Modern Political Science Robert Adcock, Mark Bevir, Shannon C. Stimson, 2009-01-10 Since emerging in the late nineteenth century political science has undergone a radical shift from constructing grand narratives of national political development to producing empirical studies of individual political phenomena What caused this change Modern Political Science the first authoritative history of Anglophone political science argues that the field s transformation shouldn t be mistaken for a case of simple progress and increasing scientific precision On the contrary the book shows that political science is deeply historically contingent driven both by its own inherited ideas and by the wider history in which it has developed Focusing on the United States and the United Kingdom and the exchanges between them Modern Political Science contains contributions from leading political scientists political theorists and intellectual historians from both sides of the Atlantic Together they provide a compelling account of the development of political science its relation to other disciplines the problems it currently faces and possible solutions to these problems Building on a growing interest in the history of political science Modern Political Science is necessary reading for anyone who wants to understand how political science got to be what it is today or what it might look like tomorrow The Emergence of Globalism Or Rosenboim, 2017-03-28 How competing visions of world order in the 1940s gave rise to the modern concept of globalism During and after the Second World War public intellectuals in Britain and the United States grappled with concerns about the future of democracy the prospects of liberty and the decline of the imperial system Without using the term globalization they identified a shift toward technological economic cultural and political interconnectedness and developed a globalist ideology to reflect this new postwar reality The Emergence of Globalism examines the competing visions of world order that shaped these debates and led to the development of globalism as a modern political concept Shedding critical light on this neglected chapter in the history of political thought Or Rosenboim describes how a transnational network of globalist thinkers emerged from the traumas of war and expatriation in the 1940s and how their ideas drew widely from political philosophy geopolitics economics imperial thought constitutional law theology and philosophy of science She presents compelling portraits of Raymond Aron Owen Lattimore Lionel Robbins Barbara Wootton Friedrich Hayek Lionel Curtis Richard McKeon Michael Polanyi Lewis Mumford Jacques Maritain Reinhold Niebuhr H G Wells and others Rosenboim shows how the globalist debate they embarked on sought to balance the tensions between a growing recognition of pluralism on the one hand and an appreciation of the unity of humankind on the other An engaging look at the ideas that have shaped today s world The Emergence of Globalism is a major work of intellectual history that is certain to fundamentally transform our understanding of the globalist ideal and its origins Das Zeitalter der Interdependenz Martin Deuerlein, 2020-08-31 Sozialwissenschaftliche Debatten ber globale Verflechtungen zwischen den 1960er und den 1980er Jahren Ab den sp ten 1960er Jahren diskutierten Zeitgenossen intensiv ber globale Verflechtungen in Weltpolitik und Weltwirtschaft Mehr als ein

Jahrzehnt vor dem Einsetzen der Globalisierungsdebatte erkl rten sie ihre Gegenwart zum Zeitalter der Interdependenz Martin Deuerlein untersucht fr die USA und die Sowjetunion erstmals umfassend solche globalistischen Gegenwartsdiagnosen in den Sozialwissenschaften und ihre Wechselwirkungen mit der internationalen Politik Der Autor zeigt wie das im 19 Jahrhundert etablierte Verst ndnis von Interdependenz als Verflechtung nationaler Einheiten ab den 1960er Jahren hinterfragt wurde Die Zunahme von Welthandel und Finanzstr men globale Probleme wie Hunger und Umweltverschmutzung und die neue Bedeutung multinationaler Unternehmen und anderer transnationaler Akteure lie en Beobachter an bisherigen Annahmen zweifeln Vor dem Hintergrund des Ost West und des Nord S d Konflikts wirkte globale Verflechtung zunehmend bedrohlich und schien neue politische Ans tze zu erfordern Wie eine den gewandelten Rahmenbedingungen angepasste Weltordnung jedoch aussehen sollte war heftig umstritten eine Frage die bis heute nichts Contract and Property in Early Modern China Madeleine Zelin, 2004-02-18 Providing von ihrer Relevanz verloren hat a new perspective on economic and legal institutions particularly on contract and property in Qing and Republican history this volume provides case studies to explicate how these institutions worked while situating them firmly in their broader Resources in Education ,1983 French Administrative Law and the Common-law World Bernard social context Schwartz, 2006 Schwartz provides a masterly exposition of administrative law through a comparative study of the French droit administratif arguably the most sophisticated Continental model As Vanderbilt points out in his introduction this is an important field that involves much more than administrative procedure It deals directly with some of the most crucial issues of modern government regarding the distribution of power between governmental units the resulting effect on the freedom of the individual and on the strength and stability of the state Reprint of the sole edition T his book represents a significant achievement Unlike so many volumes that roll off the press these days it fills a real need and though perhaps not the definitive work in English on the subject it fills it extremely well Frederic S Burin Columbia Law Review 54 1954 1016 Bernard Schwartz 1923 1997 was professor of law and director of the Institute of Comparative Law New York University He was the author of over fifty books including The Code Napoleon and the Common Law World 1956 the five volume Commentary on the Constitution of the United States 1963 68 Constitutional Law A Textbook 2d ed 1979 Administrative Law A Casebook 4th ed 1994 and A History of the Supreme Court 1993 Research in Education ,1973 The Geography of *Underdevelopment* Dean Forbes, 2010-11-26 First published in 1984 this title discusses the emergence of both the orthodox and political economy based approaches to underdevelopment in geography critically assessing their strengths and weaknesses and showing the relationship between intellectual developments and changing material conditions The work is primarily concerned with theories though it does contain much empirical material drawn from throughout the Third World The book examines the emergence of theories of development historically and considers the various contemporary theoretical schools both Marxist and non Marxist It goes on to consider four aspects of development which are of particular interest to

geographers namely the world economy regional imbalances the human nature theme and the analysis of urban space and concludes by suggesting some directions for future research **Modernism and the Social Sciences** Mark Bevir, 2017-09-28 This wide ranging and original study reveals how prevalent modernism has become in the social sciences With contributions from a number of leading international scholars Modernism and the Social Sciences explores the rise and nature of modernist tropes and approaches within social sciences such as economics econometrics behaviourism sociology administrative science linguistics history and anthropology The essays demonstrate how the social sciences turned away from the developmental historicisms of the nineteenth century Instead social scientists have become increasingly committed to synchronic and formal explanations that rely on models correlations and ideal types and they have increasingly appealed to systems and functions and to institutions and norms This book will reveal wider trends and parallels to specialists in particular disciplines and it will also appeal to those interested in intellectual history and social science theory This volume is a companion to Historicism and the Human Sciences in Britain a product of the Mellon project on Britain's Modernity published by Cambridge in 2017 Critiques of Capital in Modern Britain and America M. Bevir, F. Trentmann, 2002-10-28 This book is an innovative collection of essays by a new generation of British and American historians and political theorists Moving beyond a conventional action reaction view of capitalism and its critics the volume explores how critical traditions and beliefs have helped to shape capitalism Chapters follow diverse critiques in Britain and America and explore their Atlantic and imperial exchanges The volume includes chapters on questions of law and property in the Victorian empire traditions of land reform in nineteenth century America and Britain the influence of American romanticism on British socialism the role of Britain in American progressivism American and British consumer protection the evolution of trusteeship and ideas of cosmopolitan democracy the third way and narratives of globalization The editors introduction offers a critical historiographical survey and by stepping beyond the dogmatic opposition between post modernists and empiricists provides a new research agenda for an integrated study of capitalism and its critics **Cumulated Index to the Books** .1945 Round Table ,1868 Subject Index of the Modern Works Added to the Library of the British Museum in the Years ...
