *Managing Construction Projects* proposes new ways of thinking about project management in construction exploring the skills required to manage uncertainty and offering techniques for thinking about the challenges involved The second edition takes the information processing perspective introduced in the first edition and develops it further In particular this approach deepens the reader's understanding of the dynamics in the construction project process from the value proposition inherent in the project mission to the functioning asset that generates value for its owners and users *Managing Construction Projects* is a unique and indispensable contribution to the available literature on construction project management It will be of particular benefit to advanced students of construction and construction project management as well as contractors and quantity surveyors Reviews of the First edition A massive review of the art and science of the management of projects that has the great virtue of being a good read wherever it is touched It spills the dirt on things that went wrong elucidates the history so you can understand the industry's current stance draws on other countries' experience and explains the latest management processes Throughout it is liberally sprinkled with anecdotes and case histories which amply illustrate the dos and don'ts for practitioners wishing to deliver projects on time to expected quality and price A valuable book for students and practitioners alike John D Findlay Director Stent This is a valuable source for practitioners and students It covers the A-Z of project management in a confident contemporary manner and provides a powerful and much needed conceptual perspective in place of a purely prescriptive approach The engaging presentation introduces a range of challenges to established thinking about project management often by making comparisons between practices in the UK and those of other countries Peter Lansley Professor of Construction Management University of Reading A refreshing and unique study of information management and its impact upon international construction project management The book is well presented and written logical and succinct and is flexible enough to allow readers to either read from start to finish or to dip into selected chapters This book deserves to be an established text for any construction or civil engineering under and or postgraduate course CNBR 25th November 2003 Generous use is made of anecdotes and case histories throughout to support the theory the book illustrates the mistakes made by others and the means to deliver projects on time and to cost Building Services Journal April 2004

Political and Legal Perspectives of the EU Eastern Partnership Policy Tanel Kerikmäe, Archil Chocia, 2016-01-23 This book examines EU Eastern Partnership taking into account geopolitical challenges of EU integration It highlights reasons for limited success such as systematic

conflict of EU External Action In addition the book analyses country specific issues and discusses EaP influence on them investigating political economic and social factors while seeking for potential solutions to existing problems The reluctance of the Eastern countries to the European reforms should not reduce political pro activeness of the EU The authors suggest that EaP strategies should be reviewed to be more reciprocal and not based solely on the EU laden agenda This book is one of the good examples of cooperation between scholars not only from EaP and EU countries but also from different disciplines bringing diversity to the discussion process

Shaping the Post-Soviet Space? Laure Delcour,2013-03-28 While the European Union EU is widely perceived as a model for regional integration the encouragement of regional co operation also ranks high among its foreign policy priorities Drawing on a wealth of sources and extensive fieldwork conducted in the Commonwealth of Independent States CIS Laure Delcour questions the pursuit of this external objective in EU policies implemented in the CIS and the existence of an EU regional vision in the post Soviet area She asks does the recent compartmentalization of EU policies correspond to a growing fragmentation of the former Soviet Union that cannot be considered as a region anymore Does it rather reflect the EU s own interests in the area Interested in exposing why the EU has not pursued a strategy of region building in the post Soviet area Delcour examines the disintegration dynamics affecting the area following the collapse of the USSR the interplay between different actors and levels of action in EU foreign policy making and the role of other region builders She takes a closer look at the strategic partnership with Russia European Neighbourhood Policy Eastern Partnership and Black Sea Synergy as a capability test for the European foreign policy to promote its foreign policy priorities and to raise a distinctive profile in the international arena
