Local Food Systems in Old Industrial Regions Jay D. Gatrell, Paula S. Ross, 2016-05-06 In recent years there has been an explosion of interest in local food systems among policy makers planners and public health professionals as well as environmentalists community developers academics farmers and ordinary citizens While most local food systems share common characteristics the chapters in this book explore the unique challenges and opportunities of local food systems located within mature and or declining industrial regions Local food systems have the potential to provide residents with a supply of safe and nutritious food such systems also have the potential to create much needed employment opportunities However challenges are numerous and include developing local markets of a sufficient scale adequately matching supply and demand and meeting the environmental challenges of finding safe growing locations Interrogating the scale scope and economic context of local food systems in aging industrialized cities this book provides a foundation for the development of new sub fields in economic urban and agricultural geographies that focus on local food systems The book represents a first attempt to provide a systematic picture of the opportunities and challenges facing the development of local food systems in old industrial regions

2016 Catalog of Federal Domestic Assistance United States. Congress. Senate. Office of Management and Budget. Executive Office of the President, 2016 Identifies and describes specific government assistance opportunities such as loans grants counseling and procurement contracts available under many agencies and programs

Sustainable food planning: evolving theory and practice André Viljoen, 2023-09-04 Half the world's population is now urbanised and cities are assuming a larger role in debates about the security and sustainability of the global food system Hence planning for sustainable food production and consumption is becoming an increasingly important issue for planners policymakers designers farmers suppliers activists business and scientists alike The rapid growth of the food planning movement owes much to the unique multi functional character of food systems In the wider contexts of global climate change resource depletion a burgeoning world population competing food production systems and diet related public health concerns new paradigms for urban and regional planning capable of supporting sustainable and equitable food systems are urgently needed This book addresses this urgent need By working at a range of scales and with a variety of practical and theoretical models this book reviews and elaborates definitions of sustainable food systems and begins to define ways of

achieving them Four different themes have been defined as entry points into the discussion of sustainable food planning These are 1 urban food governance 2 integrating health environment and society 3 urban agriculture 4 planning and design This is an important compilation on a timely topic It brings together the work of planners and designers from both sides of the Atlantic and challenges us to think about how to create food systems that deliver healthy just and sustainable communities and vital places The book moves dexterously between the grassroots and policy halls and draws valuable lessons for theory and practice Dr Kami Pothukuchi Department of Urban Studies Planning Wayne State University To address the problems of urban food production we need to look at the city in a completely different way This timely book will act as an important source for those who have an ethical interest not only in food but in improving the quality and justice of life in our city communities Prof Flora Samuel School of Architecture University of Sheffield and member of Royal Institute of British Architects Research and Development Committee This publication provides a lot of food for thought not just for persons professionally involved in the food sector and officials dealing with national food policies but especially for local and regional authorities urban planners and architects NGOs and community based organisations health and environmental officers and concerned consumers Against the background of the growing awareness of the elevated social health and ecological costs of the mainstream globalized agri food system this book analyses the emergence of a new vision and many initiatives that seek to reconnect sustainable production with sustainable consumption Hence the book delivers what is promised in its title it discusses new concepts related to food and sustainable urban regional planning based on a critical review of innovative practices at various levels Ir Henk de Zeeuw Director RUAF Foundation For those who work to address the future challenges facing city development this book is a must Why Because today practitioners and professionals are being asked to understand urban food production within a social economic and ecological context This book shows us how these connections are being made The chapters are accessible and fascinating and will help beginners and experts to deal with food production in their everyday work Dr Carlo W Becker bgmr Landscape Architects Berlin Leipzig and Technical Universit

Towards a Sustainable America President's Council on Sustainable Development,1999 **SUDAN SOUTH: Doing Business, Investing and International Assistance in South Sudan Guide Volume 1 Strategic and Practical Information** IBP, Inc,2009-03-20 Doing Business Investing and International Assistance in South Sudan Guide *Towards Sustainable Rural Communities* University of Guelph. University School of Rural Planning and Development,Arkleton Trust,1994 **Toward a Sustainable America** Martin A.
