Mondrian in the Sidney Janis Family Collections, New York Piet Mondrian, 1988 **Mondrian** Carel Blotkamp, 2001 Piet Mondrian was one of the great pioneers of abstract art This book looks at the relationship between his paintings and his theories on art **Music and Modern Art** James Leggio, 2014-07-16 Music and Modern Art adopts an interdisciplinary approach to the relationship between these two fields of creative endeavor **Paintings and the Past** Ivan Gaskell, 2019-05-13 This book is an exploration of how art specifically paintings in the European manner can be mobilized to make knowledge claims about the past No type of human made tangible thing makes more complex and bewildering demands in this respect than paintings Ivan Gaskell argues that the search for pictorial meaning in paintings yields limited results and should be replaced by attempts to define the point of such things which is cumulative and ever subject to change He shows that while it is not possible to define what art is other than being an open kind it is possible to define what a painting is as a species of drawing regardless of whether that painting is an artwork or not at any given time The book demonstrates that things can be artworks on some occasions but not necessarily on others though it is easier for a thing to acquire artwork status than to lose it That is the movement of a thing into and out of the artworld is not symmetrical All such considerations are properly matters not of ontology what is and what is not an artwork but of use that is how a thing might or might not function as an artwork under any given circumstances These considerations necessarily affect the approach to paintings that at any given time might be able to function as an artwork or might not be able to function as such Only by taking these factors into account can anyone make viable knowledge about the past This lively discussion ranges over innumerable examples of paintings from Rembrandt to Rothko as well as plenty of far less familiar material from contemporary Catholic devotional works to the Chinese avant garde Its aim is to enhance philosophical acuity in respect of the analysis of paintings and to increase their amenability to philosophically satisfying historical use Paintings and the Past is a must read for all advanced students and scholars concerned with philosophy of art aesthetics historical method and art history The Artists of De Stijl Donald Langmead, 2000-07-30 This guide summarizes and evaluates the available literature concerning the Dutch artistic movement De Stijl which was headed by art critic and painter Theo van Doesburg and was comprised of such architects and artists as J J P Oud Piet Mondrian Rovert van t Hoff and Georges Vantongerloo The loose knit group took its name from the avant garde journal they first published in October 1917 De Stijl The Style Although it was

limited to Holland De Stijl promoted ideas about a universal art combining tenets of theosophy and a holistic view of the oneness of all things including arts and culture and socialism This bibliography examines publications that deal with the movement and with affiliated groups and individual members Art historians and scholars of modern and of Dutch art and architecture will appreciate this comprehensive tool for further research Within individual sections for the movement and for its members entries are chronologically arranged with separate categories for books monographs and catalogs and periodicals A final section analyzes and presents the contents of the journal De Stijl
