researchers in the field to design and conduct rigorous studies that produce reliable and valid speech data and interpretations. The authors thoroughly review specific techniques for obtaining qualitative and quantitative speech data including how to tailor the testing environments for optimal results. They explore observational tasks for collecting natural speech and experimental tasks for eliciting specific types of speech. Language comprehension tasks are also reviewed so researchers can study participants' interpretations of speech and conceptualizations of grammar. Most tasks are oriented towards children but special considerations for infants are also reviewed as well as multilingual children. Chapters also provide strategies for transcribing and coding raw speech data into reliable data sets that can be scientifically analyzed. Furthermore, they investigate the intricacies of interpretation so that researchers can make empirically sound inferences from their data and avoid common pitfalls that can lead to unscientific conclusions.

*Living Next to the Giant* Le Hong Hiep, 2017-03-09 This book examines how the interaction between political and economic factors under Doi Moi has shaped Vietnam's China policy and bilateral relations since the late 1980s. After providing a historical background, the book examines the conflicting effects that Doi Moi has generated on bilateral relations. It demonstrates that Vietnam's economic considerations following the adoption of Doi Moi contributed decidedly to the Sino-Vietnamese normalization in 1991 as well as the continuous improvements in bilateral ties ever since. At the same time, Vietnam's economic activities in the South China Sea and China's responses have intensified bilateral rivalry and put their ties under considerable strains. The book goes on to argue that Doi Moi has indeed brought Vietnam newfound opportunities to develop a multi-level omni-directional hedging strategy against China. Finally, the book concludes by looking at the prospects of democratization in both countries and assessing the future trajectory of their relations under such circumstances. As the most comprehensive and up-to-date survey of Vietnam's relations with China over the past thirty years, the book is a useful reference source for academics, policymakers, students, and anyone interested in contemporary Vietnam foreign policy in general and Vietnam-China relations in particular.

**The Australia-Japan Defence and Security Relationship 1945-2021** Peter McDermott, 2022-05-05 McDermott examines the origins, development, and prospects for the Australia and Japan Defence and Security Relationship. As the region faces threats from an increasingly assertive China, there is a growing prospect of conflict, particularly in Northeast Asia. McDermott discusses how Japan and Australia may cooperate in military action. Using previously classified government documents and interviews with those involved in the decisions, as well as his own experiences, McDermott examines how political imperatives have shaped the security side of the AJDSR. He offers new insights into the history and future of the relationship. An essential read for students and scholars of Asia-Pacific and Indo-Pacific security.
