on primary material from the Bibliothèque nationale de France and from Glasgow University Library's Stirling Maxwell Collection of emblem literature Laurence Grove builds on the ideas of Marshall McLuhan Elizabeth Eisenstein and more recently Neil Rhodes and Jonathan Sawday Divided into four sections Theoretics Production Thematics and Reception Text Image Mosaics in French Culture broaches topics such as theoretical approaches past and present to text image forms the question of narrative within the scope of text image creations and the reuse of visual iconography for diametrically opposed political or religious purposes The author argues that despite the gap in time between the advent of emblems and that of comic strips the two forms are analogous in that both are the products of a parallel mentality The mindsets of the periods that popularised these forms have certain common features related to repeated social conditions rather than to the pure evolution over time Grove's analysis and historical contextualisation of that mentality provide insight into our own popular culture forms not only the comic strip but also other hybrid media such as advertising and the Internet His juxtaposition of emblems and the bande dessinée increases our understanding of all such combinations of picture and text

La culture comme aventure Pascal Ory, 2008 L'histoire culturelle a désormais pignon sur rue Cette reconnaissance une époque où la formule suscitait le scepticisme est due en partie au talent de Pascal Ory Grâce lui depuis son premier texte sur le sujet paru en 1981 on accepte ce concept neuf Ce recueil défend et illustre l'histoire culturelle il réunit une sélection des textes publiés entre 1982 et 2007 et propose certains inédits Autant d'études de cas du surréalisme la gastronomie de la vexillologie la bande dessinée de l'histoire du cinéma l'art populaire qui permettent de délimiter concrètement le champ de ladite histoire approché dès longtemps comme histoire sociale des représentations tout en posant les questions de méthodes auxquelles cette histoire tente de répondre Cet ensemble est précédé d'une introduction inédite où Pascal Ory présente les thèses videmment au nombre de treize qui définissent les enjeux fondamentaux de ce débat
