

8 Effective, Proven Strategies to Educate Patients

01.

Use Plain, Non-medical Language

Break medical concepts down to the simplest terms your patients are not experts in medical lingo.

Plain language helps patients grasp information quickly, especially busy professionals. This in turn prompts patients to quickly seek medical care, take advantage of vaccinations, and receive preventative care.

Teach Patients Skills for Self-management

For patients living with chronic medical conditions, your aim should be to educate them to live a complete life even with their chronic illness.

With self-management education programs, your patients will increase their confidence, personal control, and self-efficacy.

02.

03.

Show or Draw Pictures

Creative imagery brings language to life and gets people's attention, especially those who are visual learners.

Patient education materials are more impactful with pictures or drawings that support the text.

Use Storytelling

Storytelling helps patients understand complex information and data, making it easier for patients to follow advice and treatment.

Also, listening to your patients tell their stories can help you accommodate cultural differences, and promote tolerance, empathy, and sensitivity.

04.

05.

Use Robust Patient Education Materials

One effective strategy in patient education is to provide multiple materials so that your patient can pick and choose based on their learning styles.

Integrate Modern Methods of Patient Education

Modern methods of patient education include:

- Technology resources
- Social media
- Mobile health apps
- Telehealth service
- Artificial intelligence (AI) solutions

06.

07.

Use the Teach-back Method

After you've used plain language to explain concepts to your patients, you should also ask them to explain the details back to you in their own words. This technique is called the teach-back method.

In various studies, the teach-back method led to improved patient satisfaction with medication education, discharge information, and health management.

Spend More Time with Patients

As challenging as health scheduling may be, healthcare providers need to increase the time spent with patients.

The extra time spent with the patient results in the following benefits:

- Improved clinical outcomes
- Reduced medical costs

08.

Patient Health Education Should Include
