Dictionnaire universel d'histoire et de géographie contenant Marie Nicolas Bouillet, 1866

Monnaie et finances à Byzance: analyses, techniques Cécile Morrison, 2024-12-11 In collaboration with colleagues in physics and metallurgy Cécile Morrison has helped transform our knowledge of the techniques of late Roman and Byzantine coin production The results are illustrated in the studies here which look in detail at standards of refining and processes of debasement This analysis can also identify sources of metal and explains the enigmatic appearance of concave gold coins in the 11th century The volume itself opens with a comparison of the methods of numismatics and sigillography and an epigraphic study showing the conservatism of the Byzantine coinage up until 1204 The following articles turn to the finances and economy of Byzantium making full use of recent advances in numismatics They aim to assess the importance of the state and other economic agents during the empire's different phases of expansion and contraction and demonstrate how fiscal documents and legislation on treasure hoards can be used as evidence for the state of public finances

Money in the Pre-Industrial World John H Munro, 2015-10-06 The papers in this edited volume discuss key elements of monetarism including coin denominations the role of bullion and case studies of substitute moneys

Éléments d'économie politique ... Bertrand Nogaro, 1913

Les carnets des Guides Bleus : Paris au fil de la Seine dévoilé Isabelle Backouche, 2018-10-03 Connaissez vous vraiment les rives de Seine Savez vous que l'île Saint Louis était encore l'époque de Voltaire un quartier de Paris qui est loin de tout que la Seine avec ses bouquinistes est la plus grande librairie ciel ouvert du monde que la baignade était autrefois autorisée l'intérieur de bateaux spaciaux que lors de la crue de 1910 le fleuve atteignait la gare Saint Lazare Ce nouveau carnet de la collection des Guides Bleus présente sous un nouveau jour le fleuve nourricier de la capitale dont les quais sont classés au Patrimoine mondial de l'Unesco Des visites commentées qui vous racontent l'art et l'histoire la manière d'un guide professionnel Une foule d'anecdotes pour découvrir les personnages plus ou moins célèbres qui ont façonné l'usage du fleuve ou habité ses rives les petites histoires des gens situées dans la grande histoire de Paris Une animation audio Gens de la Seine qui restitue l'ambiance du fleuve au 18^{ème} siècle avec ses milliers disparus Des focus pour vous représenter mieux la Seine autrefois et des Petits plus pour faire ressortir des éléments qui aident la compréhension de la visite Des quiz pour tester vos connaissances tout en vous amusant Un

joli carnet Instructif et ludique s'offrir ou offrir tous les amateurs de culture **La planète financière** Laurent

Carroué, 2015-02-18 Si la crise économique et financière mondiale est omniprésente dans l'actualité journalistique et les débats la géographie du système financier mondial et ses territoires sont encore peu étudiés alors que la mondialisation est par essence même un phénomène géographique. L'objectif de cet ouvrage est donc d'apporter la fois une véritable connaissance des processus et acteurs à l'œuvre dans les économies et sociétés contemporaines et une boîte à outils conceptuelle et méthodologique propre à la géographie. Car loin d'être déterritorialisé le système financier est au contraire profondément ancré dans les réalités sociales, culturelles, économiques et géopolitiques qui organisent l'espace mondial. Après avoir abordé les questions de la production, de la mobilisation et de la circulation de la richesse ce manuel vient analyser l'émergence puis la crise du régime d'accumulation financière apparue dans les années 1975-1980 en en décortiquant les structures et fonctionnements. Sont ensuite abordés les grands acteurs : banques, assurances, fonds de pension, shadow banking, fonds souverains, les principaux marchés financiers, monnaies, actions, dettes, matières premières et leurs territoires spécifiques. Enfin l'auteur explore les enjeux politiques et géopolitiques de la finance et les questions de gouvernance. Darius in the Shadow of Alexander Pierre Briant, 2015-01-05 A

detailed and incisive analysis of the recorded history surrounding the last king of Achaemenid Persia Darius III. The last of Cyrus the Great's dynastic inheritors and the legendary enemy of Alexander the Great, Darius III ruled over a Persian Empire that stretched from the Mediterranean to the Indus River. Yet despite being the most powerful king of his time, Darius remains an obscure figure. As Pierre Briant explains in the first book ever devoted to the historical memory of Darius III, the little that is known of him comes primarily from Greek and Roman sources which often present him in an unflattering light as a decadent Oriental who lacked the masculine virtues of his Western adversaries. Influenced by the Alexander Romance as they are, even the medieval Persian sources are not free of harsh prejudices against the king Darius whom they deemed deficient in the traditional kingly virtues. Ancient Classical accounts construct a man who is in every respect Alexander's opposite: feeble-minded, militarily inept, addicted to pleasure and vain. When Darius's wife and children are captured by Alexander's forces at the Battle of Issus, Darius is ready to ransom his entire kingdom to save them, a devoted husband and father perhaps, but a weak king. While Darius seems doomed to be a footnote in the chronicle of Alexander's conquests, in one respect it is Darius who has the last laugh. For after Darius's defeat in 331 BCE, Alexander is described by historians as becoming ever more like his vanquished opponent: a Darius-like sybarite prone to unmanly excess. Praise for *Darius in the Shadow of Alexander* Briant is the world's leading authority on the Persian empire that Alexander conquered, one of few living scholars with the linguistic mastery to study both the Greco-Roman and Persian sources and hence examine the reign of Darius from European and Asian perspectives. In the intensely thorough analysis he conducts here he finds reasons to mistrust both traditions and thereby qualify the charge of cowardice that has shadowed Darius for more than two millennia. His insights are penetrating and his mastery of the evidentiary record is unsurpassed. Having deftly taken down much of the

edifice supplied by the ancient accounts of Darius Briant finally turns architect and shows us how the rebuilding might begin James Romm The Wall Street Journal Briant's work as always is a significant contribution to Achaemenid studies a display of historiographical learnedness whose methods can benefit historians across ancient studies Jennifer Finn Bryn Mawr Classical Review

Colonial and Imperial Banking History Hubert Bonin, Nuno Valério, 2015-12-14 This book sheds new light on the role played by European banks in the economic colonization of much of the globe Based on previously unused archival material it examines the origins and development of imperial banking systems Contributors utilize new developments and methodology in business history to explore a broad range of countries including Cuba Brazil Portugal South Africa and Algeria The central topic of interest in this book is the institutional history of central issuing and rediscounting banks While much attention has been paid to the British Dutch and French banks and financial institutions this book is unique in its focus on colonial and overseas banking Using a range of case studies this book highlights both the immense variety and cohesion that defined colonial banking practices This book will be of interest to researchers concerned with international finance and banking and economic history

Dictionnaire universel d'histoire et de géographie Marie Nicolas Bouillet, Alexis Chassang, 1872 **Dictionnaire universel d'histoire et de géographie** Bouillet, 1866 [French Trade in Istanbul in the Eighteenth Century](#) Edhem Eldem, 2023-08-28 This work deals with French trade in Istanbul in the eighteenth century using French and Ottoman sources and integrating the political and social dimensions of the question It also sheds light on the financial dimension of trade particularly that of bills of exchange and monetary trade linking Istanbul to other Ottoman cities and to European financial centers Finally it tackles the issue of western economic penetration arguing that despite some signs of domination French control over the market was efficiently opposed by local actors that economic integration with the West was often realized on equal terms and that much of the domination witnessed toward the end of the century was in fact the result of French diplomatic leverage and of the gradual estrangement of non Muslim traders from the Ottoman commonwealth

War, Power and the Economy A. González Enciso, 2016-10-04 War Power and the Economy contains a comparative history of Great Britain France and Spain the three rival empires of the 1700s It explores how the states prepared for war what kind of economic means they had what institutional changes they implemented and how efficient this was As such the book presents the first comparative synthesis aiming to understand the outcome of the global confrontation in the eighteenth century Faced with the challenge of paying for new and more costly wars some countries found flexible ways to get more money and better supplies whereas others did not The development of freer colonial markets the increase of consumption and its taxation the problems of venal administration or the different systems of patronage with contractors are some of the factors explaining the divergences that were made clear by 1815 This book explores political and economic dimensions of the eighteenth century European state in order to explain why and how changes in power as an outcome of war depended upon the available means and the way they were obtained and used The book takes the idea that making war

or preparing for it obliged governments to make important changes in their institutions so that during the eighteenth century the state in many ways formed itself through war efforts Ultimately this study aims to show how closely political and military success was entwined with economic interests This volume is of great interest to those who study economic history political economy and European history *Index to the Catalogue of Books in the Upper Hall of the Public Library of the City of Boston* Boston Public Library,1861 **Models of the History of Philosophy** Gregorio Piaia,Giovanni Santinello,2015-08-24 This is the third volume of Models of the History of Philosophy a collaborative work on the history of the history of philosophy dating from the Renaissance to the end of the nineteenth century The volume covers a decisive period in the history of modern thought from Voltaire and the great Encyclop die of Diderot and d Alembert to the age of Kant i e from the histoire de l esprit humain animated by the idea of progress to the a priori history of human thought The interest of the philosophes and the Kantians Buhle and Tennemann in the study and the reconstruction of the philosophies of the past was characterized by a spirit that was highly critical but at the same time systematic The material is divided into four large linguistic and cultural areas the French Italian British and German The detailed analysis of the 35 works which can be considered to be general histories of philosophy is preceded and accompanied by lengthy introductions on the historical background and references to numerous other works bordering on philosophical historiography **National Union Catalog** ,1978 Includes entries for maps and atlases Catalogue-tarif à prix forts et nets de tous les journeaux publiés à Paris et des principaux politiques et littéraires des départements, d'Allemagne, d'Angleterre, d'Italie, et d'Espagne, parus jusqu'en Novembre, 1873. ... Première édition A. PONCHAUD,1873
