*Path to Prosperity* Jason Furman, Jason E. Bordoff, 2009-10-01. Since its launch in 2006, the Hamilton Project at Brookings has produced extensive research on how to create a growing economy that benefits all Americans. Its pragmatic work aims to increase opportunities for broad-based wealth, economic security, and enduring growth. *Path to Prosperity*, the first book to emerge from the Hamilton Project, presents important and original work to that end. *Path to Prosperity* focuses on three key criteria for fostering broadly shared economic growth: enhancing economic security, building a highly skilled workforce, and reforming the tax system. Income security proposals offer methods for reforming unemployment insurance, protecting against the risk of reemployment at a lower wage after job loss, and improving incentives for retirement saving. Education proposals build human capital by improving each level of education, from preschool programs for poor children to graduate fellowships in math and science. The tax proposals seek to make taxation simpler, more progressive, and better suited to a global economy. Contributors include Roger C. Altman, Reuven S. Avi-Yonah, Jason E. Bordoff, Kimberly A.
