GUTERMAN,1961 **New Perspectives on Brücke Expressionism** Christian Weikop,2017-07-05 New Perspectives on Brücke Expressionism Bridging History brings together highly renowned international art historians in a scholarly work that offers the first full length reassessment in English of the importance of the Brücke group to German modernism specifically and to international modernism more generally It challenges interrogates and updates existing orthodoxies in the field of Brücke studies by deploying new research combined with innovative interpretative approaches This is an exciting volume of essays with an interlinking tripartite structure that charts the significance of this pioneering German avant garde group in relation to various critical themes namely cultural and material identity collectivity and selfhood as well as defamation and rehabilitation The book is unique in the field in that it seeks to excavate specific historical research relating to the activities of the Brücke as a bohemian yet nonetheless enterprising artists community and considers the contributions of the key members in relation to the dynamics of that group rather than simply on an individual basis It thoroughly explores the historiography of the Brücke artists reception throughout the turbulent history of the twentieth century up until the present day New Perspectives on Brücke Expressionism Christian Weikop,2011-01-01 New Perspectives on Brücke Expressionism Bridging History brings together highly renowned international art historians in a scholarly work that offers the first full length reassessment in English of the importance of the Brücke group to German modernism specifically and to international modernism more generally It challenges interrogates and updates existing orthodoxies in the field of Brücke studies by deploying new research combined with innovative interpretative approaches *Twentieth Century British Naïve and Primitive Artists* Eric Lister,Sheldon Williams,1977 A Contested Art Stephanie Lewthwaite,2015-10 When New Mexico became an alternative cultural frontier for avant garde Anglo American writers and artists in the early twentieth century the region was still largely populated by Spanish speaking Hispanos Anglos who came in search of new personal and aesthetic freedoms found inspiration for their modernist ventures in Hispano art forms Yet when these arrivistes elevated a particular model of Spanish colonial art through their preservationist endeavors and the marketplace practicing Hispano artists found themselves working under a new set of patronage relationships and under new aesthetic expectations that tied their art to a static vision of the Spanish colonial past In *A Contested Art* historian Stephanie Lewthwaite examines the complex Hispano response to these aesthetic dictates and suggests that cultural encounters and appropriation produced not only conflict and loss but also new transformations in Hispano art as the artists experimented with colonial art forms and modernist trends in

painting photography and sculpture Drawing on native and non native sources of inspiration they generated alternative lines of modernist innovation and mestizo creativity These lines expressed Hispanos cultural and ethnic affiliations with local Native peoples and with Mexico and presented a vision of New Mexico as a place shaped by the fissures of modernity and the dynamics of cultural conflict and exchange A richly illustrated work of cultural history this first book length treatment explores the important yet neglected role Hispano artists played in shaping the world of modernism in twentieth century New Mexico A Contested Art places Hispano artists at the center of narratives about modernism while bringing Hispano art into dialogue with the cultural experiences of Mexicans Chicanas/os and Native Americans In doing so it rewrites a chapter in the history of both modernism and Hispano art Published in cooperation with The William P Clements Center for Southwest Studies Southern Methodist University

*Master of the Two Left Feet* Richard Meyer, 2022-09-13 An account of the life and work of a once famous self taught American artist of the 1940s and a study of how artists go missing from public memory The exhibition Morris Hirshfield Rediscovered at the American Folk Art Museum in New York City curated by the author and developed as an extension of the book is on view from September 22 2022 to January 27 2023 A garment worker and slipper manufacturer with no training in art Morris Hirshfield was never expected to make history Against all odds his wildly stylized paintings of female figures often nude animals and landscapes became internationally known in the 1940s Admired by Pablo Picasso Piet Mondrian and the French surrealists his peak moment of visibility occurred in 1943 when the Museum of Modern Art mounted a one man show of his work The exhibition was widely reviewed though mostly reviled by the press who jeeringly crowned Hirshfield Master of the Two Left Feet for his tendency to display the female body in that unorthodox fashion After the artist's death in 1946 his work was largely forgotten but in *Master of the Two Left Feet* art historian Richard Meyer rediscovers Hirshfield for twenty first century audiences offering full color reproductions that capture the vibrant imagination and sheer visual pleasure of Hirshfield's paintings The book also features a catalog of works compiled by curator Susan Davidson which provides the most comprehensive documentation of the artist's work ever assembled Ten years in the making *Master of the Two Left Feet* presents Hirshfield's unlikely career as a painter not only as a missing episode in the history of twentieth century art but as a case study of the ways in which artists go missing from historical knowledge and public memory By looking closely at Hirshfield and his milieu in 1940s Brooklyn Meyer demonstrates how much we have yet to learn and to see of the visual past
