*Partnerships of Hope* Christopher Schaefer, 2013-12 A inspiring book of essays addressing the challenges of building community for the good of all in a Waldorf school      *Social Ecology in Holistic Leadership* Erik Lemcke, 2021-02-24 Many managers and consultants have academic backgrounds in business administration and are trained in contemporary management methods that focus on decision making and economic efficiency The question is Are these academic methods the best to further the development of society as well as organizations      *Questioning the Language of Improvement and Reform in Education* Nicole Mockler, Susan Groundwater-Smith, 2018-05-11 Questioning the Language of Improvement and Reform in Education challenges the language used in education by linking the language of both the public and professional domains with the changing intentions of the governance of education Exploring various issues which embody the many manifestations of the manner in which strident conservative language has captured the public view of education the book covers topics such as the importance of language in the context of educational practice the media's portrayal of teachers globally the role of students in the face of curriculum reform and the language used in educational policy worldwide The book addresses the ways in which the words improvement and reform have been appropriated and hollowed out by policymakers in order to justify globalised education policies Using international case studies and reports the authors argue that the employment of specific words masks the reality that new educational policies are regressive and require re examination while perpetuating the illusion that progressive educational practice is being brought to the fore Questioning the Language of Improvement and Reform in Education is a fascinating and original take on this topic which will be of great interest to educational practitioners policymakers and linguists      逆儀式 逆祭, 2015-04-01      *Reverse Ritual* Rudolf Steiner, Friedrich Benesch, 2001 Religious ritual is often seen as a way of bringing divine influences down into the material world In this profound and stimulating work Rudolf Steiner and Friedrich Benesch introduce the idea of reverse ritual a way that each of us can raise our souls to the spiritual realm In this process the everyday world becomes a portal through which we can enter the dimension of the sacred Here each of us can be a priest and each of our actions can be a cosmic ritual act This stimulating collection of writings on spiritual communion of humanity includes two further lectures by Steiner that show how this process can engage our social lives Also included are two additional essays as appendices Sacramental and Spiritual Communion by Dietrich Asten and Human Encounters and Karma by Athys Floride The introduction by Christopher Schaefer brings these ideas into focus for modern seekers Contents Part One The Spiritual Communion of Humanity 5 lectures from GA 219 Part Two Preparing for the Sixth Epoch Part Three Commentaries by Friedrich Benesch Appendices Selections from Dietrich Asten Spiritual and Sacramental Communion Athys Floride Human Encounters and Karma      **Renewal** , 2000      *Re-Imagining America* Chris Schaefer, 2020-05-03 This anthology covers diverse yet interconnected themes including what it means to be a conscious witness of our times questions about 9 11 the second Bush administration and the American
